Oct. 17th 1883. ALEX. MCCLINTOCK.

A PHILADELPHIA man knocked his wife in the head with one of his boots, and killed her, because she had beat him him playing croquet. No woman should ever beat her husband in an exciting game like croquet; it's dangerous.

ONE THOUSAND Chinamen left San Francisco for home the other day, with an average of \$750 in American money each. HONEYED words ought not to outweigh cold, blood-curdling facts. Honeyed words should only be used to stay the murderers bloody hand, and not to keep justice from being meted unto him after a cowardly crime has been committed.

An Indiana lady—a model wife and mother—broke her husband of the saloon habit by walking up to the bar beside him and calling for the beer. She broke the awful silence as they walked home, with the remark: "I love you, my husband, and if you are going to hell, I'm going right along with you."

THE only way to administer the law in this State is by the civilization of the commoners from whence the jurymen are selected. And the only way to civilize the commoners is through the medium of the press. Therefore, the newspaper without a bold and out-spoken opinion is a worthless factor in the make-up civilization. There are not half enough good newspapers.

As a result of advertising, Draper's Uncle Tom drew larger here Tuesday evening than Edwin Booth would have done. When this combination showed here five years ago it was cursed and abused to an extreme. It came again and again, it's houses increasing every time, until the last time there wasn't standing room in the hall. It is just so with any article advertised; every time it is read about it is abused, until finally, in a fit of revenge, nine people out of ten buy it for spite.

Why Females Can Not Be Masons.

THE Eastern Star, a paper devoted to the exposure of all secret orders, gives the following reasons why females can not be made Free Masons:

"Of course, by the word 'females' we understand that division of the human family to be meant to which our mothers, wives, sisters and daughters belong. Nay, verily, they could not humiliate themselves sufficiently to be made Masons if they had to be initiated and passed in the same manner as the lords of creation are; that is to say, were reduced to a semine condition, hoodwinked and with a rope around the neck or bare arm led around the room with the left drawers-leg rolled up and the left breast bared to be admitted or pitied, as the case might be. The very suggestion of such a degradation is not many removes from a slander on the fairest among ten thousand and altogether lovely. A man whose wife had been raised to the third or sub-lime degree of Masonry, in the usual mode of procedure in such cases, would have no difficulty in obtaining a divorce instantaneously. Or should there be any hesitancy in granting the petition, the indignant husband would only have to explain to the court the position assumed by the candidate preparatory to receiving the Master's word, and the document would be issued forthwith.
