

TROPICAL HURRICANE.

Much Damage Was Wrought on the Southern Coast of Florida.

A Bark Containing Lumber Dashed Upon the Rocks South of Casy Foot Light—The Crew Is Missing.

Miami, Fla., Sept. 8.—The tropical hurricane, which has done considerable damage on the coast of Jamaica and Cuba, struck the Florida coast Wednesday, the wind at one time reaching a velocity of nearly 100 miles an hour. It is learned that the crews of at least two vessels were swept overboard about 50 miles south of here. No damage was done at Miami. Telegraph wires were blown down and this part of the country was shut off from the outside world from Wednesday until Friday afternoon. The bark Culboun, Capt. Richter, of St. Johns, N. B., laden with 33,000 feet of fine lumber, is ashore five miles south of Casy Foot light, about 35 miles south of Miami. She is waterlogged. The Culboun was driven by the force of the waves over one of the reefs forming the inner passage, and is lying in 12 feet of water. Nothing has been heard of her crew. The Culboun encountered the hurricane Wednesday morning. At 10:30, after losing her rudder and nearly all her canvas the vessel was hurled upon the rocks. The vessel and cargo may be saved. The Culboun sailed from Pascagoula, Miss., August 23, and was bound for Rosario, Argentine Republic.

Three miles south of the Culboun is a deserted lumber laden bark which stranded during the night of the 5th. The crew, it is feared, was swept overboard during the storm. The vessel has a windmill and is consequently thought to be Norwegian.

West Palm Beach, Fla., Sept. 8.—Considerable damage has been done in this section by the tropical hurricane which struck here Wednesday. The gale continues. The bulkhead of the immense Palm Beach pier was swept from its foundation and washed several hundred feet to the north. A force of men were engaged in repairing some slight damage to the pier and had a stationary engine out on the end of it when the storm struck this point. The men all escaped to the shore. The current is running very high and it will be several days before repairs can be attempted. A number of small boats which were anchored interior and lakes were torn from their moorings and sunk. Several docks and seawalls were badly injured.

PORTO RICAN CENSUS.

Under Educational Qualification, the Number Entitled to Vote on the Island Is But 47,973.

Washington Sept. 8.—Gen. Sanger, director of the Porto Rican census, has just published the third bulletin relating to the population of the island of Porto Rico. This deals with the citizenship on the basis of literacy, with special reference to the effect upon the voting population of the educational requirement imposed by the Foraker act.

The males of voting age number 204,071, and but 3.8 per cent. are of foreign birth. Of the white persons of Porto Rican birth, 29.4 per cent. can read or write, while 17.2 per cent. of the colored population are illiterate. Under the educational qualification, the number entitled to vote in the island would be 47,973, or 27 per cent. of the native-born males of voting age, restricting the suffrage to about one-fourth of the adult males. The cities of San Juan and Ponce contain most of the foreign element of the island, but even there the native whites and colored each outnumber the foreign element.

WILL PROCEED TO MANILA.

The Transports Warren and Aztec Arrive at Nagasaki, China, and Kobe, Japan.

Washington, Sept. 8.—The war department has been informed that the transport Warren arrived at Nagasaki Thursday and that the transport Aztec arrived at Kobe, Japan, Friday. The Warren has aboard two battalions of the 9th cavalry and the Aztec the horses of the 3d cavalry. In accordance with the decision of the war department not to send any more troops to China both transports have been ordered to proceed to Manila. The men of the 3d cavalry already have preceded their mounts to the Philippines.

The Deutschland Two Miles Ahead.

New York, Sept. 8.—The British steamer Critic, which arrived in quarantine from Leith and Dundee, reports, on September 5, having passed the steamers Deutschland from New York for Hamburg and the Kaiser Wilhelm der Grosse from Bremen. The Deutschland was two miles ahead.

Says Filipinos Captured Towns.

Paris, Sept. 8.—According to Senor Agoncillo here, the Filipinos have recently captured eight villages in the northern part of Luzon. He also claims the capture of Tacloban, capital of the island of Yebu, and mentions important fights in Mindanao and the Visayas.

Man and Horses Cremated.

Hoyville, Pa., Sept. 8.—A fire at Liberty, Pa., destroyed a hotel, a store and three other buildings. One man was burned to death and five horses perished.

TO BE BROUGHT HOME.

Remains of Officers and Men in the Navy Killed in Action or Dead Outside the United States.

Washington, Sept. 7.—The navy department is making arrangements for bringing home the remains of officers and enlisted men of the navy and marine corps who died or were killed in action and buried outside the United States since April 21, 1898, the official date of the beginning of the Spanish war.

There are 105 cases of this description, including five officers, 57 enlisted men of the navy and 43 enlisted men of the marine corps. It is the purpose of the navy department to have these remains interred at places in the United States selected by the next of kin, or, if no preference is expressed, at the National cemetery near San Francisco. All unclaimed bodies from the West Indies and Atlantic points will be interred in Arlington cemetery near here.

BATTLE WITH BOLOMEN.

A Detachment Under First Lieut. Leback Attacked Near Carmen and the Filipinos Nearly Annihilated.

Washington, Sept. 7.—The following has been received at the war department, from Gen. MacArthur:

Adjutant General, Washington: Details of the outbreak of Bolos. It developed that Pedro Samson, commandant of the police, left Tagbilaran ostensibly to inspect the police of various towns. This he did until heard from in Carmen, with followers, threatening to attack the garrison at Ubay. Two detachments ordered to Carmen found the town peaceful. No trace of insurrection. A detachment of twenty-seven men under First Lieut. Leback, August 31, were attacked near Carmen by 120 Bolomen. The latter were nearly annihilated, over 100 being killed. Our loss as previously reported. Movement in the interior now in progress. "MACARTHUR."

LABOR UNIONS.

An Iowa Justice Holds That They Are Pools or Trusts and Are a Violation of the Law.

Des Moines, Ia., Sept. 7.—Justice Halloran Thursday rendered a decision in a justice court in the case of Ryan vs. Charles Weitz & Son, in which he held that a labor union is a pool or trust, the operation of which is in direct violation of section 5,060 of the code of Iowa, which says: "Any corporation or organization having for its object the maintenance or regulation of any commodity is a trust or pool."

The American and English encyclopedia of law defines labor to be a commodity, and it is on these two authorities that Mr. Halloran formed his opinion. Ryan is backed by the teamsters' union of Des Moines, which will take the case to the district court on a writ of error. The supreme court will probably be called upon to settle the question.

G. A. R. ENCAMPMENT.

It May Not Be Held at Denver, Col., and Cleveland, O., Has Made a Bid for It.

Cleveland, O., Sept. 7.—Owing to the disinclination of the Western Traffic association to grant the rate of 1 cent a mile, which was one of the conditions on which Denver was selected as the place for the next encampment of the Grand Army of the Republic, Cleveland has made a bid for the encampment. The G. A. R. posts in this city, working in connection with the Business Men's Convention league, have started the movement, and it is meeting with much favor.

Armor Plate Tested.

Washington, Sept. 7.—The bureau of naval ordnance held a test at Indian Head proving ground Thursday of Carnegie plate intended to form group 2 of the side armor on the monitor Arkansas, now building at Newport News, Va. Two shots were fired from a 6-inch gun at velocities of 1,968 feet seconds each. The plate passed the test successfully and the group which it represents was accepted ballistically for the government.

Algona, Ia., Sept. 7.—The identity of the two men found dead on the railroad near Sexton has been established by means of papers found upon them. They were August Carlquist, of Boone, Ia., and Jens Gravson, of Indianapolis. They were evidently murdered, being shot through the lungs and their pockets having been rifled.

USED TO RUN A HOTEL.

Therefore He Knew How to Sympathize with the Long Suffering Landlord.

"I was up at Niagara Falls the other day," said a Washington man, according to the Washington Post. "The summer rush had just begun. While I was in the office a guest entered to register. The landlord sized the new arrival up as a kicker while he was writing his name in the register, and before anything could be said about rooms, rates or conveniences he observed:

"Perhaps you have made a mistake in the hotel. This is the Great View house. The Small View house is two blocks down the street."

"This is the place I want," replied the guest.

"But our rooms are small and the beds are nothing to brag of."

"That will be all right. I've been sleeping in a hall bedroom on a shelf for a year past."

"There is no roaring to be heard here."

"I'm glad of it."

"And the meals are very plain."

"That suits me. I've got dyspepsia, and the plainer the meals are the better."

"You don't object to hand organs by day and snuffling babies by night?"

"Not the slightest. I've roamed all over Europe, and you can't have anything here to compare."

"The landlord said that he had erred in sizing the man up, but he hated to admit it, and therefore continued:

"My rates are three dollars a day."

"That's cheap enough for a hotel here," replied the man.

"Do you look for rainbows over the falls?"

"Not a bit of it. If they come along I'll take my share, but any old bow will do for me."

"Are you afraid of typhoid fever?"

"No, sir."

"There's only one cataract here."

"I don't want any more. Give me the poorest, smallest room in the house, and if you want to put a man in with me, all right, and I'll use anything for a wash basin and furnish my own soap and towel. Your rates are three dollars a day. Here is \$100 to start on."

"Lord, Lord, but what kind of a man are you?" gasped the landlord, as his head began to swim.

"I? Oh, I used to run a hotel here myself and I know how to sympathize!" smiled the guest. "Just let things run along the same as if I wasn't here. If it's handy, give me clean sheets once in two weeks, but don't go to putting yourself out or worrying over me. Here's 33 days in advance, and in case you run short any time just let me know and I'll lend you \$500 to get along with!"

THE WORRYING HABIT.

Some Pertinent Comments by Robert Hickens, Author of "The Green Carnation."

It is absurd to join a "don't worry" club, but it is far from absurd to resolve to train the mind not to worry. The mind, like the body, is to a great extent the servant of repetition. It must be accustomed to do, or to stop doing, a thing before it can accept, or refuse, a feat easily.

The mind is strangely like the body. Exercise it and you will be surprised to find how much it resembles the body. Lots of people honestly believe that, because a certain fault is, as they call it, born in them, they can never get rid of, or even thoroughly curb it. So the woman who worries goes on helplessly, hopelessly worrying, and only worries herself the more by joining a "don't worry" club.

I remember once suffering persistently from insomnia, and I was advised not to think at night, to make my mind a blank, empty of thought. I said I could not possibly do it. I tried to do it, and could not. I tried again and again, and could not. Always some definite thought intruded. But I resolved to reduce my mind to obedience, and I persisted in the attempt to compass what seemed the impossible. One night I banished thought and I slept. Since then I have often succeeded in thus drawing, as it were, the poison from the fangs of that monster the mind, for it can be a monster, indeed. The fatal thing is to be beaten at a first, a second, even a third attempt. It is quite possible for the worrier to worry no more. Read Marcus Aurelius on that subject. If Dr. George Jacoby is right—and no doubt he is—then worry helps to kill the body. It certainly helps to injure the soul. Why does not some Sandow of the mental world start a school for the training of the temperament? This would be far better than a "don't worry" club.—Chicago Democrat.

Mousse of Chicken.

Take about a quarter of a pound of the raw white meat of a chicken, with the skin and any nerves or small cords removed, and beat it to a fine pulp with a seasoning of cayenne pepper, salt and a bit of grated nutmeg and the white of one raw egg. Pass this through a sieve and mix the pulp with a dozen tablespoonfuls of cream, a part of which has been whipped. Butter some molds and give them a coating of fine hashed peanuts, and then fill the molds with the pulp. Cook in a moderate oven, setting the mold in boiling water in a baking pan, and serve with a rich brown sauce garnished with parsley.—Utica Observer.

Young Man—If it isn't too much trouble, sir, I would like that piece of cloth.—Chicago Democrat.
