**Couldn't Get Into Prison.**  
Alexander Thomas stole copper wire in sight of city brokers ostensibly to get into jail at Scranton, Pa. When arraigned before Judge McClure he refused to have counsel assigned him, and insisted on pleading guilty. The verdict of guilty was taken, and, as the prisoner was gleefully contemplating a three or four months' sojourn in jail, Judge McClure blasted his hopes with two cruel words: "Sentence suspended." When the prisoner turned to protest against the harsh usage of the court he was cut short with a snappy "Get out!" He reluctantly left.

**Comprehensive Blessing.**  
The father of a family being absent at dinner, the mother called on little five-year-old Ernest to say the blessing. Folding his hands and bending his head, he said: "Dear Lord, sometimes we have more and sometimes less, but we're very thankful."

**The Backslider.**

**Deafness Cannot be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

**History of Tuberculosis.**

**Alone in Saw Mill at Midnight**  
numbful of dampness, drafts, storms or cold, W. J. Atkins worked as night watchman, at Banner Springs, Tenn. Such exposure gave him a severe cold that settled on his lungs. **NO DRAGGING OF BUNDLES**  
ON THE  
**NEW CENTURY BINDER**  
It Does Clean Work

A binder that does not cleanly separate the bundles from the untied grain costs a lot of your temper and time. Time is money during harvest. To avoid this loss use the New Century. The above cut tells the story. From the moment the needle appears above the grain until it returns beneath the deck, no grain is fed down by the packers. They serve to keep the grain from pressing against the needle. The revolving discharge arms do not come into contact with the untied grain. For good clean work use the New Century. If you will only let us show you the New Century and thoroughly explain it we'll be satisfied with the result for it will be another sale for us—one more satisfied customer.

**Genuine Underdraft**  
IS TO BE HAD ON THE  
**ADMIRAL MOWER ONLY**

Every farmer knows that the greater the "Underdraft" of a mower; the better and easier that mower will do its work. Every other maker of mowers uses some device that will enable him to secure as much "Underdraft" as possible. The best of these devices, however, are but makeshifts by which at least two-thirds of the draft is applied through the pole. Walter A. Wood Mowers alone possess genuine "Underdraft." Every ounce of draft is applied through the draft rod (shown in above cut) right where it is needed. A visit to this store will make this valuable feature clear. We honestly believe the Admiral is the best mower on the market to-day and are eager to show it to you and tell you all about it.
