

THE PLACE FOR A POOR MAN.

Alameda, N. W. T., Canada, Dec. 22nd, 1899. Mr. B. Davies, Canadian Government Agent, St. Paul, Minn. Dear Sir—As I promised you about two years ago that at some future time I would let you know what I thought of Western Canada and the chances of a poor man making a start and supporting a family at the same time, and I will write a few facts concerning my own experience the past 21 months, and what I have done, any able-bodied man can do, provided he will work. I left Traverse country, March 20th, 1898, landed in Alameda at noon the 21st, with \$3.55 in my pocket, a stranger and among strangers, and when my family came in Oct., 1898, my wife had nearly \$10, or barely enough to pay freight on her stove, sewing-machine and clothes and beds. I commenced work March 28th, also made entry for homestead same day (the man I started work for loaning me \$15 to pay entrance fee), and I have earned or at least received \$478.10 in wages since then, and have been idle at least 2 months of the 21 since I came. The homestead I took had 12 acres broke by a former occupant. I paid \$20 to have it replowed in July, '98, and the seed wheat for it cost me \$8.25. I let it to a neighbor for 1/2 in elevator clear of all expense except the seed, and this fall I received \$70.10 for my part of the crops off of the 12 acres, so my total receipts the past 21 months has been \$548.10, and my expenses besides living for self and family have been as follows: Entrance fee (\$5.00 being paid for cancellation).....\$ 15.00 Summer following 12 acres..... 20.00 Seed for same..... 8.25 Cost of house, besides my own labor on same..... 75.85 20 acres of breaking and double discing same..... 60.00 My half of wheat..... \$179.10 70.10 Net expense on homestead... \$109.00 We moved on our homestead July 10th, 1899, have 32 acres in good shape for crops in 1900. My wife joins with me in sending best wishes to you and yours. You can truly say to any poor man who pays a big rent to get a farm (somebody else's land) or works for wages to support a family, that I have personally tried both in Minnesota and tried hard to make a success of it, but found to my sorrow that after working hard a poor living was all I could get out of it, and after nearly 2 years of Western Canadian life I will say that I am very thankful to you for helping me to decide to try it in Canada. Yours respectfully, W. H. KINKADE.

ROUTING THE BOERS.

There Will Be But Little Fighting Until British Reach Vaal River.

The Next Important Operations May Be Expected to Take Place in Natal, but Not for Two or Three Weeks Yet.

London, March 18.—The peaceful conquest of the Orange Free State progresses so evenly that it is now believed there will be little or no fighting until Lord Roberts reaches the Vaal river. How soon he intends to start out with this objective is not yet hinted at, but the pacification of the Free Staters seems now engaging all his intention. When the move comes it would doubtless be accomplished with the secrecy and swiftness which have characterized all the British advances since Lord Roberts assumed command.

The revolt of the Cape Dutch in the northeast seems to have had its back broken, and it is likely Gen. Kitchener will soon resume his place beside his chief.

London, March 19.—The news from South Africa is entirely satisfactory to the British public. The relief of Mafeking is not yet announced, but it is extremely probable that this is already accomplished by Col. Plumer's advance. Lady Charles Pentecost, at Cape Town, has received a telegram from her husband in Mafeking, dated March 12, saying that he expected to join her shortly. The actual relief movements have not been publicly developed in detail, but it seems that Lord Methuen only started very recently and is rather engaged in dispersing the Boers of the district than aiming at actual relief. Col. Peckham has dispersed 500 Boers at Fourteen Streams. Lord Roberts probably ascertained from Mr. Frazer, the new mayor of Bloemfontein, before dispatching Gen. Pole-Carew southward, that in all likelihood the railway was clear. The next move will be to collect at Bloemfontein by railway sufficient stores for the immense army Lord Roberts will have when the Orange river forces joined him. This will probably occupy from two to three weeks. Therefore the next important operations may be expected in Natal.

The cavalry brigade which Lord Roberts has sent to Thaba Nchu, 35 miles east of Bloemfontein, is desired to cut off some 2,000 Boers who are escaping from the southward. The Boers are reported to have destroyed the railway in the neighborhood of Kroonstadt. Lord Roberts probably ascertained from Mr. Frazer, the new mayor of Bloemfontein, before dispatching Gen. Pole-Carew southward, that in all likelihood the railway was clear. The next move will be to collect at Bloemfontein by railway sufficient stores for the immense army Lord Roberts will have when the Orange river forces joined him. This will probably occupy from two to three weeks. Therefore the next important operations may be expected in Natal.

WHY AMERICANS WIN.

When They Climb a Ladder They Don't Require Anyone to Hold It.

One of the many reasons why American manufacturers are so successful competing in foreign markets is to be found in the following episode, which occurred recently: An American manufacturer of steam specialties was visiting an English firm which made similar goods. A certain article which both firms made was under discussion.

"What is your price on this thing?" asked the American.

"Well, in your money, about \$19," replied the Englishman. "What does it cost you?"

"I'll deliver at your door all you want at seven dollars apiece," said the American.

"How in the world do you do it?"

"Well, I'll illustrate," answered the American. "Look out of that window and across the street. See that man painting a sign?"

"Yes."

"He's on a ladder, isn't he?"

"See that other man sitting on the sidewalk holding the foot of the ladder?"

"Yes."

"Now, in America we have ladders that stand up by themselves—don't need a man to hold 'em. So, you see, in this instance we divide your cost of labor exactly by two."

"I see," remarked the Englishman.—Electrical Review.

New Use for Wireless Telegraphy.

Wireless telegraphy has had a new demonstration for usefulness by the captain of a lightship, who used it after ordinary signals had failed to notify the shore authorities of danger. In a like manner Hostetter's Stomach Bitters, the famous dyspepsia cure, acts when all other medicines fail. Its superiority is quickly felt in the renewal of strength. It regulates the bowels, improves the appetite, and cures indigestion. Try it.

Shorthand Talk.

The courtroom was filled with people. The witness sat at length in his native tongue to the queries of the lawyers.

While this was going on a young wit entered the courtroom and stood listening for a minute to the witness' answers. Then he remarked, drolly: "Say, what's he doing, talking shorthand?"—Detroit Free Press.
