### LEVEL GREEN

MR. EDITOR: It snowed again last night and the weather has been rather on the cool order today in the Hollow.

Elder Davis closed his meeting at Poplar Grove schoolhouse last night, with several additions from the Baptists and one from the Methodists. He spent Monday last with me and I find him to be a fine conversationalist as well as a good preacher. He told me that since he was converted in 1891, that he had immersed about 600 converts.

He is certainly a preacher of great power and especially so, if we consider his literary qualifications, but then such as he is are chosen to put the devil to flight, and always have been; and he fights him anywhere and at all times.

M. F. Craig of Quail, brought his niece, Miss Joan Craig, to Level Green Monday where she entered Sam Brown's school. She thinks of teaching at Red Hill this season, having taught Proctor school last year.

Uncle Bill and Rev. David R. Gentry, assisted by Logan Hasty have been holding court at Mt. Vernon for the past ten days. 'Squire Wm. Kinley, of Walnut Grove district, has been kept busily engaged in his court for some time.

Mr. Maretburg, you may drop the Pike question, for it is dead in Rockcastle. You might as well sing Samms to a dead Hoss as to talk Pike to our people, for Ephraim is jined to his Idol.

Now fellow citizens as we cant get Pikes in this county, let us quit talking impossibilities, go to work right and improve our county roads as much as our limited time and means will permit. Let us see which overseer in the county can and will put up the best job. Besides the help we will get from the county, we will get twenty days free rock hauling on our section. Now boys, I'm an overseer and I'll work (have it done of course) mighty hard to put my section in better condition than the other boys holding similar positions.

I have heard of people becoming home sick, but I am sick of home. Here I've been (in the house) for two long, long months, no one to pity, comfort or console—well, well, never mind, when the weather gets warm and black snakes and lizards begin to crawl from winter quarters, when the wood pecker and jay bird return and the young lamb is herd on the hill side, I hope to have finished up with the doctors, leave Betsy and the old homestead for a short time and jine in a fishin party or duck hunt on Rockcastle River.

Prof. Teague gave us a short call on Saturday which was cheer-

ing, elevating and resuscitating. No, Letherhead, Squire Brannyman, Esq. has never paid those chickens, and if he dont come forward inside ov the next tu years I shal sorter begin to think that he has forgotten his promise. The Squire has sum fine focks dogs, sum imported geece and turkeys too.

M. W. DeBord has been confined to his room for some days, but he is not seriously sick.

Very truly, respectfully, &c.  
BUCK VARNON.

### WEAK AND LOW-SPIRITED.

A Correspondent Thus Describes His Experience:

"I can strongly recommend Herbine as a medicine of remarkable efficacy for indigestion, loss of appetite, sour tast in the mouth, palpitation, headache, drowsiness after meals with distressing mental depressions and low spirits. Herbine must be a unique preparation for cases such as mine, for a few doses entirely removed my complaint. I wonder at people going on suffering or spending their money on worthless things, when Herbine is procurable, and so cheap." 50c a bottle at Chas. C. Davis.

There was an affecting scene in the Legislative hall at Jackson, Miss., Saturday when Mrs. Jefferson Davis tried to speak in reply to eulogy of her dead husband. She broke down and cried, being unable to speak.

### FARM FOR SALE.

A farm consisting of 450 acres, located 6 miles West of Mt. Vernon and known as the H. G. Sutton farm. The above named land will be divided into three tracts and each sold separately. Good improvements, splendid orchard and well watered.

Sale will take place here on the 4th Monday and a credit of six months with approve security will be given.

H. C. SUTTON, JR.

Some cows are good summer and some good winter milkers, but taking the whole year through, and with both kinds kept under favorable conditions, it has been found that the winter milkers, as a rule, give about 1,000 pounds more milk than spring or summer milkers. As the value of the winter milk is always greater than that of the summer; the extra 1,000 pounds so produced should add at least \$12 to the credit for the year of the good winter producer.

A great dairyman, one who has made big money in the business, and who owns fully a thousand cows; gives it as his opinion that "cows closely confined, and fed on swill and hay exclusively, will, within a year, and in nine out of every ten individuals, develop tuberculosis." He goes on to say that he "tried swill for eighteen months," and with his "stables kept clean and well ventilated, and with the results as" indicated. That was enough swill for him—at the end of the eighteen months he stopped feeding it, "after which the number of cows that had to be disposed of because they had consumption was reduced to so few" as not to be worth noticing.

At the sale of Dennis Hanly, near Millersburg, a large crowd was present. Auctioneer Forsyth reports: Work horses, sold from \$80 to \$92 50; cows, \$30 to \$40; 2-year-old steers, \$45; yearling steers, \$31; calves, \$13 50 to \$14; sheep, \$3 30 to \$3 65; mules, \$50; sows, \$12 50 to \$17; shoats, \$2 50; turkeys, \$1 30 each; chickens, 31 cents each; corn, \$2 65 to \$3 80 per barrel in crib; timothy hay, \$12 10 to \$12 60 per ton; fodder, 25 cents per stack; farm implements sold well.—Paris Kentuckian.
