FOR a nice, cool, mild smoke try the "Garth" 5 cent cigar. It

JOHN I. FISHER, formerly of North Middletown, has taken a position as secretary and financial manager of the Brackett Bridge Company of Cincinnati. This is one of the most successful bridge companies in the country.

SEVERAL suspension rods of the Brooklyn bridge were found to be broken Wednesday. The bridge was closed to traffic until an investigation was made. The breakage is not serious, and is supposed to have been due to expansion from the heat.

A GUARANTEED Hemp Cutting machine. F. H. ABBOTT.

MESSRS. DAN PEED and W. C. DOBSON have formed a partnership for the purpose of conducting a coal yard on upper Main street. Two such popular men as these are bound to make a success, and THE NEWS predicts for them a big trade.

CALL at Hinton's and get his summer prices on wall paper. He is offering unprecedented bargains on his immense stock and also on the price of hanging it.

THE many friends of Mr. Wm. McClintock, who recently went to Louisville in order to have an operation performed at the hospital there, will be pleased to learn that the operation was a complete success and that Mr. McClintock is improving rapidly.

A COLD wave of disgust stole over her face which chilled its perspiration, then through her teeth she fairly hissed: "You will drive me to desperation." Then her husband tremblingly said: "Oh, do nothing rash, my dear, and I'll agree to let j-l-m-u upholster your old arm chair."

THE heat Wednesday and yesterday, as far as suffering was concerned, was the most severe of the present hot spell. On Wednesday night almost everyone passed a sleepless night, and that there have been no prostrations is nothing short of miraculous.

LADIES, for 10 cents (silver) we send 100 gummed printed fruit jar labels, assorted.

At about 11:30 o'clock Wednesday morning the roof of Mr. W. A. Hill's residence, on Eighth and Pleasant streets, was discovered to be on fire. The alarm was sent in by telephone, and the department arrived promptly. The Champion Chemical Engine again proved its usefulness by holding the blaze in check until the water could be turned on. Two streams were applied and the fire was soon under control. The only damage done was the burning of a part of the roof and that of the water soaking through the ceiling. This makes the fifth fire for July, none of them doing any great amount of damage. The origin of this one is a mystery. The only reason advanced is that a number of matches which were lying in the window were ignited by the heat.

THE "Garth" 5 cent cigar is manufactured in this city and sold by most of the leading cigar dealers.

A Menace to the Young.

The services that are being held every night in the tent near the depot by a couple of alleged preachers, who claim allegiance to no sect or creed, but are simply preaching "to save souls," are really a menace to the future welfare of the boys and girls of this city. The actions of the exhorters are erratic to the extreme, and their language, to say the least, is rough. Great crowds of boys and girls congregate there every night, as they say, "to see the fun." Their accounts of the sayings and doings would be comical were it not for the thought of the impression which this style of what they think is religion is leaving upon their minds. Periodically these people spring up in various parts of the country, and THE NEWS thinks the lesson learned by the young people who attend their harangues is a harmful one, and that they should be suppressed.

Prohibition Does Not Prohibit.

Prohibition or local option never did nor never will prohibit the selling or buying of liquor. The Flemingsburg Gazette says there is not a drug store in Flemingsburg where whisky can be secured even on a prescription. That this is the work of a few silly fanatics on the question is evident. In their blind ignorance they do more to make drunkards of their sons than all the saloons in the country could do. The writer once lived in Flemingsburg. It was at that time supposed to be local option, and there was not a saloon in the town, yet there was more whisky drunk there than ever before and more drunkenness. A number of the young men who were only moderate drinkers would "chip in" and send to Marysville and buy it by the gallon, and drink to their heart's content. Many a Flemingsburg drunkard has been made so by these temperance fanatics.

WANTED.—One hundred thousand bushels of bluegrass seed. E. F. SEARS & SONS.

Herrmann The Great.

The world famous prestidigitator, "Herrmann the Great," will appear at the Opera House, on August 23.

Leon Herrmann has been in this country now four years, has achieved remarkable success and a reputation for expertness in palming, creating illusions, and presenting the many feats of the occult phenomena that are associated with his calling in such a superior manner, as to place him in the front rank and to proclaim the master. In much that he does he resembles his late uncle Alexander. He has the same mannerisms, the same happy faculty of speech, and personal magnetism besides resembling him in form and feature, as to startle the public when he appears before them.

He will present a novel entertainment of magic in this city. He does so many things that are in reality mystifying that he arouses curiosity and sustains interest. Several new illusions will also be presented.

For a good smoke the Pagoda, 10 cents, or the Stoner, 5 cents, will fill the bill. For sale by all dealers.

Deering Camp Meeting.

The thirtieth annual camp-meeting at Parks' Hill, Nicholas county, will commence August 8 and continues to the 18th. Rev. T. F. Taliferro, of the M. E. Conference, will be in charge during the entire meeting. Eld. Zack Sweeney and Dr. W. T. Bolling will preach on the 9th, 10th, 11th and 12th. The music will be in charge of and conducted by the Kentucky Colonels. The rates for cottages for the entire meeting range from \$3 to \$10. Board per day, \$1; per week, \$4. Reduced rates and special trains from all points on the L. & N. For information address L. B. Ross, Secretary and Treasurer, Carlisle, Ky.

The Weather.

Scattered thunderstorms afforded some relief from the hot weather in the northern tier of States in the Central West yesterday, and more showers, covering a wider area, are expected to-day. In the upper Mississippi valley, the lower Missouri valley and the middle and the lower Ohio valley the heat was intense. In Kansas the record was broken, and several points in that State reported temperatures of 112 degrees.

All records were broken in Louisville yesterday afternoon, when the thermometer reached 107 at 8:40 o'clock. It was the fourth day of more than 100-degree temperature. No relief is in sight.

Not Quite That Bad.

The Maysville Bulletin says: "The drought is causing great damage in Bourbon. Reports received from all over the county say the corn crop will be ruined and the tobacco crop merely a half yield. Some farmers along the Maysville and Lexington pike are even refusing drinking water to travelers along the road."

Lost.—A child's silver watch between the residence of Mr. Vol Ferguson and Paris. The initials "M. G. F." and date of May 10, 1901, are in watch. Finder leave at this office. (4)

To Be Tried In October.

Who Is Wm. Gogie?

A dispatch to the Enquirer from New York said: "Wm. Gogie, who says he is connected with a whisky house at Paris, Ky., and whose appearance was the only verification of the assertion, was taken to the West Thirtieth Street Police Station last night on complaint of Charles J. Halle, an importer living at the Bartoldi."

Valuable Pearl Found In Stoner.

George Gorey, the young son of Mr. Robert Gorey, Master Mechanic of the L. & N., while in swimming up Stoner Wednesday afternoon, found a large mussel, and on opening it discovered a pearl about as large as a buckshot. It is perfectly round, without a blemish and of a beautiful creamy color. Mr. Gorey will have it examined by an expert. It will be remembered that THE NEWS recently published a series of articles by Mr. Myers, of New York, an expert on pearls, in which he said the waters of the Kentucky creeks were full of valuable pearls, and that the industry of hunting for them would be a most profitable one.

Monday was the duller Court-day known in Winchester for many years, owing principally to the drought and continued hot weather. The stock yards of H. A. Scobee and James S. Wade had about 100 cattle each, most of which were left unsold. The demand was light and only a few sales were made.

A small lot of heifers, about 650 pounds weight, brought 2 1/2 to 4 cents. A few good cows sold at 2 1/2 to 3 1/2 cents. You Do, or You Don't Need Gasses

The eye being a rather delicate organ, great care should be exercised in the selection of proper glasses. Many believe that glasses should be restored to only when the sight becomes so defective as not to be able to do without. This is a great mistake which must be combated. Whenever there is unmistakable evidence of the need of their aid, they should be used. A neglect of this rule sometimes produces mischief which results in serious trouble if the course be persisted in.
