Among those from Mt. Vernon attending the good roads meeting at Ottawa [Union school house] Saturday last were Misses Rose McCord, Tea Fish, Elizabeth Adams, Rebecca Watson, Mrs. (le) W. GOOD MEETING:—One of the best good roads meetings that has been held, took place Wednesday evening at Chestnut Ridge school house. Ashley Owens, the good roads apostle of Sparks Quarry telephoned over to Chairman Chas. C. Davis Wednesday that the crowd would be there and wanted to hear some good road speeches. So Chairman Davis began at once to get up a bunch of speakers and when the back was ready to pull out, in it was to be found such orators as Capt. A. N. Bentley, Cashier W. L. Richards, Chairman Chas. C. Davis, Cashier F. L. Thompson, Jr., C. D. Sutton, Dr. J. F. Green and the writer. On arriving at the little school house on the hill we found the house filled to overflowing with people eager to know more of the good roads movement. The Sparks Quarry Choir favored the audience with a few choice selections and we want to add that we are ready to bear witness to the fact this choir is deserving of the reputation which it bears of being the best in the county. After the music was over the oratory began. Capt. Bentley led the way followed by Mr. Ashley Owens in well poised arguments followed by others of the Mt. Vernon delegation. What was lacking in oratory and real good speech making was made up in enthusiasm and the meeting was in every way a most profitable one. Out of the one hundred or more present only one man spoke against the road issue and when Capt. Bentley took the vote for the good women, the vote was unanimous on the bond issue for roads.

In the matter of the State Fair secretary's refusal to permit Rockcastle county to be represented in the boys' encampment held at the Fair during exhibition week. Every other county in the state was accorded this privilege with expenses paid by State Fair. Owing to the bungling of secretary the credentials failed to arrive here or be received by John L. Lair, the boy accredited to the encampment and who had complied with all necessary requirements. When secretary was called over telephone relative to the matter he arbitrarily, peremptorily and discourteously refused to correct his error or permit the boy to come to Louisville and secure credentials. Our people are more than indignant, and a strong protest with the correspondence in the case will be laid before the Boosters Club and Commercial Club of Louisville to ascertain if they endorse such shameful treatment as the secretary placed upon Rockcastle county, a county that is supposed to have equal privileges with all others of our State. Mr. Dent, the Secretary of the Fair, will surely have reason to believe that Rockcastle is on the map of Kentucky before the matter is a closed incise if our citizens will know the reason why.

Miss Tempest Ward, daughter of Mr. and Mrs. J. H. Ward, of Brodhead passed a successful examination in Hardin county and has been awarded a state certificate. Miss Ward is one of the most successful teachers in Hardin county and her success is due to the fact that she does not lack for energy. She is pleasant, sociable, refined and deeply interested in Education, being a former pupil of the Eastern State Normal of Kentucky. It comes without saying that Miss Ward is endowed with that indefatigable energy that knows no failure. Her work has been largely confined to the rural districts and she is in touch with the more progressive ideas which concern rural improvements.

CEDARVILLE.

Harvesting todder is the order of the day in this part.—Mrs. J. E. Norton is visiting her daughter in Clairfield Tenn.—G. W. Renner is having trouble with his eyes, he has been almost blind for the last 10 days.—Hiatt Mink is teaching the Buffalo school, district no. 23, and as he is using every effort to bring the scholars under control and doing his best for their good it seems as though some of the parents think he is too hard on the children, but I am glad to see Hiatt hew to the mark, for if the other teachers had done what he is doing probably this part of the country would have been better off. Buffalo is a first class school and has been for many years and has never turned out a teacher. If the school law was enforced to full extent there would be more young men and women who could read and write. But it is the object of the majority of the teachers to get the money.

The news has reached this part that the Allison R. R. has shut down for awhile. It didn't say whether it was on account of the President election or forgery.—The King of Pain man was through this part last week shaking hands and talking up his medicine.

Union School house, now Ottawa post office was enlivened by a big turnout of the people at the good roads meeting and teachers association held there last Saturday. The teachers exercises held the boards till noon with an interesting program well carried out. After some good music by the Mt. Vernon band at noon a splendid dinner was spread by the good ladies in attendance.

When dinner was over and cleared away speaking began. The speakers were C. C. Davis, chairman, D. R. Gentry, C. G. Williams, Ashley Owens, E. S. Albright, Miss Rose McCord and Judge L. W. Bethurum, in the order mentioned. The fact brought out in the discussion showed that the proposed bond issue could be easily paid within 30 years without any hardship upon anyone; that it was no added hardship to non-property holders but a relief as it takes off the militia duty of six or more days and cannot add any poll tax; that the larger portion of the tax will be paid by the railroad corporations that this \$100,000, or the bigger part thereof would be expended right here at home for labor and construction of the proposed pike—that the low rate of interest, 4 per cent, at which these bonds can be floated, gives easy sailing in that line; that the militia system is a failure for several reasons; that when the court house was built in 1873 at a cost \$17,000 the taxable property was but little in excess of \$100,000 and today is at the three million mark, which shows how much easier we could handle the proposed issue of \$100,000 than could \$17,000 be taken care of when court house was built; that all progressive counties that have succeeded in procuring turnpikes have done so by bond issue; that a man today who puts in six days on the roads as the law requires, would receive \$9 for his work if the bond issue was in force instead of being compelled to donate his labor and board himself; that it is the duty of everyone to work and push for better roads and to throw away the words "we cant"; that the Ladies Auxiliary good roads committee with Miss Rose McCord as president and Mrs. A. E. Miller, secretary are doing valiant service in the cause.

Quite a number of opponents to the proposition were found but when the matter was properly explained in many instances they became enthusiastic supporters.
