A Yard of Ale.

"At Eton," says the London Globe, "any one who is so minded may at 'tap' essay the feat of drinking a yard of ale. This is only a pint in liquid, but a yard in linear measure, being contained in a long horn shaped glass, so constructed that unless the drinker drinks with care most of the contents are spilled over him. A book is kept of the time in which the 'yard' can be drunk, and for years until lately the 'record' was ten seconds. This is an amazing age, however, and some one lately disposed of his three feet of ale in nine seconds."
