Vain Effort to Save Grandson.

It was in a gallant attempt to save the life of his little grandson that Congressman David A. De Armond, of the Sixth Missouri District, perished in a fire that destroyed his home in Butler, Mo., early Tuesday.

rushed with him through the leaping flames that filled their sleeping room. The Congressman fell with his unconscious burden, and both sank through the floor to quick death.

What makes the tragedy unusually pathetic is the fact that the grandson was the grandfather's idol. The two often slept together. Last night the boy went to his grandfather's house, and after a happy evening the two retired.

The next the family heard of them was early Tuesday, when from behind the smoke and flames that enveloped the house, the boy screamed:

"Oh, grandpa, get me out of here, I'm burning to death."

"Yes, son; don't be afraid. Grandpa'll take you out," was the calm reply. Then both went down to their death. The remainder of the family sleeping in the house at the time of the fire—Mrs. De Armond, her daughter, Mrs. Clark, and Miss Nettie Boles—were greatly shaken by their experiences.

"Taft Democrat."

One occasionally reads in the Washington dispatches that a "Taft Democrat" has been appointed to some Federal office. A "Taft Democrat" must be a man who was formerly a Democrat, but is now a Republican, and probably for the sake of office.

Richmond Tragedy.

As a result of a family dispute, Oscar Osborne shot his wife at Richmond Tuesday and then turned the revolver on himself. Both Osborne and wife are said to be mortally wounded.

Osborne is about 27 years of age and was formerly of Beattyville, while his wife was one year younger, and before marriage was Miss Lakes, of Marlinton county. Before moving to their farm, Osborne owned and conducted a saloon in Richmond.

Robert Hendrick, 20 years old, living at Kirksville, Tuesday went to Richmond, and learning that Oscar Osborne, who he claims is a very dear friend of his, was at the point of death, said he could not stand the grief and jerked out a large pocket knife and stabbed himself to the heart before friends could intercept.

Special excursion leaves Chicago December 17th, 1909. Sleepers direct to the lands and remain until after the drawings; round-trip tickets astonishingly cheap; richest of soil; most perfect irrigation system, with perpetual water rights; best of markets; delightful, healthful climate; splendid transportation facilities, and all for \$37.50 per acre, and that on ten years' time.

We own thousands of acres adjoining the village of Uva, Laramie County, Wyoming. Some people now there are going to grow rich within the next few years. We have one of the best irrigating systems in the United States—three reservoirs; head-gates and flood-gates of structural iron set in solid cut-stone masonry. Good schools, churches, telephone, rural free delivery—in fact all of the benefits of modern civilization here obtained.

Crop Yields

Table with 2 columns: Crop Name and Yield per acre. Wheat: 50 bushels per acre. Oats: 40 to 80 bushels per acre. Barley: 40 to 80 bushels per acre. Rye: 30 to 50 bushels per acre. Potatoes: 150 to 300 bushels per acre. Sugar Beets: 12 to 15 tons per acre. Alfalfa: 3 to 7 tons per acre.

Live Stock Advantages

Allow your stock to run on U. S. Government lands adjoining our lands on the north, bring them in and finish them for market on alfalfa and grains grown on your irrigated lands. No other irrigation system that we know of offers you so good a chance to double your profits.

Under these conditions our lands work 24 hours a day and 24 days a year. Don't you think a partner working like this would be most desirable? Winters short, delightfully dry and healthful. Flowing permeable each month during the winter. Remember, "It matters not how long we live, BUT HOW."
