LOUISVILLE TOBACCO MARKET.—Saturday Evening, March 3.—The leaf tobacco market continues active, and the market is generally bringing good prices. In fact, the market is much stronger for certain grades than it has been in a long time. Unsold stocks of both Burley and dark are very low. There is less dark tobacco in this market and in other surrounding markets than at this season of the year for a long time, and the demand for it is responsible for the ruling quotations. Irregularity was noted for the finer grades of Burley, but the common and medium grades are practically unchanged.

The offerings of the week showed little color, but were of fair quality, though a good many hogheads were in soft condition. Medium and good red leaf were irregular, but a better demand was noted for fine red leaf suitable for wrappers. Colony smokers were firm, and were also common grades. All bright grades were in good request, and red tips and common red leaf were up to unchanged. Few changes were noted on old Burley offerings. Prices were firm for lugs and bright grades, but offerings were light.

The new dark consisted mainly of air-cured types. The offerings were small and the quality only fair. Good lugs and short leaf were up about 1/2c, and common and medium lugs were firm, also trashes. Short rebanding brought the best prices of the season, and all rebanding styles were in request. Old dark brought higher prices, but offerings were limited.

The total sales of tobacco in the Louisville market during the past week amounted to 4,350 hogheads, 3,868 auction sales and 482 private. This shows a decrease compared with the same week in 1905, when the sales totaled 4,697 hogheads. For the same week of 1904 the total was 5,327 hogheads and in 1903 3,639 hogheads. From January 1 to date the total sales have been 45,193 hogheads, which is a handsome increase over the same period of 1905, when sales were 31,848. During the same period of 1904 the total sales were 21,339 hogheads and in 1903 35,138. Of the past week's sales 5,533 hogheads were Burley and 817 dark; old crop 659 and 1905 crop 3,691. Since January 1 Burley sales have amounted to 38,310 hogheads and dark to 11,883. During the same period of 1905 Burley sold to the extent of 25,091 hogheads and dark 6,759; in 1904 Burley 17,519 and dark 6,820, and in 1903 Burley 28,888, dark 6,250. Rejections for the past week were 520 hogheads, compared with 560 for the same week in 1905 and 645 in 1904. Rejections since January 1 amount to 5,080 hogheads, compared with 3,629 for the same period a year ago and 2,969 in 1903. During the week receipts were 3,474 hogheads. During the same week in 1905 they were 4,123 hogheads and in 1904 2,860. Receipts to date from January 1 total 38,589 hogheads, against 37,794 for like period of 1905 and 19,995 in 1904.—Courier-Journal.

JURY DISAGREED.—The jury that tried Wm. Gregory at West Union, O., on the charge of incendiarism at Manchester disagreed. His wife was tried on the same charge and the jury also disagreed in her case.

GIVES HIMSELF AWAY.—Eustus Johnson—Yo' honah, am I expected to tell de truth? Magistrate—You certainly are. Eustus Johnson—Den I guess yo' had bettah go ahead 'n' sentence me fast.

A WONDER.—Mr. Bodawitz, of Ardmore, I. T., a prosperous merchant, will have his name preserved in the pages of history as the only person who has ever declined to meet the President of the United States when it was the easy and natural thing to do. Mr. Bodawitz went to Washington to file charges against an applicant for a Federal job. He succeeded in knocking out his name and while calling at the White House Secretary Lobb asked him if he would not like to see the President. Mr. Bodawitz looked at his watch and replied: "It is now 12 o'clock and I have an appointment over at the Arlington in ten minutes. 'Couldn't you drop around in the morning?' Secretary Lobb when he had caught his breath. "No," replied Mr. Bodawitz, "I am going down to Mount Vernon in the morning and will take the 10 o'clock train for the West." Mr. Bodawitz simply did not have any curiosity to see the President and no reason to believe that the President would see him.—Hartford (Conn.) Post.

WISE OR OTHERWISE.—Slender travels faster than do compliments. Empty heads contain a lot of useless information.

Don't forget that a flatterer always has an ax to grind. Blissfulness of ignorance is responsible for many a blister.

ON THE MOUNTAIN.—The infant class in a Sunday school in Michigan town seemed hopelessly incapable of remembering the simplest questions in the quarterly. Among other theological problems about which they were extremely hazy was the question of the personal of the disciples accompanying the Savior when he ascended the mountain.

In order to sharpen their wits, the teacher tried the "aid to memory" game. A well known and highly respected local citizen had three sons bearing the requisite Apostolic names. So the teacher said, brightly: "Now, boys, if you just think of the names of the three older Danhof boys—remember now, the three eldest ones—you can't forget the names of the disciples."

On "review" day, the urban superintendent quizzed each class in turn. At last came the query: "Can Miss Lewis' class tell us what disciples were with Christ on the mountain?" The answer was a unanimous response: All the Danhof boys but Hank.—Ex.

ANECDOTE OF GENERAL BRECKINRIDGE.—Mrs. Wright in her book "A Southern Girl of '61," tells an amusing anecdote of Gen. Breckinridge, who won great fame in the Civil War. When he was in Louisiana he was much sought after as a celebrity, and among many other invitations received one from the Countess of — to luncheon. The lady at the same time had advertised for a footman. Mistaking the hour the General reached the house before the time appointed, and was ushered into Lady's parlor without being announced. The day was June 1. Owing to the heat the blinds were drawn, and there was a subdued light. Lady — glancing at the advancing General said: "Have you a reference from your last place?" The General took in the situation instantly and announced respectfully: "Yes, my lady." What were your duties? was the next question. "Well, my lady, the last three places I held I was Vice President of the United States, Major General in the Confederate army, and Secretary of War of the Confederate States of America."—Lexington Herald.

Do not understand me. I presume a majority of the officers so assigned like it. In fact, the greatest pressure is always being brought to bear to secure Washington assignments for young officers. The army being of the social life is most important and the tendency of the military education is apparently directed to equipping young men to shine in a social way.

Which reminds me that a board of distinguished army officers recently spent two months in a debate as to whether the stripes on the legs of the uniform should be pure grey iron, tested and analyzed—no scrap iron—smooth, easily kept clean and do not warp or crack. Jewel Stoves embody the many features of practical excellence you expect in the product of the world's largest stove plant—carefully mounted and fitted and have
