It was for the "spoils" that the northern "carpetbaggers" assumed control of the South in the days of reconstruction.

At least three of the Republican county nominees are recently adopted sons of Breathitt county, who came here, presumably, because Breathitt offered greater inducements in business than their native county.

The Republican nominee for Circuit Judge was "adjudicated" into this district and into office. It will be just the soft patter of the gentle ballot as it falls in the ballot box November 2 that will retire him from office. Then it will be the callings of his own sweet will that determines whether or not he stays adopted.

Fellow citizens, there should be no partisan politics in the selection of county officers. The interests of both Republican and Democrat demand that there should be elected to every county office a good, efficient man. The nominees of the Democratic party offer to the citizenship such a ticket. Show the world that we place citizenship above partisanship by electing that ticket.

The Democratic nominees of this county are all natives of Breathitt county. They have some interest in the county above the mere idea of making money off of its citizens. They have that love of their native county that is innate in every man. Man naturally hark back to the place that gave him birth. No adopted son can love the foster mother as the real son loves the mother.

In all of the political animadversions that you have heard upon the streets or upon the highways and byways, have you ever heard any one advance a single cogent reason why the Republican county ticket should be elected? Is it not generally known that it is a boss-made ticket, put out to achieve the political desire of one particular man? Was not the man who was the real choice of a big majority of the Republicans, submitting his candidacy to the convention by reason of pressure from some higher up, in order that, opposition to a certain judicial candidate might be averted?

Whose ticket is it, anyhow? Is it the choice of the honest yeomanry of the Republican party, or is it the ticket of the party bosses?

One of the most hopeful signs is that the Democracy of this county is united. All past differences have been buried never to be resurrected, and the party is

standing as a solid phalanx behind the splendid ticket that it has nominated, in unity and good fellowship.

The attempt of some would-be Republican leaders to stir up the past strife and bitterness in the Democratic ranks is meeting with contemptuous disregard that it deserves. The rank and file of the Republican party—the men who are the bone and sinew of the party and who hold the county's common weal above sordid partisanship; who place the county's good above the personal ambitions of self-seeking politicians—are falling in line to help us.

Good citizenship and clean purposes will succeed. In this intelligent age no man or ticket can succeed without deserving success.

FOR YOUR HEALTH'S SAKE

PREVENTION.

Typhoid is classed among the preventable diseases. And yet not long ago in a certain eastern city there were 194 cases of this terrible disease in two wards alone, and 5,637 cases during the year for the entire city. The estimated money cost of the 194 cases in the two wards, including loss of wages, medical, hospital, and funeral expenses, amounted to nearly \$25,000. The moral is, it pays to spend money for prevention.
