Good One On The Preachers.

Dr. Kerfoot started to his church Saturday and went to sleep on the train. Instead of getting off at Versailles he was carried out to Lexington. The boys are wondering if his sleepiness was produced by reviewing a soporific sermon, or the gentle, soothing rocking of the train. On that same train Bro. G. W. Hambleton passed his station, walked 8 miles and got to his church just as a Presbyterian was finishing his sermon. On the same train Bro. J. M. Shelburn went past his station jumped off and injured one arm. There seems to be something fatal about this train.—Baptist Argus

A Popular Hotel.

ALWAYS popular, the Palace Hotel, Sixth and Vine street, was easily the most popular hotel in Cincinnati during the G. A. R. encampment. Excellent cuisine, prompt service, and polite employees, and splendid management has made it the best \$2 and \$2.50 per day hotel in America. Kentuckians always find friends stopping at this hostelry. (27 Sept 4)

An Incendiary Fire

LIKE all other conflagrations, strikes a business man when he can least afford it. The only safe way is to carry sufficient insurance to make you safe in any event. I write policies for the best insurance companies—sound, and as cheap as any agent.

THE FIRST PHOTOGRAPHS.

Professor Draper's Sister Sat Thirty Minutes For Her Portrait.

Elizabeth Flint Wade has an illustrated paper on "Photography—Its Marvels" in St. Nicholas. The author says: The first accounts of this great discovery are very entertaining reading. Professor Morse, the inventor of the telegraph, was in Paris when the news was published, and at once went to see Daguerre's wonderful pictures. In describing them afterward he said that moving objects made no impression on the plate, for a picture taken of a crowded boulevard showed it as if entirely deserted, with the exception of a man having his shoes polished. The man's feet, he said, were well defined, because they were kept stationary, but he was without head or body, for these were in motion.

To America belongs the honor of making the first photographic portrait, the artist being Professor John Draper, a professor and afterward the president of the University of New York. His victim was his sister, Miss Catherine Draper. He powdered her face, that the likeness might be more quickly impressed on the sensitive plate, and for 30 minutes Miss Draper sat—or, at least, tried to sit—as immovable as a statue.

The first class in photography was formed in Boston in the spring of 1840 by Daguerre's agent, Gouard of Paris. The Rev. Edward Everett Hale, then a student in Harvard, became an enthusiastic member of the class. In his diary, under date of April 1, 1840, is this entry: "On my way home I stopped at the shop and got my daguerreotype thermometer. There seems to be a great demand; there were three or four others there."

WINE OF CARDUI

MONTHLY SUFFERING.

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, sides, hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

Wine of Cardui

makes menstruation painless, and regular. It puts the delicate menstrual organs in condition to do their work properly. And that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs \$1.00 at the drug store. Why don't you get a bottle to-day?

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. ROZENA LEWIS, of Gonzales, Texas, says: "I was troubled at monthly intervals with terrible pains in my head and back, but have been entirely relieved by Wine of Cardui."

WINE OF CARDUI

THERE are eggs and eggs. The egg of yesterday looks, feels, measures and weighs like the egg of last month, but there's a difference in another respect, and that difference is worth money. Its just so with laundry. The difference between good work and poor is slight to the unpracticed discernment, but it's a difference—that counts every time. It's a difference that changes your laundry bill from an expense to an investment. We do good work—it will cost no more than poor work—but its worth double the difference.
