

HOOD'S COUPON CALENDAR 1899

is a perfect beauty, patriotic, up to date. Subject: "An American Girl"

One of the handsomest pieces of color work issued this year. Lithographed, with border of army and navy emblems embossed in gold.

Remember Hood's Sarsaparilla is America's Greatest Medicine for the Blood and the Best that Money Can Buy.

The waste of life is greater than its accumulations.—Mark Hopkins.

Stick to the right through thick and sin. Be as true to principle as the needle to the pole.

W. B. Kidd has sold to Ed P. Bean ten shares of Clark County National Bank stock at \$100 per share.

DR. CALDWELL'S SYRUP PEPsin CURES INDIGESTION.

Reformation is a work of time. A national taste, however wrong it may be, cannot be totally changed at once.

"Our whole neighborhood has been stirred up," said the regular reader. The editor of the country weekly seized his pen.

"Plowing," said the farmer.—London Tit-Bits.

Reform, like charity, must begin at home. Once well at home, how will it radiate outwards, irrepressible, into all that we touch and handle.

Farm of 50 acres near Bethel, Ky., on good turnpike road. This farm has on it comfortable dwelling of five rooms, good stable and outbuildings.

The big concern, the American Tobacco Company, through its agents, Chas. B. Stuart, last Friday, made its first purchase in this county.

Napoleon, at St. Helena, said to Antonomarchi, his physician, "Believe me, we had better leave off all these remedies."

Why throw obstacles in the way of its defence? Its own means are superior to all the apparatus of your laboratories.

At the time when Napoleon said this he was largely right. Physicians in those days dealt out obnoxious and drastic drugs that did violence to every fiber in the body.

Experiments with aluminum as a substitute for paper are now under way in France. It is well known that the paper used today in the manufacture of books is not durable.

It is now possible to roll aluminum into sheets four-thousandths of an inch in thickness, in which form it weighs less than paper.

Bamboo grows very thriftily in California bottom lands, and is found to be a very useful plant. The seed of many species resembles rice, and is almost as valuable for food.

Christopher Columbus, who was an admiral in the Spanish navy at the time he discovered America, was paid at the rate of \$388 a year.

TONS AND TONS OF GOLD.

Twelve Hundred Miles of Enormously Rich Territory.

If a pin be placed at Denver on the map, and another at Stockton, Cal., and a string be drawn from one to the other, an air line will be marked passing through the heart of a wonderful gold territory.

Now, north and south of the string will appear dotted on the map of Nevada the gold camps of Grant, Freiberg, Revelle, Kawich Valley, San Antonio, Gold Peak, Hot Springs, Belleville, Candelara and numerous others.

The distance from Denver to Stockton is about 1,200 miles. On no portion of the habitable globe is there a region so continuously and enormously rich in gold as the territory described, and yet, notwithstanding this fact, the progressive Yankee has scarcely made a start in opening and developing these riches.

DECAPITATION.

Life Said to Remain Long After the Head is Severed.

"The executions in Paris during recent years have revived the old question whether death instantaneously follows upon the severance of the head from the body," says the Massachusetts Medical Journal.

"When the blood remaining in the head at the moment of separation is exhausted, there commences a state, not of death, but of inertia, which lasts up to the moment when the organ, no longer fed, ceases to exist.

"If, he adds, a bodiless head indicates by no movement the horrors of its situation, it is because it is physically impossible that it should do so, all the nerves—which serve for the transmission of orders from the brain to the trunk being severed; but there remains the nerves of hearing, of smell and sight, and he concludes that the guillotine does not cause instant death.

"I have sent the a lot of provision agents this time, but I could wish it were much better. There is a goose pye, a netes tongue pye, and a mutton pastie for standers for thy table this Christmas, for a nede, I knowe they will last till twelftife, for they are now newe baked.

In the United States you are far ahead of England in respect to new suburban homes. Whatever may be the faults of the imitations of Richardson—America's greatest architect—or even of the queer gabled and verandaed villas which for some inscrutable reason are named after the good Queen Anne, there is something picturesque about most of these buildings.

The minstrel man lay dying. He called his eldest son to his bedside and said: "My boy, I cannot leave you any money; I have spent that as fast as I made it. But you shall inherit the heirloom that I received from my father. It will make you a living; it made his and it made mine."

A comedy scene followed the third act of a tragedy at a theater in an English provincial town. The villain had met his death; and the curtain was lowered, but hung suspended three feet above the stage.

"That florist is singularly inept." "How so?" "When Plender, the lawyer, died, his friends ordered something appropriate sent, and the doilt sent a floral lyre."

A Bad Break. "That florist is singularly inept." "How so?" "When Plender, the lawyer, died, his friends ordered something appropriate sent, and the doilt sent a floral lyre."

A Greek Genius. Diamandi, a native of Pylaros, one of the Greek islands, is a remarkable calculator. After a mere glance at a blackboard on which 30 groups of figures are written he can repeat them in any order and deal with them by any arithmetical process.

Effective Reflecting. "It is so sudden!" exclaimed the fair haired girl, who had just received a proposal to merge her identity in that of a would be protector.

CAREFUL GREEK PARENTS.

Boys Were Restricted to School Just as Girls Are Now.

The extraordinary care that the Greek boy received in his formative years made his moral training more effective than that inculcated by the most careful of modern parents.

A pedagogue, generally an old and trusted slave, led the boys to school and called for them after it closed, carried the books, looked out for the little boys, kept the older ones from fighting and falling into bad company and had a general oversight of their conduct and street form.

FAKE "FENCES."

A Little Trick That is Worked in Baxter Street.

"There was a time and that not so very long ago," remarked an old time puller in, "when almost every other store in Baxter street was a 'fence,' or pretended to be, in order to give customers the idea that they were getting good bargains.

"When a customer in one of these stores has looked everything over in the shop and hasn't made a purchase, the salesman tells him that he has a little 'fence' down stairs and urges upon him the necessity of keeping it quiet on account of the police.

"I can't find my cap anywhere," is a sentence more or less familiar in the household, that being what the boy says, looking for his cap, when he wants to go out to play.

"Where did you put it when you came in?" is a question sure to be asked sooner or later, but all the boy can answer is: "I don't know."
