from the growing of the grain to the baking of the bread, but the intermediate necessity—the flour—is our specialty. Our household flour is milled from the choicest selected hard winter wheat, and contains all the most nutritious elements of the grain. It is not a white flour, but a natural product of the perfect wheat. Hence it makes the sweetest and purest bread.

Gun Shoot Won by Fayette Team

By a margin of twenty-three points out of 2,000, the team of men from the Fayette Gun Club won the trophy from the picked team from the Bourbon Gun Club Friday afternoon at the Bourbon County Fair Grounds.

Messrs. Henderson, of Lexington, and Clay, of Paris, tied for the highest honors of the day with a score of 94 each.

The Fayette team went 1,000 targets breaking 833 while the Bourbon team on the same number, broke 816, coming just 23 behind the visitors, the Fayette team showing team work of 833 per cent. won the match. At that it was not such a walk away as the Bourbon team made an 81 per cent team score which is several degrees from poor.

The handsome trophy which the Bourbon men were contesting for among themselves was not awarded, Elder Carey E. Morgan, J. Quincy Ward and Earl Ferguson having made a tie race of it. They will shoot out the tie Thursday on the Fayette Club's range when they go over in a return team race.

Each of the three contestants, handicap allowances included, made a perfect score, the actual breaks being as follows: Ward 90, Ferguson 88, Morgan 83.

Attempt to Wreck Interurban Car

Interurban car No. 109 enroute to this city had a narrow escape from being wrecked with about forty passengers on Friday night about 9:40 o'clock near station 45 at Monterey.

Some person or persons evidently with the intention of wrecking the car placed three railroad ties on the track in a position to throw the car from the rails. One tie was lying along the rail and two others were on top of it so when the car should strike the one lengthwise the others would prove a trap to derail the car.

The obstruction was noticed just in the nick of time by Motorman Pickett. The car was running at a high rate of speed but the brilliant headlight enabled him to see a good way up the track and he brought the car to a stop after it had struck the ties.

Most of the passengers were well known citizens of this city, who had returned via Lexington from the ball game in Frankfort. The miscreants should be caught and severely dealt with. The Blue Grass Traction Company offered a reward of \$100 for the arrest and conviction of the guilty person or any information that will lead to their arrest.

Pool, or No Pool?

The above was the all absorbing question upon our streets yesterday among the court day crowd. At two o'clock the large circuit court room, in the court house was crowded to overflowing with men to hear the speakers on "Pool, or No Pool."

Mr. A. L. Ferguson, of Georgetown, was the first speaker introduced by Mr. John A. LaRue, who presided at the meeting. Mr. Ferguson favored the new pledge of the Burley Tobacco Society and urged the growers of Bourbon, his old county, to sign the new pledge.

Hon. C. M. Clay was the next speaker. He took issue with Mr. Ferguson, and handled the Burley Society and the promoters without gloves, making forcible arguments against pooling and signing the new pledge.

Mr. Clay was followed by Miss Alice Lloyd, for the Burley Tobacco Society, who made several telling hits in answering Mr. Clay.

Hon. J. C. Cantrill, President of the Equity Society, followed Miss Lloyd and scored the Burley Society and the new pledge.

Leaf Tobacco Amendment Explained.

Senator Bradley Saturday made the following statement: "Under the leaf tobacco amendment the farmer or producer has perfect freedom to sell his leaf tobacco in the hand to whom he chooses without payment of any tax. Retailers will be required to register with the collector of the district, their name or style or place of residence, trade or business, and the place where such trade business is to be carried on. This can be done simply by a letter to the Collector and upon receipt of the answer thereto, and the rules prescribed for keeping books, they can proceed to sell, and may sell leaf tobacco in the hand raised in the United States to any person in any quantity less than a hogshead, except a manufacturer of tobacco, snuff or cigars, without the payment of any tax. If one fails to register he is subject to a fine of \$50. He is required to keep a book and, enter therein daily, his purchases of leaf tobacco and his sales, where such sales amount to two pounds or more, to one person in one day. Such record shall be kept written up to date in such form and containing such entries as shall be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the treasury, and such books shall be kept open at all times for the inspection of any internal revenue officer or agent."

He is required under regulation prescribed as aforesaid, to furnish on demand to any internal revenue officer or authorized agent of the treasury Department, a true and correct statement, verified by his oath or affirmation of all sales in one day with the name and residence of the person to whom sold, with the quantity sold. "If the retailer willfully refuses to furnish such information or to keep the book, or knowingly makes any false statements or false entries in such book he is liable to a fine of \$50 for each offense."

The keeping of the book is simple, as also the meaning of the written statement, and will require but little trouble, as small sales under two pounds will not have to be entered.

There has been much criticism of the bill by persons who were misinformed and who were misled by the fact that the ten-pound limit in the amendment as passed in the Senate was omitted from the bill requiring the farmer to keep a book, as under the McKinley law, was stricken from the present bill.

The argument that there is no more reason why memorandum of sale of tobacco should be kept than sale of corn is utterly misleading. Corn is not taxed, but tobacco is. Manufacturers of tobacco, snuff and cigars are taxed, and if there were no steps taken by which the sales of leaf could be traced,

such sales would open the door to fraud. There is much cigar tobacco raised in the United States, and those who manufacture cigars, if no trace of the sales of leaf were required, could fill their depleted cigar boxes with fresh cigars from time to time and thus escape detection and defraud the Government. It is true that no cigar tobacco is raised in Kentucky, but the bill could not be made applicable to Kentucky alone, but necessarily embrace the whole country. So far as corn is concerned the regulations make it impossible for the distiller to use it in making whisky without being detected by reason of the strict rules applicable to the same.

The aggregate amount of sale \$20,433.

This is probably the largest sale of bank stock ever made at one time in this city. The sale shows a healthy condition of these banks as it is an increase of recent sales of stock of each of the banks.
