CHOKING CATARRH CURED

Your Money Back if Hyomei Does Not Cure You.

"Use Hyomei and be cured of catarrh," is what all who have tried it for that disease say to their friends.

It is the easiest thing in the world to stop catarrh at its beginning if you use Hyomei. Just breathe the health-giving, balsamic air for a few minutes and your catarrh will be cured.

In this city and neighboring towns, there are hundreds who can testify to the remarkable powers of Hyomei to cure catarrh. Many of the staunchest friends of this remedy to-day began its use with little hope that they would be cured, but as Clarke & Co. offered to refund the money if it did not cure, they decided to try it on that plan, and were soon restored to health.

"I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Mommsen's "Roman History."

Some one has well said that but for the "Roman History" Mommsen would be a great man "taken on faith." That is probably true, but we have the "Roman History," perhaps the most remarkable piece of German literature written in the middle of the nineteenth century. It is a wonderful testimony to the power of humanity over humanity that the most human work which Mommsen wrote should be the most popular. The "Roman History" was the expression of the whole man, and if ever it should cease to have value as Roman history it will never cease to be of value as a spiritual document, as a picture of the hopes and ideals of Theodor Mommsen. By a happy chance when the book was brought into the world it appeared in the naked simplicity of its narrative without the swaddling clothes of footnotes and sources. The clear cut style showed forth to its best advantage. The world at large took its statements as faith. Scholars were at liberty to test them in other books of Mommsen himself or of other men.—Professor Jesse B. Carter in Atlantic.

The Sanitation of Ant Cities.

Insects are scrupulously clean in their personal toilet and often brush, comb and wash themselves, a service for which they are admirably provided with natural implements. This habit is transferred to communal affairs. The streets within the city bounds and the gates and external plaza and "country roads" leading into the foraging fields, as with agricultural ants, are kept free from filth and obstructions that might gather filth. The constant washings and combings of baby ants by the nurses would satisfy the most fastidious maternal taste. One may not say that sanitation is an exact emmetonian science, but it certainly is an art thoroughly practiced in every department of the formicary and brought to perfection as far as natural conditions will permit. Every insect citizen takes part in this service. All ants unite to keep their elvish precincts clean.—H. C. McCook in Harper's Magazine.

A Beautiful Art.

Without disparagement of any of the other arts, to attain proficiency in which people make such long and valiant struggles, it may be truly said that the one art of smiling warms more hearts than all others together. Most children—in fact, all happy children—have an unconscious mastery of this beautiful art; but unfortunately they often lose it as they grow older. Children are the best judges of smiles in the world. "Her lips smile," said a child, speaking of a hard faced woman, "but she doesn't." A widening of the mouth in a vain endeavor to look pleasant is not a smile. It deceives nobody. A smile, to be worthy of the name, must come from the heart. It is the result of an honest willingness and readiness to be pleased with little as well as great things.

Antwerp Milk Woman.

There is no more picturesque figure in quaint old Antwerp than the milk women. For many years the milk of the city has been served to the houses by these women, whose customs and even costumes have remained unchanged. The milk women wear a simple dress, almost completely covered with a voluminous white apron. A quaint white headdress completes the uniform. Scores of these picturesque figures are to be seen throughout Antwerp in the morning hours. The milk is either carried in two large buckets, hung from a yoke running across the shoulders, or in little carts drawn by dogs.

Eating at Night.

Every living bird and beast strives its utmost to cram itself with food before retiring for the night, and this food is digested as the night progresses. The evening feed is the feed of the day with the brute creation, and yet doctors tell us to refrain from eating heartily at night and even advise us to retire to rest with a more or less empty stomach. Are we following nature when following this advice?—Country Gentleman.

How the Chinese Beat Time.

A Chinese child is considered a year old at its birth, and its age is reckoned not from its birthdays, but from its New Year's days. If it is fortunate enough to be born on Feb. 1, the day before the Chinese New Year's day, it is said to be two years old when it is two days old. It is one year old when born, and another year is added on its first New Year's day.

The Korean Wife.

In Korea the rooms of a wife or mother are the sanctuary of any man who breaks the law. Unless for treason or for one other crime he cannot be forced to leave those rooms, and so long as he remains under the protection of his wife's apartments he is secure from the officers of the law.

Bound to Be Comfortable.

An author who had been jailed for debt wrote to his wife: "Do me the favor to send me my Shakespeare, my nightgown and slippers, my pipe and all letters asking for autographs and containing stamps. I want to be comfortable and at peace with the world."—Atlanta Constitution.

Irate Female—Look here! Do you mean to tell me that I have got such an ugly looking nose as that? Photographer—But my apparatus cannot lie, madam. Irate Female—Then, for goodness' sake, go and get one that can.

Just Help Himself.

No Mystery THE SHERWIN-WILLIAMS PAINT is not a "patent" or "chemical" paint. There's no secret or mystery about it. It's a pure lead, pure zinc, and pure linseed oil paint. It's better than other paints made from the same materials, because the methods and manufacturing facilities of its makers are better—not because they have any patent or secret scheme. S. W. P. always gives satisfaction and saves money.
