## More Riots.

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by Oberdorfer, the Druggist.

## THEATRICAL NEWS.

BARLOW MINSTRELS.  
The popularity of Mr. Ed. C. Hayes, Monologist and principal comedian with the great Barlow Minstrels, who will appear in Paris on Sept. 8, is largely due to his elimination of all attempts to impress his audience with his own importance and ability, in his efforts to please and allow the genuinely contagious humor of the man to accomplish results, which speak much stronger than all affectedness with some posing of the would be funny man, and instantaneously meets with the approbation of an audience. Mr. Hayes, forgetting his personality, in the melange of anecdote, confidences and musical nonsense, makes it apparent that he is there for the purpose of laughing only, to provoke if possible a feeling of friendly cheerfulness, and interest in the subject in hand, rather than the performer, a success, told by the spontaneous applause which always recalls him.

## A SUPERB SUCCESS.

—Of all the superb successes none as yet has surpassed "A Chinese Honey-moon." It is simply marvelous the grasp this bright, merry musical hit has on theatre-goers, and it is safe to say: "See it once means see it again by all odds."

## It Saved His Leg.

## Extreme Remedies for Evils.

The Rev. Baker P. Lee, of Lexington, in an interview gives some extreme and unique remedies for the social evils of the times. He said:

"I would favor of having three saloons in a city the size of Lexington, large, roomy, well-ventilated saloons or cafes, two for white and one for colored use, no screens or frosted glass, but open and in plain view as every honest business is run; pure liquors, a reading-room and other such attachments as are peculiar to the Subway Tavern in New York; no liquors to be sold to minors, habitual drunkards or an intoxicated person; a heavy fine to be imposed for the first offense and a revocation of license for the second offense."

He believes the saloons should be owned by the city and the profits should go toward the building of children's homes or public parks or such other philanthropic enterprises. He further said:

"Disreputable houses exist everywhere. Would to God that they did not, but they do and we must confront facts. I would have high license in this quarter, attention by a health officer and daily house inspection by the police, and that all of these houses be located together in a certain section of the city. If a person visited them everybody would know where he was going. I make this suggestion and the suggestion that frosted windows be removed from saloons so that no sneaking hypocrisy will be practiced."

## Love Caused Suicide.

Miss Ada B. Lyman, a beautiful eighteen-year-old girl, committed suicide at her home, about six miles from Lexington, Sunday morning, by drinking two ounces of carbolic acid. The only message left by the young lady was the following note: "I would rather be dead than live without the one I love better than life."

## Fire At Cynthiana.

At Cynthiana, Sunday night, the large barn in rear of postoffice, used as headquarters of the rural route carriers and by J. W. Smiser, the undertaker, for storage of his harness, wagons, &c., burned to the ground. Mr. Smiser's loss amounted to \$3,000. For awhile it looked as if the whole town would burn.
