### HOW TO TAKE A SUN BATH

Treatment is Declared to Be a Sure Cure for Many Varieties of the Ailments of Humanity.

The sun bath is rapidly gaining popularity. It was not unknown to the Romans, who indulged in sun baths to cure gout and rheumatism. The buildings they erected in their villas for the sunray treatment were styled solariums.

All that is needed is the sun; but it should not be allowed to beat down upon the head, which should be covered. The prospective sun-bather should get into an ordinary bathing costume and lie down in a convenient spot on a rug. Care should be taken to secure a position well out of the wind, and, of course, the body must be moved about every ten minutes to avoid undue burning of any specific part of the anatomy. Also, a bath should never by any chance last longer than an hour. Dizziness, extreme excitement, even faintness will be the inevitable result should this warning be disregarded.

The sun bath is said to be an almost infallible cure for certain skin diseases, for undue corpulence and run-down nerves.

Perhaps the cult of the sun bath is more popular at a small place near Berlin, where the adherents of the new and simple cure have formed themselves into an association.

### GOOD HORSES STILL NEEDED

Raisers May Have Little Fear That the Supply is Shortly Likely to Exceed the Demand.

The recent war game demonstrated the dearth of horses suitable for months in a section once famous for the excellence of its native horses. This community was scoured for suitable animals, and none was to be had, and the government agents said that the same conditions obtain elsewhere throughout the country, handicapping the army authorities greatly.

There is the germ of a profitable idea for our farmers in these facts. The man who has grazing facilities, and who will turn a part of his endeavors to the raising of a general purpose type of saddle horse, will not only reap a substantial money reward, but will perform a patriotic mission, not for the army, but for humanity.

The "honk" of the motor car need bring no fears to the men who will go into the perfecting of a type of horse to be known as the York state saddle horse. The aeroplane need cast no shadows over the project. Improve the horse. The better he becomes adapted to man's wants the more docile and safe, the more beautiful, the greater will the demand for him grow.—Troy Standard Press.

**The Leader.**

All, I think, will allow that these attributes should belong to a friend of the constitution: First, that he should be of free descent by both parents, so that the disadvantage of birth may not imbitter him against those laws which preserve the democracy. Second, that he should be able to show that some benefit has been done to the people by his ancestors; or, at the worst, that there has been no enmity between them which would prompt him to revenge the misfortunes of his fathers on the state. Third, he should be virtuous and temperate in his private life, so that no profligate expense may lead him into taking bribes to the hurt of the people. Next, he should be sagacious and able to speak—since our ideal is that the best course should be chosen by the intelligence and then commended to his hearers by the trained eloquence of the orator—though, if we cannot have both, sagacity must needs take rank before eloquence. Lastly, he must have a stout heart or he may play the country false in the crisis of danger or war.—Aeschines (389-314 B. C.).

**Too Big an Insult.**

Angrily the head of the haberdashery concern stormed into the employment agency and demanded an interview with the manager.

"I understand," he said, "that you have been recommending as A1 collectors certain young men whom you represent as having collected money from us. If they can get it from us, they can get it from anybody. That's the way you make it appear, consequently your clients land good jobs."

With visions of possible libel suits rising before his guilty conscience, the agent attempted self-justification.

"You are considered pretty hard nuts, you know," he said.

"Oh, that's all right!" said the man. "It ain't that I'm kicking about, but not one of your men has ever collected a dollar at our shop, and it don't do any good to lie about it."

**Wireless Power Generated by Hand.**

A new form of generator has been developed by the United States signal corps for use with its portable wireless telegraph sets. It consists of a small generator, the motor of which is driven by hand cranks through a suitable gearing. Two cranks are provided, so that two men may drive the motor at the same time, and if necessary four men may be employed—two at each handle. Low and high speed releases are provided, which disengage the driving gear when the speed rises above or falls below a predetermined limit, so that the motor may be kept at a fairly constant speed. The generator is capable of turning out about 200 watts, and it is light enough to be packed on a mule. The portable generating set has a sending capacity of about 15 miles.

You know how we manufacture, so you know that these brands are perfection. Now we want you to help us sell these brands this year even better than our best previous years. The reasons you should so help are as follows:

The fact that you grow the tobacco makes you part owner of all these brands. Every time that one sells you profit. Every word that you say in favor of any helps to increase those sales. Every brand that you buy for your own use helps make those profits better. All our interests—your interests and ours—are pooled in these several tobaccos. It is logic that you should bend all of your efforts, however small, in the selling.

**The United Power of 40,000 Buyers**

40,000 men in a section wield an enormous buying influence. If all ask for these brands the best advertising known. Here are the best advertising known.

## You Want the Best—Not the Cheapest

Don't be alarmed if somebody tells you you can buy an automobile for less money than the \$750 Studebaker-Flanders "20." You can, but you better not. The Flanders "20" corresponds point by point with the best and highest priced cars sold. Cheaper cars at every vital point are built on ideas long ago discarded for good cars. Don't take our word for it. Make comparisons and see.

The Studebaker-Flanders "20" is a marvel—a high grade modern car at a low price. If you pay less you buy much less. And the cheaper car today will cost you far more in the long run. The competing car isn't sold which the Studebaker Corporation, the greatest automobile manufacturers in the world, couldn't reproduce for less money; but we won't build a cheap car, because the name "Studebaker" means the best for your money.

If you are content with a car that runs today and dies tomorrow, don't buy the \$750 Flanders "20." It will wear for years. Remember this—the Studebaker-Flanders "20" will outwear 2 to 1 any other car under \$1100 and give you double satisfaction, confidence and comfort into the bargain.

We can prove it—Send for new catalogue

"It's the only pleasure I have in life," said an English hawker, in explaining to a magistrate his love of beer.

is hearty, vigorous life, according to Hugh Tell man, of San Antonio. "We find," he writes, "that Dr. King's New Life Pills surely put new life and energy into a person. Wife and I believe they are the best made." Excellent for stomach, liver or kidney troubles. 25 cents at Oberdorfer's.
