SEVENTEEN years ago Belle Boyd took to lecturing, and now she is in jail. Ladies take warning!

Col. J. Smith Hurt, the nominee, is an able lawyer from Owingsville, Ky., and a gentleman of high moral character.

YELLOW JACK seems to be crawling around the coast, but he has not long to stay. Frost will soon settle his case.

THE battle between Blaine and Plaisted is a stormy one, and it result is of tremendous importance to Blaine politically.

THE river Nile is said to be rising, and the Cincinnati Saturday Night says Jay Gould is sorry he did not buy it in when it was down.

THE Republicans of Fleming, Nicholas and Mason counties have been instructed for Hon. W. H. Wadsworth for Congress from the Ninth district.

SOUTHERN papers confess their inability to explain the present renewed demand for Confederate bonds, which last week sold as high as \$7 50 per \$1,000.

In Madison county John Thurman, while coon-hunting Tuesday night, was killed by falling over a cliff seventy feet high, at the mouth of Boone creek.

PROCTOR KNOTT missed a boom by not coming here last week. There is latent power here for him that he could have awakened with but a small hand-shake.

Louisville has one whiskey or beer saloon to every thirty houses, one lawyer to every eighty houses, one doctor to every 120 houses, and one preacher to every 200 houses.

A LOG cabin was recently torn down on Cabin creek, Mason county, which had been standing over 100 years. It is not stated that either Dan'l Boone or George Washington ever had their headquarters there. The county records have been tampered with.

At the Congressional Convention held at Grayson to nominate a candidate for congress in the Ninth District. Harbeson, Prichard, Paynter and Hurt were placed in nomination. The first ballot stood Harbeson 32 1/2, Prichard 21 1/2, Paynter 10, Hunt 6, no change being up to the 78th ballot. Prichard for the sake of harmony, withdrew, and Clark Bascom from Bath, was placed in nomination. At the one hundred and eighth ballot Paynter was withdrawn and Hurt received the nomination.

THE issues of the war being now buried forever, the Democratic and Republican parties have no issues, comparatively speaking. In casting about through the horoscope of the future, we see the temperance issue is looming up largely. Already several States have adopted prohibitory amendments to their constitutions, and several other States are fast following in their wake. The Republican party, which always hankers for an issue with which to retain power, will avail this opportunity and hurl it into national politics by State after State, until about '84 the grand presidential campaign will be made on this issue—to free the Union from the sale or manufacture of alcoholic spirits. On the other hand, the Democratic party in order to not get left, will hook on to educational, sanitary, and public improvement planks for a platform, while civil service reform will be adopted by both. Thus it appears to the thoughtful man on a small eminence looking beyond his nose, that American politics are to become revolutionized, and a new and progressive era is dawning upon the people.

THE Republicans of the 19th district assemble in convention today at Catlettsburg, to nominate a candidate for congress for Col. Hurt to snow under. In an interview with Col. Wadsworth yesterday at Carlisle, he informed the News that "he would not make the race against Mr. Hurt, as he had promised both Hurt and Harbeson in case either were nominated—that both were personal friends, and had aided him in his congressional races heretofore, but had Prichard been nominated, he would have undoubtedly made the race, such was the pressure from both parties—particularly from the Democrats, from several counties."

At the Catlettsburg convention today, the names of John Blaine and Rev. M. R. Pinkerton, of Maysville, and B. Grahm, Greenup, will be placed before the convention. Owing to the great uncertainty of our country, we will not presume to hunt at who will probably be the unlucky man who will be nominated.

### COL. L. T. FOSTER.

YOUNGSTOWN, OHIO, MAY 10TH, 1880.  
 B. J. KENDALL & Co., Gents:—I had a very valuable Hambletonian colt which I prized very highly; he had a large bone spavin on one joint and a small one on the other, which made him very lame; I had him under the charge of two veterinary surgeons who failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined here to send for it, and got our druggists at once to try it; they ordered three bottles, I took them all and thought I would give it a thorough trial, and used according to directions and the fourth day the colt ceased to be lame, and the lumps had disappeared. I used but one bottle and the colts limbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles who are now using it.  
 Very Respectfully,  
 L. T. FOSTER.

### Kendall's Spavin Cure.

ON HUMAN FLESH.

Patten's Mills, N. Y., Feb. 21st, 1878.  
 B. J. KENDALL & Co., Gents:—The particular case on which I used your Kendall's Spavin Cure was a malignant ankle sprain of sixteen months standing. I had tried many things but in vain. Your spavin cure put the foot to the ground again, and for the first time since hurt in a natural position. For a family liniment it excels anything we ever used.

Yours truly,  
 Rev. M. P. BELL,  
 Pastor of M. E. Church, Patten's Mills, N. Y.

 A TREATISE

Giving an index of diseases and the symptoms; cause and treatment of each, a table giving all the principal drugs used for the horse, with the ordinary dose, effects and antidote when a poison; a table with an engraving of the horse's teeth at different ages, with rules for telling the age of the horse; a valuable collection of receipts and much valuable information.

BY B. J. KENDALL, M. D.

65 ENGRAVINGS 65

This book, during the short time since its original publication, has been recognized as one of the most reliable authorities on anything pertaining to the horse's condition or treatment. The best evidence of its popularity is the immense sale which it has met with, over 650,000 have been published and sold in all parts of the northern states. Hundreds of testimonials to the efficacy of the treatment advised can be shown, and in many cases a reference to this book and prompt following of its advice has saved the lives of valuable animals. It is plain and simple in its terms, and can be understood by anybody. A distinguished veterinary surgeon, who possesses a library comprising the most costly books on the horse, recently said that he would part with almost any of them rather than with this treatise, which comprises so much.
