Jas. Fee & Son.

It is not only beautiful women who hang over the mirror in the morning. Anxious women who are watching the wasting of their beauty, stand before the mirror and note the increasing lines etched by pain about the mouth and eyes. Thousands of such women, wrecked in body and in disposition, haggard, nervous, irritable, cross, have by the use of Doctor Pierce's Favorite Prescription been entirely cured, and watched with delight the progress of the cure, marked by brightening eyes, reddening cheeks, and rounding form.

Woman's general health depends largely upon the local health of the organs distinctively feminine. Irregular periods in maidenhood, followed after marriage by debilitating drains, and the common consequences of motherhood, inflammation, ulceration, and displaced organs, ruin the general health. These conditions are entirely removed by "Favorite Prescription," the body blossoms in a new beauty, and the mind is entirely freed from gloom and despondency. "Favorite Prescription" is not a stimulant, containing no alcohol or whiskey.

"In October 1881 I gave birth to a baby and the treatment I received at the hands of the midwife left me with female weakness," writes Mrs. Cordelia Henson, of Coalton, Boyd Co., Ky. "I had no health to speak of for three years, and another baby which was the third child. My health began to fail and I had three miscarriages so I found myself completely worn out. I had so many pains and aches my life was a burden to me and also to all the family, for I was nervous and cross and I could not sleep. Just after my last miscarriage (in 1885) I was taken with a severe pain in left side. Had four doctors come to see me but at last I found I was slowly dying. The doctors said I had liver, lung and uterine trouble. I was in bed for months and when I did get up I looked like a corpse walking about. I commenced to take Dr. Pierce's Golden Medical Discovery, 'Favorite Prescription,' and 'Pell's,' and ever since then I have been a well woman. At my monthly period now, I have no pain. My cheeks are red and my face is white, but before it was as yellow as saffron."
