 (Revealed by a Complete Laboratory Examination)  
**If You Want to Know the Truth, See Old Dr. Dolle**

ASSOCIATE SPECIALIST OF CINCINNATI MEN-SPECIALIST COMPANY.

Two Drops of Blood  
 Don't Wait until you are Indicted and Sentenced and the Gates of Health Closed Against You  
 I WANT A TALK WITH YOU in reference to that which should concern every man more than all the money in the world—Health, Heritage and Success.

Now, the facts are, you have known me directly or indirectly for 18 years here in Cincinnati, and you have watched and waited to see my efforts revolutionize the practice of my specialty. Now, if my 22 years of experience is worth anything to you, if the services of the best laboratory in the city of Cincinnati is worth anything to you—if the remedies I have perfected, and which have been endorsed by the best authors in the world are worth anything to you—if one of the best hospitals in the city of Cincinnati, if needed, is worth anything to you, all of which can be had without a dollar—if needed, I know this should cause you to have but one opinion, and that is, that I have shown a disposition to do a hundred times more than you are willing to do for yourself.

What is true of your physical condition must be reflected in the well-being of your children—for future generations. A nation that dies may be "born again" in a physical sense, and may yet hand down a Heritage that is worth more than all the wealth it may have produced.

If you place no value on your health and Heritage, I am talking to the wrong man, but if you do believe what I have said and you are willing to make an effort to help yourself—there is no just reason why you should feel that you cannot afford to protect that which is worth a hundred times more than all the money that you have or will make.

In preserving your blood cells we are helping to shape the destiny of future generations, and the few dollars we leave behind will count for but little compared to the vital spark that flows through the blood stream of men who do things right.

Are you willing to hand your heritage down from generation through your children? Look at the thousands of men who are paying the price of their ancestors' indiscretions. Let us cure you?

**JEFFERSON COUNTY SCHOOL.**

**Kentucky Out of Step With the March of Education.**

If you had not driven twelve miles from big, throbbing, pulsing Louisville along perfect roadways sprinkled with oil you would think you were far out in some rural community when you gaze at Rocky Hill school. It seems impossible for such a schoolhouse to be tolerated in a county as rich and prosperous as Jefferson.

Its style of architecture is severely

simple. This idea of extreme simplicity is carried out in the veranda of red corrugated iron supported on plain 2 by 4 studding.

If the building, the main building, lacks beauty, the old coal house is much worse. It looks as if after years of wear and tear the neighbors had felt sorry for it and had had something of a donation party. This, of course, is merely a surmise, but it is the only possible solution to the general makeup of the building. Evidently one neighbor had donated some old red roofing tin. Another neighbor, seeing the need of a door, had sent over one that had been cut "kinder whopper jawed" and would

not fit anywhere—then, having no hinges, it had been tacked on anyway and left standing wide open for the weeds to grow about it.

Jefferson county, with its trolley lines, its splendid roads, its wealth, should be an object lesson to the rest of the state in schools and school equipment, but she is just where the others are.

The whole state is out of step with the march of education.

**MOVED THE LECTURER.**

Church Too Good For Him, but Schoolhouse Was Just the Place.

The man who was to give an illustrated lecture at Deer Creek sat on the steps of the Deer Creek church with his grips and gas drums about him. Seven-thirty came and went; the early summer twilight deepened while a family of screech owls discussed their affairs under their breath; 8 o'clock came and still no audience. A buggy rattled on the road below, and a voice called shrilly:

"Hello! Anybody up there?"

"Yes, and I want to get in to put my lantern in place," answered the lecturer.

"Didn't you hear that we had changed the place?" queried the voice.

"No."

"Well, we did. You better get your things in your wagon and come down to the schoolhouse, half a mile down the road, for the folks is there waiting for you."

"How did you happen to change the place of the lecture at the last moment?"

"It was this way: You see, we knew you had to have a big light in your lantern—oil or kerosene or other—and we knew, too, that you had to have a sheet or sunthin' big and white to throw the pictures on to and it would have to be tacked on to the wall. We have just had put down a brand new carpet on the church and papered the walls, so we were afraid you would spill oil on the carpet or punch holes in the new wall paper tacking up your sheet. You see, we were afraid you'd hurt the church some way, so we moved you down here because you couldn't hurt the schoolhouse at all."

The Boy Understood. One of the educational committee in Louisville had pinned on his button and went out onto the street for a paper. While the boy was counting out the pennies in change he caught sight

of the white and blue button. He smiled and got onto his tiptoes and read slowly:

"My \$ for improvement Kentucky schools."

Again he smiled and, reaching out a grimy paw, exclaimed:

"Put it there and shake. I'm with you fellers, all right."
