Some Years Ago.

Editor Green R. Keller in the Carlisle Mercury says: "It is most interesting to see the work going on on the L. & N. double track between Paris and Covington. We remember watching the work of building the first line near sixty years ago, and the mode of procedure was entirely different from that in vogue now. Where holes were then drilled by the old hand process now the steam drill does the work; the steam shovel lifts and handles more rock and dirt in an hour than a whole force handled in a day then; and all other work proceeds upon an entirely different basis."

NEW MAP OF FLORIDA.

Remarkable Offer by the National Tribune, the Great Washington Weekly.

The National Tribune of Washington D. C., the great weekly published in the National Capital and the organ of the old soldiers and the G. A. R., has just had prepared a new map of Florida, the State which is now the center of interest among all who are tired of the sudden changes from torrid heat in Summer to Arctic cold in Winter, and who want a home where the climate is healthful and opportunities are offered to earn a livelihood or acquire wealth under the most favorable conditions.

The population of Florida increased nearly 50 per cent. in the last census decade, and will double in the next. This map The National Tribune has had compiled from the latest surveys of the Government engineers and from the most recent data of the Post-office Department and lithographed in three colors on a fine quality of plate paper, 28 by 30 inches.

This map will be sent free to any one who will write to the National Tribune and enclose 7 cents in stamps for postage.

Whether you own property in any part of Florida, or are merely interested in the rapid development that is going on in the Peninsula State, this map will be of both interest and value to you, and all you have to do to get it is to send 7 cents in stamps, merely to defray the cost of mailing, and the map will be sent to you at once, securely rolled in a stiff tube. Life Saved at Death's Door.

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Texas, "as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 187 pounds and have been well and strong for years." Quick, safe, sure, its the best remedy on earth for colds, coughs, lagrippe, asthma, croup, and all throat and lung troubles. 50c and \$1.00. Trial bottle free. Guaranteed by Oberdorfer.

Roman Script Favored.

Shall the world's script be Roman, such letters as we use, or Arabic or Chinese? The Roman script has by far the best chance and the best claim, according to the New York Independent. Efforts are making to introduce it in China and Japan, and now the effort is making to interest India in reducing its fifty alphabets to a single one.

Cheapers Steel Production.

A German inventor has discovered a new process for making steel which is said to be equal in every point to crucible steel, although made without crucibles, and which is becoming a competitor of electrosteel because, while of equal standard in quality, its cost of production is supposed to be only one-tenth that of electrosteel.

Need for Women Architects.

It is a practically accepted axiom that there are too few women architects, for, if there is one subject more than another in which woman's talent is required, it is domestic architecture.—From the Queen.
