

PEPPER'S NERVIGOR
RESTORATIVE. CURES NERVOUS DEBILITY

The world admires men who are strong in physical, mental and nerve force; men of ambition, energy and personal magnetism; the true type of perfect manhood. To attain this the first requisite is good, healthy nerves, which give capacity for physical and mental development and make life worth living.

PEPPER'S NERVIGOR makes Strong, Calm Nerves. Cures Nervous Debility, Failing Memory, Vital Weakness, Frustration, Sleeplessness and other troubles due to over work, smoking, drug habits and other causes. Makes rich, healthy blood and repairs wasted nerves. Equally good for women. Booklet free. Price \$1.00 a box. Six for \$5.00, postpaid, with a guarantee to refund, if not cured or benefited.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

For the Holidays.

During the holidays when you are buying good things to eat remember that we have the best of everything. Our stock is large and fresh and consists of the following, which in quality, is not excelled in this or any other city.

Home-Made Candies,
Box Candies of all Kinds
Nuts, Fruits, Etc.

We have the best Cakes, Plum Pudding, etc., always fresh.

Edison, the Wizard.

Ere the world is a few months older humanity and civilization will be richer for a new development in electric science, evolved from the inventive genius of Thomas A. Edison.

The new discovery, which is destined to bring the great English-speaking nations into even closer union, is none other than the final development of the telephonic power to a height which will permit of conversations between individuals across 3,000 miles of water.

Only a few days ago, says a New York dispatch, learned scientists were arguing as to the possibility of establishing a clear vibrant electric connection between Liverpool and New York, and gavelly determined, after much discussion, that the feat could never be accomplished.

For years it has been known generally that Edison was busily engaged with experiments along this line. Only within the last few months, however, has there been reason to suppose that his work was reaching a definite result.

The reappearance of the familiar light during the dark hours of the morning in the windows of his private rooms in the laboratory told the people of West Orange, N. J., that something momentous was at hand.

That light showed that Mr. Edison was working toward a conclusion of his long labor. For many weeks he had worked, slept and eaten in the laboratory, lying down when exhausted to snatch one or two hours' rest on a couch, and then starting to work again when all the world was asleep. And now it is that Edison has at last conquered the difficulty of transmission of a human voice through long distance of water.

Wind or a rough sea cannot affect the transmission of an electric current. To protect the wires heavier insulation adds to the carrying capacity of the current. In thus graduating the exact power of insulation and in attaining the highest degree of sensitiveness between the receiver and the transmitter, lay the task which Mr. Edison, according to high authority, has at last surmounted.

The details are, of course, known only to himself. The secrets of the chamber in which Edison works through the silence of the night are more jealously guarded than the State papers of a German bureaucracy. But that he is at last by correlative experiment able to accurately estimate the carrying power of his sound waves under the sea is now beyond a doubt.

Side by side with the sea telephone is the veteran inventor completing certain remarkable developments in the Edison nickel iron storage battery, first introduced to the public two years ago with a view to its adaptability to the use of the automobile. Edison's labors with the storage battery have lain in the direction of a gradual lightening in the weight of the battery. With each reduction in the weight the endurance of the battery is increased.

Edison's improved storage battery will, it is believed, enable an automobile of high power to maintain a maximum speed ranging from 100 to 150 miles an hour. Under the present conditions it is possible for a racer of high power to attain a maximum speed of 220 miles an hour and maintain it for perhaps five minutes.

With the improvements now completed by Edison the discharge power of the amperes will be largely increased. The old storage battery was capable of running a vehicle 3,110 miles over bad roads. The capacity of the new battery is limitless in respect of speed or endurance.

No Secret About It.

It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at Oberdorfer's drug store.

University of Chicago.

Announcement was made at a special meeting of the trustees that John D. Rockefeller had just given to the University \$1,450,000. Of this sum \$1,000,000 is for the permanent endowment, \$350,000 to cover the current expenditures or deficit of the departments of the University up to July 1, 1907, and the remaining \$100,000 of the gift is to provide a fund, the interest on which is to go to the widow of President W. R. Harper during her life time.

Home Made

Have your cake, muffins, and tea biscuit home-made. They will be fresher, cleaner, more tasty and wholesome.

Royal Baking Powder helps the house wife to produce at home, quickly and economically, fine and tasty cake, the raised hot-biscuit, puddings, the frosted layer-cake, crisp cookies, crullers, crusts and muffins, with which the ready-made food found at the bake-shop or grocery does not compare.

Royal is the greatest of bake-day helps.

CONSUMPTION'S WARNING

Inside facts soon become evident in outside symptoms.—Dr. G. G. GREEN.

The aid of scientific inventions is not needed to determine whether your lungs are affected. The first symptoms can be readily noted by anyone of average intelligence.

There is no disease known that gives so many plain warnings of its approach as consumption, and no serious disease that can be so quickly reached and checked, if the medicine used is Dr. Boschee's German Syrup, which is made to cure consumption.

It is in the early stages that German Syrup should be taken, when warnings are given in the cough that won't quit, the congestion of the bronchial tubes and the gradual weakening of the lungs, accompanied by frequent expectoration.

But no matter how deep-seated your cough, even if dread consumption has already attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble.

Free trial bottles, 25c. Regular size, 75c. At all druggists.

It is now being organized by Prof. Lippard, of Cincinnati, and will open the first of January. Prof. Lippard has had a large experience in training young men and women for good positions and placing them in same, and every young person possible should enter at the opening. Nothing pays better than a business education. Positions secured for all graduates, and Prof. Lippard has calls for more graduates than he can furnish.
