TO PREVENT BURIAL ALIVE.

Suggestion of a Life Insurance Man That May Be of Considerable Value.

Several insurance men were talking lately about new wrinkles in the business. "I firmly believe," said one, reports the New York Mail and Express, "that insurance against being buried alive would pay. It is surprising how many people have a dread that suspended animation may be mistaken for death. I know a woman who has actually made her husband promise that if he survives her he will stick a hairpin through her heart before she is buried to make sure that no spark of life remains. In certain parts of Europe they have what are known as mortuary houses, where the dead are taken and subjected to various tests to make sure that death is absolutely certain. I believe there is a bill providing for a somewhat similar course now before the Massachusetts legislature. If such a mortuary building is established multitudes of people would gladly pay, say \$100 to be insured in a company that would guarantee to make the necessary tests before burial or cremation."

A VERITABLE WHITE CITY.

Archangel, in Western Russia, Covered by a Mantle of Snow Most of the Year.

For three months in the winter Archangel, now to become the great western port of Russia, scarcely sees the sun, and in the seven months in the summer seldom loses sight of it. Yet there is no city in the whole of Europe which lies for so many months—four the greater part of the year, in fact—under a mantle of snow, and because of this, the Russian folk call it "The White City," says Pearson's Magazine.
