

Presbyterian General Assembly... with one question more important, in some respects, than the Briggs case or the revision of the creed.

There is no proverb in which we have more faith than that "all work and no play makes Jack a dull boy."

An enthusiastic sportsman says, "Did you ever notice a hawk or an owl preparing to make a meal of a bird?"

Endeavor, first, to broaden your children's sympathies, and, by satisfying their daily needs, to bring love and kindness into such unceasing contact with their impressions and their activity.

"Say," said a man to a butcher of whom he purchased his daily supply of meat, "that last piece of steak I bought of you must have been from a steer old enough to vote."

"What did that new suit of yours cost?" "Two hundred dollars." "Jerusalem, man! How did that happen?" "Easy enough. I paid \$75 for the suit originally, and it looked so well that my wife would not let me rest till I had put up \$125 more for an outfit for her to match it.

To appreciate the climate of Northern Virginia, it is necessary to understand the purposes it is made to serve in the entire county is used as a refrigerator in preserving food.

No precautions are required for the preservation of beef, for it takes care of itself. Nearly all butchers kill, at the beginning of cold weather, a sufficient number of animals to furnish provisions for the entire winter, and allow the meat to freeze.

Often fruits preserved in ice are placed upon the table of the Siberian evening meal, the method of keeping them being similar to that employed with meats.

Such a convenient climate ought certainly to simplify the labors of marketmen and housekeepers.

"Recently," says the New Mexico Stock Grower, "there passed through Las Vegas the finest bunch of steers which has been seen in that territory for many years."
