

Out in Kansas

lives a happy wife. She writes: "I have used Mother's Friend before two confinements. The last time I had twins, and was in labor only a few minutes. Suffered very little." The reason why

Mother's Friend

does expectant mothers so much good is because it is an external liniment, to be applied upon the outside, where much of the strain comes. It helps because the pores of the skin readily absorb it, and it comes into direct contact with and is absorbed by the parts involved. Morning sickness is quickly banished, and nervousness is kept completely away. The sense of dread and foreboding is not experienced, even during labor itself. Confinement is short and almost without pain. Recovery is quick and sure. Best of all, Mother's Friend benefits the unborn just as much as the expectant mother, and when the little one comes it will be strong, luscious and healthy.

Druggists sell Mother's Friend for \$1 a bottle. Send for our free book on the subject, finely illustrated.

Copper Colored Splotches.

There is only one cure for Contagious Poison—the disease which has lately baffled the doctors. They are totally unable to cure it, and direct their efforts toward bottling the poison up in the blood and concealing it from view. S. S. S. cures the disease positively and permanently by forcing out every trace of the taint.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do no good, I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved and was delighted with the result. The large red splotches on my chest began to grow paler and smaller and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.
