# STORY OF A BASHFUL MAN AND A DEMURE MAIDEN

(Continued from Page 1)

"Well, the next question on the dock," ventured Uncle Bill to Hettie, "is to arrange about supplies for the larder. It is the housewife sequel to maintaining the good graces of the men folks. Now for select table groceries and provisions and toothsome table delicacies and imported fruits and vegetables of every kind. I'll escort you to C. P. Cook & Co., conducting a well appointed and completely stocked fancy grocery, where there is always shown a varied assortment of the most tempting good things to eat in town. His patrons come from every nook and corner hereabouts and presumably for a reason. Perhaps it is because they appreciate the superior and correct ways that characterize the business dealings of C. P. Cook, our wide awake and well versed grocer and purveyor of the larder, where there is a large and varied stock from which to select at all times," said Uncle Bill.

"Next I want you to recommend a good market," said Hettie to Uncle Bill. "One that I can depend upon all the time." "Well for good meats, honest weights, and a nice all around place to trade," advised Uncle Bill, smiling good naturedly, "it's Albert Anthon's market you want to trade with. There you will find every day in the week the choicest and best fresh and cured meats that money, experience and vigilant effort can obtain.

The best and fattest cattle, veal and lambs are bought on the roof and are carefully slaughtered and dressed by skilled help with a view to meeting in every particular, the demands of the long list of exacting patrons. Albert Anthon is equipped with ample cold storage facilities and maintains a good delivery service. And considering all in all the basis upon which this market is catering to the public, it is admirable in every way, and fully merits the run of business accorded it, and the good name that so many give it," said Uncle Bill assuringly.

"Oh yes, Uncle you were to take us for a drive," said Hettie. "Yes, yes, so I was and I will keep my word too," said Uncle Bill. Just then a pair of spirited steeds drawing a substantial and attractive trap, with fine trappings apparent, drew up in front of the home. "This rig came from J. U. Boardman, our best equipped stables here," continued Uncle Bill. "It is truly a commodious and well ordered livery stable in every particular where are kept good vehicles for all uses, and good horses, too, including some 'high steppers,' let out at a reasonable price and it is this kind of business effort that has brought this popular barn under the management of J. U. Boardman into good standing with the public and made it deserving of good will and patronage of which it is the recipient," added Uncle Bill.

At this juncture Harry complained of the saw edges on his collar. "Oh, yes, Uncle, I want you to recommend a reliable laundry," said Hettie. "Harry is positively cranky about his linens."

"All right," said Uncle Bill as he laughed heartily, "if you will call up or send it to the Bourbon Steam Laundry you need have no further apprehension. It has been doing my work for a long time, and I find it the best and promptest laundry in these parts. The busy delivery wagons are seen sealing corners at double quick gait all over the town every day, gathering up or delivering its work faultlessly laundered to a world of customers. Besides Davis & Funk, the proprietors, and their corps of assistants, are ever prompt, alert and pleasant in managing the business affairs, whether it is for the local or out of town customers, that are reached by agencies at all tributary points."

## PLANT STAND FOR A WINDOW

One That Can Be Moved Easily Is Always in Demand—Can Be Constructed by Handy Person.

A plant stand that can be moved easily is always in demand by whoever grows flowers. The accompanying design can be constructed by anyone handy with tools. It should be made in a substantial manner, for

A Homemade Plant Stand.

when weighted down with pots it will be subject to considerable strain when moved, and a flimsy framework would soon come apart and the stand collapse, plants and all.

Of course, such a stand can be made of any size to fit the window, writes Sylvanus Van Aken in the Orange-Judd Farmer. When one desires to make the room more attractive for a party it may be wheeled away and placed against the wall, the shelves facing the room. It will thus provide a bank of plants and flowers. Its portability is also a great advantage on cold nights, since it saves the labor of moving pots one by one, as is necessary where stationary plants or tables without casters are used.

In summer, when plants go out of doors, it may be set against the side of the house in a sheltered place, and it will be as useful as indoors.

The design illustrated herewith is two feet high, two feet from front to back, and three feet long at the back. The shelves are each eight inches wide and three inches deep. The top one is three feet long, the middle two and one-half feet long and the bottom two feet long. These shelves should be covered with a couple of inches of sand, in which the pots are to be plunged. If this sand is kept moist it will prevent unusual drying of the soil in the pots. The whole framework should be mounted on casters, preferably of iron, and braces should be placed at the back and across the bottom, as shown in the drawing.

## CAUSE OF CHESTNUT BLIGHT

Withering of Trees Is Result of Boring by Insect Between Outer and Inner Bark.

Thomas Davy Candy of Langhorne, near Philadelphia, declares that he has discovered the cause of the blight which is withering chestnut trees in the middle and south Atlantic states. A boring beetle, one-sixteenth of an inch long, black in color, which lays its eggs between the outer and the inner barks, is the primary cause, he says. Grubs are hatched from the eggs, and these penetrate the soft inner bark, following its course around the tree trunk. Above the patch of the borer occurs the blighted appearance. Myriads of the tiny worms were found upon a single tree upon Mr. Candy's land, and the total result of their depredations was so extensive that the tree, he says, appears to have been scorched by fire. The blight has become so serious in Pennsylvania that the legislature appropriated \$275,000 to a commission appointed by the governor to investigate the cause of the disease and to devise ways for exterminating it.

## METHOD OF COLORING WOOD

Substantial Change in Color of Tissues Effected by Injection of Matter into Trees.

Staining wood after it has been sawed, planed and converted into woodwork or furniture is a most ordinary procedure, but the staining of the wood while the tree it composes is alive and growing is a departure from old methods. The illustration shows a device by which coloring

matter is injected into the tissues of the tree in such manner that it will be distributed by the natural circulation of the sap, thus effecting a substantial change in the color of the tissues with which it comes in contact.

## Distance for Apples.

Apple trees do best at a distance of two rods each way, unless it is a variety that tends to grow upward rather than outward. Such trees may be set 25 feet apart.

**Original "Yeggman."**  
The word yeggman is said to have originated from the criminal exploits of John Yegg, who, according to criminal tradition, was a Swedish desperado who operated in the Pacific coast states in the late seventies.

## CAUSE AND REMEDY.

Uncertainty of the immediate future is looked upon by many men of affairs, as a blockade to enterprise and business prosperity, and this blockade is now quite apparent throughout the channels of trade.

The Presidential Election; the efforts of Congress with no fixed purpose; Organized Labor as a new factor in politics; together with other matters of greater or less import, represent at this time a chaotic conflict of separate interests, to harmonize which is now the problem before the country.

All want Prosperity, Peace and Plenty. Read with care the Cincinnati Enquirer, a journal that prints all the news each day from every commercial center throughout the world. A barometer of causes and effects that points out, as a Beacon Light, the danger and the safeguard therefrom.

As well known, the Daily Enquirer is the largest in size and highest priced paper in the United States, yet cheapest, measured by quality and quantity.

The Weekly Enquirer, with the cream and digest of all the news, able and conservative editorials, market reports, methods and results from Government and State Experiment Stations, veterinary matters, People's Forum, choice literature, short and continued stories, non-sectarian sermons, general information, etc., with the exclusion of all matters of scandal and immorality, is today the Cleanest Weekly Family Journal obtainable. Each issue is alone worth the price of a year's subscription.

Solicitors for subscriptions make a handsome profit and increase the good influence of The Enquirer in the uplift of morality and industry, and for the betterment and welfare of the community. For terms write to The Enquirer, Cincinnati, Ohio.
