These are not shot through shoes that are made as fast as possible, so as to give the makers their talking chance on quantity and dollars; for shoes so made do not possess the character in workmanship and all around shoe goodness, or the style and satisfaction found in the Sir Knight, which are made pair by pair with the utmost care. MINNESOTA FARMER SEEMS PURSUED BY A HOODOO

AUTOMOBILE WRECKED, TOES MASHED BY MILK CAN AND DWELLING BURNED.

Winona, Minn.—James W. Hardwick, Winona county dairyman, has reason to believe, if ever a man did, that the fates have conspired against him. His troubles have come thick and fast during the past several months and culminated last night in the total destruction of his magnificent farm home by fire.

Early in the summer Mr. Hardwick purchased a fine new automobile. He had had it out a few days when his son took a party of friends for a drive in the country. The boy was bitten by a dog when he got out to get a drink of water and in his haste to reach this city for medical treatment

Unlucky Farmer's Auto Wrecked.

the machine crashed into a fence, the gasoline tank exploded, the automobile was destroyed and the young man badly burned. The boy recovered from the bite and the burns after long medical treatment.

Recently another of Mr. Hardwick's sons drove into this city with a valuable horse. A resident offered to sell him a horse and young Hardwick agreed to take the animal home to put the matter before his father. He left his own horse behind in the Winona's barn and drove the one he thought to buy home. The deal was unsatisfactory, and when Mr. Hardwick returned with the animal he found the one he had left was gone. With the assistance of the police he finally got his horse back after considerable parleying.

The other night Mr. Hardwick came to this city with a load of milk. While unloading it one of the heavy cans fell on his foot, mashing several of his toes. He was taken to a physician's office for treatment. While in the office he got a telephone call from home that his residence was afire. He was taken there as quickly as possible and arrived just in time to see the walls fall into a seething mass of fire. The residence was totally destroyed, together with its entire contents. The loss will be over \$5,000, with but \$1,500 insurance.

VAGRANTS MUST BREAK ROCK

Railroad Will Put Tramps Who Don't Pay on Stone Piles to Make Ballast.

Omaha, Neb.—While the passage of the Hepburn bill put an end to railroad passes, it did not stop the army of tramps from riding free. The Union Pacific officials, however, have evolved a plan to stop Mr. Tramp's free rides.

Recently, at all division points and at most of the large towns on the line, the Union Pacific hauled in carloads of stone. It was reported that this was for track and yard improvement, but, in fact, the stone piles are for the purpose of supplying places to work for men who steal rides on brake rods and on the blind baggage. The company has declared its intention of trying to bring about the enforcement of the state vagrant law, and, in the future, when a man is caught stealing a ride on the Union Pacific lines in Nebraska, he will be carried to the first town where there is a stone yard, where his arrest will be caused, and he will be taken before the justice of the peace. If convicted of being a vagrant, he will probably be sentenced to from 10 to 30 days breaking rock.

The company expects to make enough out of the work of vagrants to pay the towns the cost of boarding the prisoners while serving sentence. The broken rock will be used for ballast.

Kills Deer With an Arrow.
Providence, R. I.—Fred B. Pillsbury has returned home after winning a bet by shooting a deer with a bow and arrow in the Maine woods. Pillsbury made a wager with a fellow club member that he could kill a deer with an arrow at 50 yards. He accomplished the feat in the Telos lake region before witnesses. He used a snakewood bow imported from India. The arrows were a yard long, and the bow had a 90-pound draw. The deer was shot through the heart.
