Second "Whirlwind Campaign."
The second "Whirlwind Campaign" for better education in Kentucky has been planned for June 27 to July 3, and will be bigger, better and more thorough than the former campaign. It will cover the entire State, both city and county, with special reference to the rural community. The Campaign will open Sunday, June 27, when every minister in the State will be asked to deliver an address on "Public Education in Kentucky," from his own pulpit. The regular speakers—one hundred strong—will begin active work on Monday, June 28. In nearly every instance each speaker will cover two counties. His work will be reinforced by local speakers and every community will have an opportunity to participate in the great educational movements which are sweeping over Kentucky.
One of the most important events of the campaign in each county will be the "Rally Day." This should be the greatest event in the history of the county. An all-day, open-air meeting with music and marching and special entertainments has been planned to take place in each county seat.
A great conference of the speakers and of superintendents has been planned to meet in Frankfort prior to the opening of the campaign, and a complete review of the work of the campaign will be made and a uniform plan of action will be decided upon. The entire purpose and scope of the work will be discussed, a uniform plan will be agreed upon and all speakers will be asked to work in unison. One important change in the plan of the coming campaign will be the shifting of the bombardment from the city to the rural community. Most of the campaign of 1908 was devoted to the cities and small towns while that of 1909 will attempt to reach rural school conditions. As a rule the cities have good systems of education already and every effort will be made to bring the standard up to the rural school.

No Danger from Jimmie's Knife.
On Jimmie's birthday his mother gave him a knife. A little friend told him that he ought to give his mother a penny so that it would not cut their friendship, whereupon Jimmie replied: "It won't cut anything else, so I guess it won't cut our friendship."—Delineator.

Hint from Eng. Justice.
"London magistrat and judges have little leniency with malefactors and soak them with much greater severity than is the custom in the United States," said Col. R. D. Grant-ham, a New Orleans lawyer, at the Rennet. "I attended several court sessions while lately visiting in England and noted the way the prisoners convicted of defrauding and like crimes caught it at the hands of the judges. Six months at hard labor was a common sentence, and I also observed that where such punishment was meted out to aliens along with it was added deportation for the convict at the expiration of his term. That deportation idea struck me as a good thing. If aliens who come to another land are there solely for criminal purposes it is a sensible and prudent policy to compel them to return to their native shores."—Baltimore American.
