SPOUT SPRING.

B. S. Burgher was in Clark county a portion of last week on business.

People in these parts are making the usual preparations for the holidays.

Pastor Willis was here Sunday and filled his appointment at the Methodist church.

Moses McKinney has about recovered, being able to go about the neighborhood.

A very good number attended the sale of personality of Mr. J. P. Wright Saturday. Fair prices were realized on all articles sold.

Wm. Ware, of Hardwick's Creek, has bought of Jeff Wright his farm near this place for \$600. Mr. Ware will move to his new possession. He is a good citizen, and we extend him a hearty welcome to our neighborhood.

Eld. B. F. Wright has purchased his father's old home place and will there the first of March. We extend him and his estimable family a most hearty welcome to our neighborhood, for of such people our best citizenship is composed.

Jeff Wright has decided to move to Bates county, Missouri, and is making ready for that purpose by disposing of all his personal property. Mr. Wright and his wife are excellent neighbors, and we regret the loss of such citizens. They have our best wishes wherever they may cast their lot.

Twenty-five messenger boys employed by an Omaha, Neb., concern gave the manager fifteen minutes in which to declare vacant the position filed by a negro messenger.

MANSFIELD'S FLOUR

Has a taste and a flavor all its own, and possessed by no other flour sold in this section. We select our wheat from farms of the best growers in Central Kentucky, and nothing but choice grain goes into the manufacture of our flour. It's milled right too.

Ours is one of the best equipped mill plants in the State. You may buy BEST PATENT or MOUNTAIN LILY with the full assurance that baking results will not disappoint you.

Ask your Grocer for Mansfield's flour.

Snap Shots.

Captain "Toddy" Anderson has been assigned the duty of conveying the four defunct Circuit Clerk candidates to their elysium at the head of Salt river. May the howling winds of their political adversity never again disturb the blissful serenity of their dreams.

Supt. F. P. Tracy, the invincible, was in the city Tuesday looking as lifelike as a new chromo. The sunny smile which illumed his frontispiece bespoke perfect satisfaction with the recent election, and augured a firm determination to abide the choice of his party.

Clay Brown, with an eye to sanitation, on last Monday installed a shower and foot bath in the saw-filing department of the Swann-Day Lumber Co.'s mill. The mechanism of this bath plant is wholly automatic, and Mr. Brown is delighted at its satisfactory operation.

J. W. Henry, the photographer, is able to be at his gallery quite regularly despite the inclement weather of the past few days. Mr. Henry seems to be slowly but surely improving under treatment of the celebrated specialist Dr. Breese, of Cob Hill. John appears unusually cheerful, and whistles "Goo-goo Eyes" in three different dialects.

W. R. Cassidy, the genial fur king of the mountains, and the astor of Clay City, is receiving daily, large consignments of possum skins and coon pelts. He is one of those quiet hustlers that "gets there." That handsome new head-gear which so becomes him, is giving his ultra political friends no alarm; they look upon it as prophetic of probable compromise with "yellow standard" people.

West Clay City, known to the tinselled "Four Hundred" as Mechanicsville, asserts her rights to a separate municipal government, and acting in accordance therewith, on last Saturday night held an election at the Yellow Store of Henry Waldron in which Hon. Hack Kirk was chosen City Judge over his distinguished competitor, Col. Millard Conlee, present chief of the wholesale department of the mammoth Racket Store of J. L. Hainline. These elections will be held weekly until a full complement of city officials have been selected. An honest ballot and fair count is the rule, and no good citizen will be denied a vote on account of age, size or previous condition of party servitude. X-Ray.

Local Option Pays.

The village of Collinwood, Ohio, last week voted against permitting the sale of lipuor within its boundaries. As a result the Lake Shore railroad will spend \$1,000,000 in new shops additional to extensive buildings already erected here. Had the village voted for the sale of lipuor the railroad officials say this extra sum of money would have been withheld.

Pipe Line into Estill.

The Cumberland Pipe Line Co., which is laying a line into Kentucky states that they will lay a line into Estill county soon as the field shows 300 barrels per day.

A Sorghum Country.

Eastern Kentucky produces two-thirds of all the sorghum molasses sold in the northern markets. The crop in Greenup county this year is estimated at two thousand barrels, and several

Sandy Valley counties will produce a larger amount.

The aggregate capitalization of the industries in Pittsburg is more than \$2,500,000,000. The production of steel in Pittsburg in 1901 equaled half that of Germany, twice that of France, five times that of Russia or Belgium, and 25 times that of Spain.

December Tomatoes.

Mr. Robert Jennings, of Silver Creek, brought to the Climax office Monday, a box of ripe tomatoes which he got out of his garden that morning. The tomatoes were large and perfectly formed, as nice as any ever seen in the tomato season. It has certainly been a wonderful season, and for once, the oldest inhabitant has nothing to say.—Richmond Climax.

Rev. Irl R. Hick's 1903 Almanac.

To say that this splendid work of science and art is finer and better than ever, is stating it mildly. The demand for it is far beyond all previous years. To say that such results, reaching through 30 years, are not based upon sound sense and usefulness, is an insult to the intelligence of the millions. Professor Hicks, through this great Almanac, and his famous family and scientific journal, Word and Works, is doing a work for the whole people not approached by any other man or publication. A fair test will prove this to any reasonable person. Added to the most luminous course in astronomy for 1903 forecasts of storms and weather are given, as never before, for every day in the year, all charmingly illustrated with nearly two hundred engravings. The price of single Almanac, including postage and mailing is 30 cents. Word and Works with the Almanac is \$1 00 a year. Write to Word and Works Publishing Co., 2201 Locust Street, St. Louis, Mo.
