**Columbia Disc Graphophone.**

Nothing has occurred, in years, in connection with the talking machine business, that has caused more of a sensation than the recent announcement that the Columbia Phonograph Company was to put a disc graphophone on the market. The fact has probably been lost sight of that when the graphophone was invented it was brought forward in two forms—as a disc machine on which the recording stylus makes a zig zag cut, and as a machine using cylinders on which the recording stylus makes a straight out of varying depth. These machines each had their advantages and the question as to which was left to the public for decision, with the result that the demand for the one using cylindrical records grew from a small beginning to enormous proportions, while there was practically no call for the disc type. Thus, for years, the model of the last named instrument has awaited the possible coming of the day of its utilization. Graphophones using the cylindrical records, have in the meantime, been sold in all parts of the world, by the hundreds of thousand and the art of record making has been carried, year by year, to a higher point of excellence, until the Columbia record of today is among the perfected products of human ingenuity.

In the years that have been passing while the graphophone has been changing from a crude talking machine to the wonderful instrument that is now universally accepted as the best, if not the only satisfactory machine in use, other manufacturers, recognizing the impossibility of making progress in competition with the graphophone and the world's renowned Columbia records, have brought out, under various names, imperfect disc machines and while their sale has been limited, sufficient interest in them, with its constant increase in the army of talking machine users, has finally been shown to warrant the Columbia Phonograph Company in supplying a first class machine of the disc description. It is built on more scientific lines than the disc machines of other makers and is superior to them in every respect. Instead of being a hybrid thing, it is a graphophone, with all the advantages of that well known and highly valued instrument, with its mechanism skilfully adapted to the use of indestructible disc records, similar to, though far better than those used by other disc machines.

The facilities of the Columbia Phonograph Company for manufacturing graphophones of every conceivable kind, as well as records of surpassing merit are so far in advance of those of their little rivals, that the mere announcement that they will now furnish a disc graphophone has brought them heavy advance orders from all points of the compass. With this entrance into a field in which small concerns have accomplished a little but not very much, the Columbia Phonograph Company takes possession of the entire business, having won its commanding position by persevering it and by right of having been in the field with every improvement that tended to advance the art.

**Woman's Foreign Missionary Society.**

A meeting of the Woman's Foreign Missionary Society of the Lexington District, were in session in this city, the latter part of last week. The opening service consisted of the addresses of welcome, given by Miss Blanche Lilliston, on behalf of the adult society, by the Mary Bashford Truehearts, for the children and Rev. J. L. Clark, for the church. Miss Edna Robertson, of Mt. Sterling, responded. Mrs. A. T. Forsyth, District Secretary, conducted the business sessions, when the work of the past year was reviewed and the coming year planned. The presence of Miss Mattie Watts, for twenty years, a missionary in Brazil, was an inspiration, as well as a pleasure. Among the well-known missionary workers who were present and added much to the interest of the meeting were, Mrs. C. J. Nugent, of Harrodsburg, Mrs. M. A. Odell, of Winchester, and Mrs. Rosella Hogan Cram, of Warsaw.

A delightful lunch was served at the noon hour on Friday by the ladies of the Paris Auxillary.

Every doll in our store was imported by us direct this season, hence these low prices. THE FAIR.

**Religious.**

The choir at the Second Presbyterian Church, in this city, is much improved of late, and is rendering some very fine music. On last Sunday morning a double quartette gave a fine selection, and Miss Washington sang a very sweet solo, "The Holy City," which was much appreciated.

The meeting at the Christian church, in this city, has been a most satisfactory one in every respect, and it was expected that it would close last night. Large audiences have been in attendance at all of the meetings and much interest has been manifested. There has been fifty-one additions in all to the church.

Elder J. T. Sharrard has declined to work at Cane Ridge for next year and will go to another field for half his time.
