

FRANKFORT ROUNDABOUT.

Choice beef at Burekhardt's daily.

"Buchupaiba."

Quick, complete cure, all annoying Kidney, Bladder and Urinary Diseases. \$1 Druggists.

Flag Fork.

Rain would be very acceptable about this time.

Mr. A. B. Polsgrove bought of Mr. George Gordon one gilt and pigs for \$20.

They have organized a new Sunday School at Mount Carmel Church. We have a very good attendance and hope to have still better.

Mr. Wm. Lee has a cow that gave birth to three calves June 17th. Two of them are living and doing well. The last one weighed 40 pounds.

Messrs A. A. Bailey & Bro. and Bailey & Slattery have had some very becoming signs painted and hung out before their doors. People of Bald Knob should do their trading with them.

Mr. Dennis O'Nan, jr. has a cow that comes regular at milking time, but did not give any milk. They did not know what was the matter with her until they found out she was suckling some pigs. Come again with your cow story.

Mr. Wm. Armstrong and Mr. Sharpe, of Mercer county, have been down this week hunting for tobacco plants. They called on A. B. Polsgrove and he gave them as many as they could take back with them, amounting to about thirty-five rows. Come again when you get out of plants.

Anyone wishing to take a copy of the FRANKFORT ROUNDABOUT should call on W. S. Polsgrove, as I believe it is about as good a paper as anyone can subscribe for. It has all the neighborhood news, and is very interesting to read the correspondence. As post-offices are getting numerous, there is no trouble in getting your paper every week. It is small, but cheap and newsy.

FRIEND.

Bloomington.

Owing to the scarcity of plants, the tobacco crop in this section will be short.

Everybody is invited to attend our Sunday School. Time of meeting 3 1/2 o'clock every Sunday evening.

Mr. Pat. Lillis and his sisters, Misses Mary and Nonie, were on a visit to their cousins, the Misses Wallace last Sunday.

Miss Georgie Church returned to her home a few days since from North Middleton, where she has been going to school for some months past.

Only one more week before the close of the district school. Sorry for you, young gentlemen, but you should have made better use of the time.

Poor old Frankfort has to suffer another shooting affair. How long is this reckless disregard of human life to continue. Is it not about time to call a halt?

Some few farmers began harvesting their wheat crop last Thursday. The yield promises an average one, and barring an accident the oat crop in this section will be immense.

We learn from gentlemen owning orchards in this vicinity that the young fruit—more particularly apples—are falling from the trees, and at such a rate that before midsummer there will scarcely be an apple left.

Everybody in this community is rejoiced to learn that Maj. H. T. Stanton is likely to be Kentucky's next Adjutant General under Governor Knott. There's no appointment that our new Governor could make that would give such universal satisfaction.

Rev. Doctor Cannon preached an interesting sermon to an appreciative audience at Bethel Church last Sunday. We are glad to learn the members of Old Bethel Church are likely to make arrangements by which the Doctor will be with us more frequently in the future.

Mr. and Mrs. Job Smith, Capt. and Mrs. Arnold and Mrs. Azubah Webster were the guests of Mr. and Mrs. Chas. Luckett last Sunday. Mr. Luckett is one of our most enterprising farmers, and his estimable wife, never so happy as when entertaining her neighbors and friends. Sorry we could not be there.

What is it that will cause the good house wife more real aggravation and annoyance than for the cow and calf to get together at an unseasonable hour. If there's anything we don't know what it is. The writer had the misfortune to be the only one of the male persuasion at home on occasion of this character some time since and knows whereof he speaks.

Mistakes and errors are always matters of sorrowful regret to one of our nature. And particularly so when anyone is disappointed or inconvenienced by anything we may say or do. This, we trust, will be a sufficient apology to the young gentleman who some time since failed to find a certain young lady at her home, as announced in this column. She is at home now, and it is no mistake this time. Come right along.

NIPPER.

All diseases resulting from self-abuse, as nervous debility, mental anxiety, depression of spirits, and functional derangements of nervous system, cured by German Invigorator. See advertisement. For sale by Joe LeCompte.

A VETERAN BENEFACTOR.

His Past Life, Present Plans, and What He Has to Say Upon a Subject That Astonished Him.

(New York Times.)

Nearly forty years ago a young man, of unusual endowments, began to mould public opinion upon a subject of vital importance. Like all pioneers, his early efforts were unsuccessful, but his ability and the value of his work soon won public confidence, and to-day there is not a village or hamlet in the country that has not been influenced by Dr. Dio Lewis. When, therefore, it was learned yesterday that he contemplated the establishment of a large magazine in this city, the fact was deemed so important that a representative of this paper was commissioned to see him and ascertain the truth of the rumor.

Dr. Dio Lewis is a gentleman of sixty years and two hundred pounds, with snow-white hair and beard, but probably the most perfect picture of health and vigor in the metropolis. He is a living exponent of his teachings, and notwithstanding the amount of work he has already done, promises still greater activity for years to come. He received the interviewer most courteously, and in reply to a question said:

"It is true I have come to New York to establish a monthly magazine. I have come here for the same reason that I went to Boston 25 years ago. Then Boston was the best platform in the country from which to speak of education. New York has now become most hospitable to progressive thoughts, and especially so to movements on behalf of physical training.

"I have reason to know the great and abiding interest of the American people in this subject. They have come to realize that the future of our country pivots upon our physical vitality, and especially upon the vigor of our women. My new magazine will bear the title 'Dio Lewis's Monthly,' and be devoted to Sanitary and Social Science. I hope through its pages to inaugurate a new departure in hygiene."

"Have you not written several books on the subject?"

"Yes, nine volumes, and some of them, like 'Our Girls,' published by the Harpers, have had an enormous circulation, but the best work of my life I shall give the world in the new magazine. Forty years of skirmishing ought to conclude with ten years of organized warfare."

"Doctor, what is the occasion of this new interest in health questions?"

"It has come through suffering, which seems the only road to self-knowledge. The stomach, heart, kidneys or liver fall into trouble, happiness is gone, and then people give attention to their health."

"Which of these organs is most frequently the victim of our errors?" asked the reporter.

"Within the last few years diseases of the kidneys have greatly multiplied. When I was engaged in practice, thirty-five and forty years ago, serious disease of the kidneys was rare; but now distressingly frequent and fatal."

"To what do you attribute this great increase of kidney troubles?"

"To the use of stimulating drinks, adulterated food and irregular habits of life."

"Doctor, have you any confidence in the remedy of which we hear so much now-a-days, 'Warner's Safe Cure'?"

"I believe in the ounce of prevention, rather than in a ton of cure."

"But have you noticed the remarkable testimonials of Warner's remedy?"

"I have, and confess that they have puzzled and astonished me. The commendations of proprietary medicines usually come from unknown persons residing in back counties. But I see in our most reputable newspapers the warmest praise of Warner's Safe Cure from College Professors, respectable physicians, and other persons of high intelligence and character. To trust such testimony aside may be professional, but it is unmanly. No physician can forget that valuable additions to our *Materia Medica* have sprung from just such sources. I was so impressed with this cloud of witnesses that I purchased some bottles of Warner's Safe Cure at a neighboring drug store, and analyzed one of them to see if it contained anything poisonous. Then I took three of the prescribed doses at once, and found there was nothing injurious in it. I do not hesitate to say that if I found my kidneys in serious trouble, I should use this remedy, because of the hopelessness of all ordinary treatment, and because when a hundred intelligent and reputable persons unite in the statement that a certain remedy has cured them of a grave malady, I choose to believe that they speak the truth."

"But as you may know, my great interest in life lies in prevention. For forty years I have labored in this field. One of the phases of my work in New England was the establishment of the Ladies' Seminary at Lexington, Mass. My aim was to illustrate the possibilities in the physical training of girls during their school life. This institution became, before I left it, the largest and most successful Seminary for young women owned and managed by one person, in our country. I sat down to dinner every day with a family of two hundred persons. The remarkable results of this muscle training among girls, were given in my paper published in the *North American Review* of December, 1882.

"Besides, I established the Normal Institute for Physical Training in Boston, and for ten years was its President and Manager. Dr. Walter Channing, Dr. Thomas Hoskins, Professor Leonard, and others were among its teachers, and more than four hundred persons took its diploma and went out into all parts of the land to teach the new school of gymnastics. And now the years left to me I propose to devote to the magazine

which I have come here to establish. It will be the largest periodical ever devoted to this field of literature, and will present the hundred and one questions of hygiene with the simplicity of a child's talk. To this end all so-called learning will be subordinated. The magazine will be more or less illustrated, and will strive to reach a high place in the confidence and hearts of the people. In a few weeks, our first number will appear, and we shall fondly hope for it a hearty welcome."

The facts above narrated are indeed most important. It is gratifying to know that the life long experience of a gentleman who stands without a peer in successfully demonstrating the principles of hygiene; whose heart has always been in sympathy with afflicted, and whose brain has ever been active in planning for their relief, are to be given to the public through the pages of a magazine. And it is specially significant and proof positive of rare merit that a proprietary medicine, even with such high standing as Warner's Safe Cure is known to have, should be endorsed and recommended by a man so able, so reputable and of such national renown as Dr. Dio Lewis.

S. W. Hopkins, of the L. & N. R. R., says: "I suffered from indigestion and ill feeling when Brown's Iron Bitters gave me immediate relief."

We are assured that you can find the very best of cigars at Shubinski's.

Bridgeport.

Beans and new Irish potatoes are ripe.

Ice cream and cake till you can't rest.

The cherry crop is larger than it has been for a number of years.

Miss Pinkie Buckley, of Frankfort, is the guest of Miss Bette Wilson this week.

Since the schools closed the boys especially make things quite lively for their elders.

Wheat harvest has commenced in this section. The prospect seems to be good at least for an average crop.

Mrs. Georgianna Hawkins, of Benson, is spending several days in this vicinity this week visiting relatives.

Several of our citizens attended the lecture delivered by Elder George Darsie at Graefenburg last week and pronounce it excellent.

Rev. W. T. Llewellyn, of North Carolina, was called to the pastorate of South Benson Church last Saturday, and at once entered on the duties of his office.

Mrs. Lou. McKendrick, of Eminence, and Mrs. Mat. Hughes and the Misses Sallie and Nettie Hughes, of Frankfort, spent last Wednesday in this town.

Quite a large crowd, both ladies and gentlemen, representatives of Shelby and Anderson counties, took in the June Meeting at South Benson Church last Sunday.

Ed. Blythe, of Graefenburg, who had his hand very much lacerated by the discharge of a cartridge a week or two since, is reported as improving as rapidly as possible.

Bee raising has become quite an industry in this section. Mr. J. P. Sargent (Bird) is given up to be the boss in this section, he having now in his possession not less than fifty colonies.

Charlie Parrent and Oscar Roberts each lost a calf last Monday. Their death ensued from eating pea hulls. Persons owning cattle should be careful in regard to this matter, it being a known fact that hulls of this character are fatal in every instance.

Fischer, Leaf & Co.'s iron mantels for sale at Louisville prices by John T. Buckley.

Bald Knob.

Crops are looking prosperous around here.

Mr. G. L. Rodgers has "busted" his spring wagon.

Grass cutting has commenced. Save it up boys.

Hurrah for the ROUNDABOUT, it is a newy little paper.

Hoppers are getting numerous about G. L. Rodgers'.

Miss Liza Woods visited her parents Saturday and Sunday.

Mr. Wm. Lee has one stand of bees that have swarmed four times this spring.

The bone trade is getting dull, so Rusty says, but Clipper has a load to sell him.

Mrs. McDaniel, mother of Eli and Nat. McDaniel, has been visiting her son, Eli, this week.

Plows and hoes can be had at J. L. Greenwell & Son's on short notice, and new work warranted.

Mr. Rusty Cuss, of Scrabble, Shelby county, has paid for 500 feet of lumber by wheeling sawdust.

We saw in the paper where Friend had said, since the new post-office of Harp had been established, Joshua was left out in the cold. Friend, she is in full bloom.

A mistake; the item was our own. The office was left out the first week, but the mails go there now regularly, we are informed.—[Ed.]

GUESS.

"Rough on Rats."

Clears out rats, mice, roaches, flies, ants, bed-bugs, skunks, chipmunks, gophers. 25c. Druggists.

The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

Dearborn Ave., Chicago, Nov. 7. I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. MACC.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.
