

EXODUS OF GROWERS

Reports From Millersburg Says a Number From That Section Will Locate in Missouri

SHOWER FOR MISS BALL

Attempt to Be Made to Stamp Out Alleged "Blind Tigers" - News in Millersburg

A number of tenants from this end of Bourbon county and over the line in Nicholas, it is reported, will move to Missouri about the first of March where they will engage in the growing of tobacco. The action taken by the tobacco growers at the meeting held in Lexington last week in voting to cut out the tobacco crop this year is responsible for this movement on the part of the growers and tenants in locating in another state for the culture of tobacco.

From all reports that are continually coming in from growers and tenants who have emigrated to Missouri, it is very evident that this State will soon become Kentucky's chief competitor in the production of tobacco. One man, who recently returned to Kentucky for a visit, claims tobacco can be grown in Missouri as successfully as it can here. Hundreds of Kentuckians have located in the vicinity of Weston, Mo., where the productive soil yields a weed equal to that produced in Kentucky. The only difficulty encountered by the growers, it is said is their failure to get their barns built in time for the housing of their product. This difficulty is being rapidly overcome and within a few years it is claimed by those who have returned from the tobacco growing sections Missouri will rank with Kentucky in the production of tobacco.

At the close of the Union services at the Methodist church Sunday night an after meeting was held for the purpose of devising means to stamp out "blind tigers" that are supposed to be in existence here. Our Population.

The census report show that the different states vary very much in the density of their population. Rhode Island is the most thickly settled, having five hundred and eight inhabitants to the square mile, while Nevada has less than one person to the same area. Kentucky has 57 to the square mile which gives every man, woman and child in the state something over eleven acres, on an average. We shall not starve for a while from overcrowding.

Lad Confesses Murder of Grandmother.

After his father had been arrested in connection with the shooting to death of his grandmother, a five-year-old boy at Danville, Thursday confessed that he had shot the old woman accidentally and had run away to escape a whipping.

The victim of what was at first believed to have been a murder was Mrs. Marter Carter, 60 years old. Her body was found in her home at Junction City, and an examination revealed that a charge of shot had caused her death.

Police investigation failed to account satisfactorily for the whereabouts of the woman's son, Clayton Carter, who had been making his home with his mother since the death of his wife a year ago. Despite his protestations of innocence he was placed in jail.

News of his arrest spread rapidly and rumors of a plan to lynch the prisoner began to circulate. Just when the authorities were becoming anxious for the safety of their prisoner Carter's son was explained the so-called "crime" was explained.

Young Carter is being held in the Danville jail to answer to the Boyle county grand jury without bond.

Extensive Poverty.

Few persons are aware of the extent of grinding poverty to which a large class of population has been driven by the constant increase in the cost of living. A competent author says that one-ninth of the total population of New York is receiving aid either from the city or some charitable institutions and it costs thirty five million dollars per year to handle the problem, and yet with all of this, it is estimated that thirty thousand persons per year die from want of attention and proper care. There is much suffering in our own city from poverty and neglect, yet the problem in the big cities is so much worse that its magnitude is appalling.

Horsemen Ask \$25,000 Damages.

Catesby Woodford, of Bourbon, and John T. Inland of Lexington, filed in the Fayette Circuit Court Friday afternoon a suit against the Louisville & Nashville Railroad Company for the sum of \$25,250 for damages to a shipment of thoroughbreds from Lexington for Juarez, Mexico, on December 17, 1910.

Plaintiffs say that the shipment contained seven thoroughbred yearlings and that while the car containing them was in the yards of the defendant at Frankfort it was bumped into in such a careless and reckless manner that a lantern that had been securely fastened was knocked down and set fire to the car and as the result three of the shipment had to be killed and the others were burned and frightened to such an extent that their value was depreciated at least 75 per cent.

The yearlings shipped were: ch. c. Star Shoot, Last Cherry, value \$8,000; ch. c. Star Shoot, Blue Danube, value \$7,000; b. f. Miller, Lady Beth, value \$2,500; b. f. Miller, Lady Premier, value \$1,200; bl. f. Ethelbert, Miss Wicks, value \$1,000; bl. c. Jack Fount, Lady Vincent, value \$1,500; b. c. Star Shoot, Amy Davenport, value \$5,000.

Plaintiffs say that the first named had to be killed because of the severe burns received, and that the others were so burned and frightened as to have lost three-fourths of their original value.

Robert B. Franklin and Robert C. Talbot are attorneys for plaintiffs.

Did You Ever Think It Over?

That a man can do what is right in any kind of business. Six years ago, when I first came to this city, you had parties in the same line of my business that did about ten per cent. of the business I am doing today.

Do You Know the Reason Why?

It's because I give one and all that deals with me a square, honest deal. I owe my success in business to the fact that I always give correct, honest weight and the highest market price.

IF YOU EVER HAVE ANY scrap iron, metals, rubber, rags, hides, tallow, furs, etc., to offer, see me before selling. If you will call by phone or leave your order I will gladly send my wagons for junk to any part of the city or county.
