There were so many present we cannot find space to name them.

Williamsville, Dec., 30, 1914.

**Editor News:-**

I have planned and planned to write a short letter to your interesting paper, but have kept putting it off from time to time, so will now endeavor to do so.

I won't try to describe this country, for I feel like it has been described so many times that there is not anything left for me to tell. I will tell more of the social side of it.

We have organized a literary society at the Prairie School, and it has been the center of attraction for the country people all around, and a great many town people this winter. It has just 50 members. We meet every Friday night at 7.30, and debate, spell, sing, recite, and in fact, do anything that will prove to be helpful in an educational way. We have a literary paper which is also nice. Officers are elected every two months as follows: President, Vice President, Secretary, Treasurer and a program committee of 3 members, editor, for our paper. The critic is appointed by the president each night, also sergeant at arms.

I wish that every school would organize one. Then besides that there are numerous other things to go to which makes this a very fine place for one to live. I am not in sympathy with those who say people here are the most wicked they ever knew. Experience has taught me there are good and bad people wherever you go. I am loyal to my "old Kentucky," but I must say they are no better there than here.

I have changed my address to Williamsville, Ill., R. R. 26. You will find enclosed \$1 to pay for The News another year.

Yours truly,  
Mrs. Brazilla E. Cofer.

**A Permanent Cure For Chronic Constipation**

Although those may dispute it who have not tried it, yet thousands of others, who speak from personal experience, assert that there is a permanent cure for chronic constipation. Some testify they were cured for as little as fifty cents, years ago, and that the trouble never came back on them, while others admit they took several bottles before a steady cure was brought about. The remedy referred to is Dr. Caldwell's Syrup Pepsin. It has been on the market for over a quarter of a century and has been popularized on its merits, by one person telling another. The fact that its strongest supporters are women and elderly people—the ones most persistently constipated—makes it certain that the claims regarding it as a permanent cure for constipation have not been exaggerated.

It is not violent like cathartic pills, salts or waters, but operates gently, without griping and without shock to the system. It contains tonic properties that strengthen the stomach and bowel muscles so that in time medicines of all kinds can be dispensed with and nature is again solely relied on. Among the legions who testify to these facts are J. F. Blankenship, Sharon, Tenn., and Beulah L. Rogers, Kosmosdale, Ky., and they always have a bottle of it in the house, for it is a reliable laxative for all the family from infancy to old age.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. H. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.
