### To give a New Finish to Old Furniture.

Every housewife has one or more pieces of old furniture that would be "good as new" if refinished. To have the work done would be too expensive. She can do the job herself and get splendid results with

### SHERWIN-WILLIAMS FLOORLAC

a stain and varnish combined that gives a handsome finish and wears durably. It preserves the beauty of the actual grain of the wood and does not fade out, as do so many of the fugitive dye stains on the market. A wide variety of shades offer opportunity for almost any finish desired.

## C. A. DAUGHERTY

### SWEET CLOVER.

The Kansas Experiment Station in a recent publication makes it plain that sweet clover, a hitherto neglected plant, despised as a pernicious weed, has very considerable agricultural value. It is stated that "as a soil improver it is unexcelled; for pasturing purposes it has considerable value; and as a forage crop it can be utilized to good advantage where alfalfa or red clover can not be successfully grown."

Attention is called to the fact that there are several varieties of the sweet clover, of which the common white sweet clover and the large biennial yellow sweet clover are the most important. The white variety is generally to be preferred for farm purposes, although the biennial yellow is sometimes preferred where hay production is desired. Sweet clover is adapted to a wide range of soil, and while it does best on good soil, it will make a satisfactory growth on very poor soil.

Grown on good soil and properly handled it makes a fair quality of hay which may in many cases be substituted with advantage for the more valuable alfalfa and clover hays. In actual nutritive constituents it is practically equal to these. It makes an excellent pasture for cattle, sheep, horses and hogs, and for this purpose may be profitably grown on very poor and rough land.

For quick results in improving the soil sweet clover is superior to most other crops. Its ability to thrive

well on soils lacking in humus or otherwise badly run down makes it especially adapted for this purpose. Like alfalfa, cowpeas and other legumes, it has the ability to obtain nitrogen from the air by means of the nitrogen-gathering bacteria which live in tubercles on the roots in which it grows. When plowed under for green manure or allowed to remain on the land this crop is a very efficient one in building up the humus content of the soil. The large roots, which penetrate deeply, break up the lower layers of the soil and add much humus thereto when the decay, thus improving the physical condition of the soil to a considerable depth below the depth of plowing. Sandy as well as heavy clay and hard pan soils, which would be so improved in texture by growing sweet clover for a few years that they become quite productive.

A weed has been defined as a plant which has not yet found its proper use. In view of present knowledge of its possibilities sweet clover can no longer be regarded as a weed.

### STUNG!

"A fellow in New York advertised a sure way to cure dyspepsia," said Si Heck. "So I sent the dollar, and what do you think I got?"

"What did you get?" asked Lem Bing. "A card with this printed on it: 'Live On A Dime A Day And Earn It Yourself.'" replied Si Heck.

### SELL, KILL OR CONFINED THE ROOSTER BEGINNING MAY 23

Because rosters are allowed to run with laying hens during the warm weather \$15,000,000 worth of eggs are lost to the farmers throughout the United States each year; and most of this loss occurs during June, July and August. For this reason raisers of poultry are asked to kill or sell all matured males or confine them in pens away from the laying hens during the summer. Eggs that are laid by hens not mated are sterile and infertile, and do not decay. The fertilized eggs spoil very quickly when subjected to the influence of heat, and if they are left too long in the nests or under broody hens or are left in very warm places the germ cells begin to develop and the chicks begin to grow. These growing cells may die at any stage of development due to unfavorable conditions.

Whether the embryo dies or not, the egg is useless as food is unfit for market. If the wives of the farmers would once realize how much money they practically lose by allowing the roosters to run with the layers they would immediately stop the practice. Not one egg more is produced with a male running with a flock of hens than without one, and unless the roosters are valuable as breeders, it is far better to dispose of them at the end of the breeding season and replace them with the younger stock the following spring. If we follow this plan we can always have good, strong, vigorous cockrels (young roosters) for breeders, and at the same time get rid of the care of the non-producers. Let us at least make the most of what we possess.

In order to have concerted action in this matter the Poultry Department of the United States Government has designated the 23rd day of May, to be known among poultry raisers as "Rooster Day." Then sell, kill or confine the rooster.

The well-known poultry buyers who are members of the Southern Poultry and Egg Shippers' Association have agreed to pay a higher price for the roosters on that day.

### CITY SCHOOLS COVERED BY TEXT BOOK BILL

While an opinion of Judge Stout, of the Franklin Circuit Court, holding that city schools should be included in the five-year-contract for the text books to be let by the State Text Book Commission has not yet reached Frankfort from Georgetown, from which point Judge Stout telephoned he had sent it, Assistant Attorney General Charles H. Morris and Attorney A. H. Carroll, of Louisville, representing book concerns, who sued for a construction of the law, have agreed to submit the case on briefs at once to the Court of Appeals.

The case will not be argued because no date is open before June 6.

### CROPS OF STATE ARE IN EXCELLENT SHAPE SAYS REPORT

"After a drouth a good crop year," is an old saying that is believed by most farmers. In truth there seems to be some scientific basis for this. The first crop report for the year 1913 would indicate that this year would be no exception to the rule. Probably never in the history of the State was there a more promising outlook for a good crop year than at the beginning of this season.

The wheat acreage of last fall is given at 95, and practically none of this was plowed up this spring.

Ninety-seven per cent. of the original sowing was left standing May 1. The condition of this large acreage is 99. This would indicate an unusually large yield of wheat.

The original acreage of rye sown last fall was 95.

The corn acreage planted is 91 per cent., while 76 per cent. of the plowing intended for corn was done May 1.

Planting is now in full swing, with the condition favorable. Deep plowing has been practiced this year more than ever before, and favorable weather for the next few weeks will insure a large acreage of corn in a first-class seed bed.

The oat acreage planned is given at 89, with 80 per cent. of it sown May 1.

While the dark tobacco crop planted is only given at 79, the condition of plant beds is given at 96.

The average plant of burley is given at 81, with the condition of plant beds 91. There is some complaint of insects and cutworms injuring the tobacco beds. The pastures are in unusually good condition. The condition of bluegrass is given at 93, with every promise of a large crop of blue grass seed.

Clover is given at 85, alfalfa at 93 and orchard grass at 92.

Fruits of all kinds have escaped destruction by freezing, and the apple, cherry and plum crops are unusually promising.

Pears and peaches suffered some from late frosts, especially in the central part of the State. However, we will have more than three-fourths of a pear and peach crop.

The strawberries are in good condition with promise of a bountiful yield. Ninety-five per cent. of a potato crop is planned.

Live stock of all kinds came through the winter in good condition. It is estimated that 4 per cent. of the horses died in the last twelve months and 3.7 per cent. of the cattle.

The loss of sheep is estimated at 6 per cent., and lambs 10 per cent.

The greatest loss is from hog cholera, and it is estimated that 11.3 per cent. of the hogs of the State were lost by this disease, some sections of the State being entirely free from the disease, while the loss runs as high as 50 per cent. in other sections.

### FOR A TORPID LIVER.

"I have used Chamberlain's Tablets off and on for the past six years whenever my liver shows signs of being in a disordered condition. They have always acted quickly and given me the desired relief," writes Mrs. F. H. Trubus, Springville, N. Y. For sale by all dealers. (May) (adv)

### KENTUCKY WIDOW

TO GET \$26,538.

WASHINGTON May 15.—Without a dissenting vote the House passed the Cantrill bill, providing for the payment of \$26,538 to Mrs. L. Helen Dennis, or Gratz, Owen County, the widow of James H. Dennis, in accordance with the findings of the Court of Claims and numerous favorable reports by the claim committee. The claim, which is the largest single claim that has passed the House during this Congress is the outgrowth of certain contracts made by the Federal Government with Mr. Dennis for the improvement of the Tennessee river, that were made between October, 1868, and April, 1872. Mr. Daniels expended a large sum of money in carrying out the contracts, and as a result of not being paid by the Government lost his entire fortune. The bills to pay this long standing claim have been favorably reported in the Senate six times, have been favorably reported in the House eight times and passed the House twice. Representative Cantrill said he is confident his bill will pass this Senate and the President will sign it during this Congress. The House also passed a bill introduced by Mr. Cantrill to pay \$250 to James S. Clark, of Fayette county, as reparation for damages done to his farm while troops were encamped there during the Spanish-American war.

### COUGHED FOR THREE YEARS

"I am a lover of your Godsend to humanity and science. Your medicine, Dr. King's New Discovery, cured my cough of three years' standing," says Jennie Flemming, of New Dover, O. Have you an annoying cough? Is it stubborn and won't yield to treatment? Get a 50c. bottle of Dr. King's New Discovery today. What it did for Jennie Flemming it will do for you no matter how stubborn or chronic a cough may be. It stops a cough and stops throat and lung trouble Relief or money back. 50c. and \$1.00 at your druggist's.

Bucklen's Arnica Salve for Pimples. (May) (adv)

For Sale by All Druggists.

### JONES A LADIES MAN AS WELL AS A SEA FIGHTER

John Paul Jones was something more than a sea fighter. After his great battle he knew brilliant days in Paris, where Queen Marie Antoinette paid him attention and invited him to sit beside her at the opera. All the great ladies ran after him, and quite a few seriously lost their heart to him. An American woman who met him in Paris wrote this account of him: "He is small of stature, well proportioned, soft in his speech, easy in his address, polite in his manners, vastly civil, understands all the etiquette of a lady's toilet just as perfectly as he does the masts, sails and rigging of his ship. Under all the appearance of this softness he is bold, enterprising, ambitious and active."

### KEEP THE BOWEL MOVEMENT REGULAR

Dr. King's New Life Pills keep the stomach, liver and kidneys in a healthy condition, rid the body of poisons and waste. Improve your complexion by flushing the liver and kidneys. "I got more relief from one box of Dr. King's New Life Pills than any medicine I ever tried," says C. E. Hatfield, of Chicago, Ill. 25c., at your druggist's. (May) (adv)

(Copyright, by McClure Syndicate.)

### CONFER AS TO UNIFORM ACCOUNTING SYSTEM

The State Sinking Fund Commissioners held a long conference Friday with expert accountants in regard to the installation of a uniform accounting system, but the contract was not let, as one bidder was not present. Dr. L. G. Parks, of Washington; Goodloe & Meldrum, of Louisville; Chas. H. Wentzell, of Cincinnati; Willison Audit Co., of Clarksburg, W. Va., and Perine & Nichols, of New York, are bidders. Estimates on the time it will require to install the system make the cost range from \$3,600 to \$10,000. (May) (adv)

### CHILD CROSS? FEVERISH? SICK?

A cross, peevish, listless child, with coated tongue, pale, doesn't sleep, eats sometimes very little, then again ravenously; stomach sour; breath fetid; pains in stomach, with diarrhea; grinds teeth while asleep, and starts up with terror—all suggest a Worm Killer—something that expels worms, and almost every child has them. Kickapoo Worm Killer is needed. Get a box today. Start at once. You won't have to coax, as Kickapoo Worm Killer is a candy confection. Expels the worms, the cause of your child's troubles. 25c. at your druggist's. (May) (adv)

### SAVE MONEY WHEN YOU PAINT YOUR HOUSE

It costs no more to apply "High Standard" quality paint and it gives more beautiful effects and wears longer. Thus you will get best results and save money by using

This is a ready-to-use paint of highest quality. It has great spreading and protecting power, and the colors are very durable. It comes in a large number of tints and shades, making possible any color scheme. Come in for color cards, and let us help solve your painting problems.

Chas. E. Butler & Co.

Opp. Court House.

### DO NOT HAVE POWER TO PENALIZE GAS COMPANIES

Cities of the fifth class have no authority to enact ordinances penalizing a gas company for discriminating between consumers in the price charged for gas, the Court of Appeals declared Friday in the case of the United Fuel Gas Co. vs. the Commonwealth, on relation, etc., in which the gas company appealed from a judgment fining it under an ordinance of the city of Louisville. The company furnished gas for 20 cents the thousand under five-year contracts and charged others 25 cents. The Council passed an ordinance prohibiting a gas company charging one customer more than another. The Court held its charter gave no such authority to the Council to enact such a measure and held it void, "as the ordinance granting the franchise is a contract between the city and the grantee of the franchise, and one party cannot, by its act, impose a fine on the other party for a violation of the contract in the absence of legislative authority."

### CONVICTS PER DIEM CASE BEFORE APPELLATE COURT

Arguments were made Friday before the Court of Appeals in the suit brought in behalf of convicts for a per diem allowance of their earnings under the prison contracts between June 15, 1910, and August 1, 1912, the first date being the time when the law allowing them wages became operative, and the latter the time when the Prison Board first set apart for the convicts a portion of their earnings. Judge Stout decided in favor of the convicts in the Franklin Circuit Court, and the Prison Commissioners appealed.
