Rev. W. R. Hick's 1903 Almanac.

To say that this splendid work of science and art is finer and better than ever, is stating it mildly. The demand for it is far beyond all previous years. To say that such results, reaching through 30 years, are not based upon sound sense and usefulness, is an insult to the intelligence of the millions. Professor Hicks, through this great Almanac, and his famous family and scientific journal, Word and Works, is doing a work for the whole people not approached by any other man or publication. A fair test will prove this to any reasonable person. Added to the most luminous course in astronomy for 1903 forecasts of storms and weather are given, as never before, for every day in the year, all charmingly illustrated with nearly two hundred engravings. The price of single Almanac, including postage and mailing is 30 cents. Word and Works with the Almanac is \$1 00 a year. Write to Word and Works Publishing Co., 2201 Locust Street, St. Louis, Mo.

Oil in Breathitt County.

The Mt. Sterling Oil and Gas Co. has brought in a fine well of lubricating oil on Frozen Creek in Breathitt county. The oil is of better quality than the Raglan oil, and the sand was struck at a depth of only 68 feet. A great future is predicted for the Breathitt County fields.

It is impossible for a great man to prevent his greatness from cropping out.

Krocked Out.

The automobile was thrown completely in the shade during the horse show mania sweeping over the country within the past two weeks.

The horse has been king. The friend, companion and the best servant of man reigned once more.

From time immemorial, the horse has been the associate of man. Through all the ages the horse has been a part of man's history on the earth. In mythology it is the winged horse, Pegasus, that is the type of the highest intellectual genius, who carries the thunder and lightning to

Jove, opens by a kick of his hoof the inspiring fountain of Hippocrene.

These myths are true evidence of the horse's relation to man.—Ex.
