The first airplane to pass over Mt. Vernon, went thru yesterday morning. The machine was headed South, was traveling at a very high altitude and from the short time it took the air bird to pass out of sight, was evidently traveling at a very high rate of speed. The noise of the motor could be distinctly heard, yet the machine was so high that with the natural eye, it looked to be a very small affair.

This is our first week to fully appreciate the situation where there is a paper shortage. The L. & N. failed to deliver our paper and only through the courtesy of E. C. Winters who sent us enough paper to print what we do have, are we enabled to do what we have. Additional ads and several columns of good news items had to be omitted, but the railroad did not bring our paper and therefore we are giving our patrons the best we can.

## NOTICE.

A liberal reward for any information that will lead to the finding of one deep Bay Horse, 5 years old, about 16 hands high with a slight coked place on the right hind hoof.

ROY L. WELLS,  
East Bernstadt, Ky.

The writer, on a return trip from Louisville Monday had the privilege and pleasure of stopping for a few moments to see Ray Miller, the youngest son of the late M. C. Miller. Ray lives six miles from Lawrenceburg on a farm, he is married and has one baby, a little girl two years old. He is book keeper for the Cedarbrook Distillery at a good salary. Morning and evening is spent in his tobacco and other crops. Ray has the reputation of being a hustler and everything indicates as much. His brother, Scott is in the automobile business in Versailles and is doing well.

The indications are that the Farmers' Community Meeting to be conducted here on the 14th, 15th and 16th will be a success, not only from the fact of it being a good meeting, but also from a large attendance. There is a general interest in this meeting and to hear people from all sections of the county saying they expect to attend. There are very few farmers in the county who would not appreciate receiving one of these Duroc pigs, and in addition to these prizes, we have some other very valuable ones to offer those who attend the afternoon sessions, such as three months subscription to daily papers, yearly subscriptions to farm papers and local weekly papers. It will be worth while to attend these meetings.

The writer had the pleasure of stopping for a few moments in Shelbyville Monday to see J. H. Barnett and family. We found Mr. and Mrs. Barnett well and enjoying good health. Grider Barnett is a half owner in Shelbyville's best garage and having all the work he can do. Allen, who was recently discharged from the service having the rank of a Major, is at home for the summer, but will fill a chair in Georgetown College when the school opens in September. The youngest son, Capt. Jim Barnett is still in the service. Mr. Barnett and family are glad to be back in Shelby, their native county, but there will long linger with them a tender spot for Rockcastle, where they spent several pleasant and profitable years and have many warm friends.

Elijah Abney, who has been here the past week having his eyes treated, says they are doing fine. He thinks he will be able to go to his home in a few days.

Washington, June 30 — The Department of Justice is understood to have decided that sale of light wines and beer shall not be interfered with under the wartime prohibition law.

Instructions went forward today to District Attorneys in wet territory that the Department would abide by the recent decision in the test case brought in New York and would not prosecute dealers selling beverages containing not more than 2 3-4 per cent. alcohol.

Attorney General Palmer will issue a statement to day on the Department's attitude on the enforcement of the law which becomes effective at midnight.

In permitting saloons to remain open for the sale of 2 3-4 per cent. beverages, the Department of Justice is understood not to forego the privilege of prosecution later, if its contention that 2 3-4 per cent. beer is intoxicating is upheld. In short, the question merely is held in abeyance until a final decision is reached in the test cases. The Supreme Court cannot pass on the question before October.

Laws for enforcement of both war-time and constitutional prohibition were favorably reported to the House late to-day by the Judiciary Committee. They define as intoxicating any beverage containing more than one-half of one per cent. of alcohol. Consideration of the measure is not to begin until after the Independence day holidays, but prohibition leaders expect them

## CHANDLER SIX \$1795

## The Fact of the Matter

YOU can see for yourself that the Chandler is the most closely priced fine car in the whole American market. Printer's ink lends itself to the presentation of claims and facts alike. We make it our purpose, in speaking of the Chandler, to deal with facts only.

And this we believe to be the fact, that no other automobile, built so well, built of such good materials, built in such good design, is priced within hundreds of dollars of the Chandler price.

The Chandler motor is truly a great motor. There is none better. Fifty thousand Chandler owners know it. And countless thousands of their friends and neighbors know it. Now in its seventh year of constant development, without radical change of design, it approximates perfection.

The whole Chandler chassis, simple and sturdy, is dependable and enduring. And Chandler bodies, graceful in line, roomy and comfortable, luxuriously upholstered and beautifully finished, are suggestive of the best custom work.

## The New Series Touring Car

will delight you and your family. It is big and handsome, seats seven grown persons without crowding, and will take you anywhere in comfort. The Chandler is fast when you want speed. It is flexible and instantly responsive in crowded traffic. It is powerful on steep grades.
