EARLY WAR NEWS

GERMAN RAID ON ENGLAND.

LONDON, Dec. 18.—For the first time in centuries England has been struck by a foreign foe. A squadron of swift German cruisers crept through the fog Tuesday night to the Eastern coast and turned their guns against the Britons.

When day broke they began the bombardment of three important towns—Hartlepool, at the mouth of the Tees; Whitby, thirty-five miles southward, and Scarborough, noted as a pleasure resort, fifteen miles beyond. Hartlepool suffered most. There two battle cruisers and an armored cruiser were engaged and at this place the greatest loss of life occurred. The British War Office fixes the number of dead at Hartlepool as seven soldiers and twenty-two civilians and the wounded as fourteen soldiers and fifty civilians.

At Scarborough, where a battle cruiser and an armored cruiser shelled the town, thirteen casualties are reported, while at Whitby two were killed and two wounded.

Men, women and children of the civilian population were left dead or wounded—struck without warning, while at breakfast or at work. In all, the casualty list totals 110, according to the official estimates, of whom thirty-one are known to be dead.

Three churches were damaged; the gas works and lumber yards at Hartlepool were set afire and the abbey at Whitby was struck. The Balmoral Hotel, at Scarborough, received the full effects of a shell. A number of houses and shops were shattered and partly burned in each of the towns.

The hostile squadron escaped in the mist after an encounter with coast guard vessels patrolling the neighborhood, which were reinforced as soon as the presence of the Germans was signaled.

GERMANS SAY SOME OF BRITISH DESTROYERS WERE SUNK.

LONDON, Dec. 18.—An Amsterdam dispatch to Reuter's Telegram Company contains a German official statement which claims that some of the British destroyers, which attacked the German raiding squadron off the British coast, were sunk.

DISASTER TO GERMAN ARMORED CRUISER.

PETROGRAD, Dec. 18.—It is officially announced that the German armored cruiser Frederick Karl was sunk during a recent sortie in the Baltic. Two thirds of her crew are said to have perished, less than two hundred men having been saved.

EGYPT AND SUDAN ANNEXED.

The British press to-day naturally makes a feature of the annexation of Egypt and the Sudan, which takes from the Sultan of Turkey 14,000,000 subjects and 1,000,000 square miles of land. This action moreover robs the Turk of his last foothold in Africa, Italy having taken Tripoli from him a few years ago.

The German squadron which attacked the eastern coast of England, causing the death of about one hundred persons, is said in Berlin to have sunk two British destroyers and damaged badly a third. The British Admiralty states that two warships were struck by German shells and that five men were killed and 15 wounded, but makes no mention of the loss of any vessels.

Emperor William is said to have improved in health sufficiently to permit his return to the front next week. The British South African forces are soon to undertake a campaign against the neighboring German possessions. Premier Botha considers that the rebellion in the Union of South Africa has been crushed definitely.

All England is still buzzing with talk about the German raid on the east coast, interest having been stimulated afresh by the latest accounts coming out of Hartlepool.

FOREST EXHIBITS FOR CALIFORNIA.

Part of the government's exhibit for the Panama California exposition at San Diego leaves Washington this week. This portion has to do with the national forests of New Mexico, and will be shown in the New Mexico building, the exhibit having been prepared in co-operation with the State Board of Exposition Commissioners of that State. The material also shows specimens of the principal timber trees of New Mexico and their uses.

Other exposition material is to leave soon for San Francisco, where it will form a part of the Panama Pacific Exposition. Part of this is being prepared through co-operation between the forest service and the United States Civil Service Commission. The Commission passes on the qualifications of all candidates for positions in the forest service, testing the fitness of those who wish to become forest officers through outdoor examinations in riding, surveying, timber estimating and similar matters as well as by more conventional methods; its exhibit will illustrate the duties of these officers.

Co-operation also exists in the preparation of exhibit material, between the forest service and the bureau of education. This shows how forest subjects are used in the public schools, in connection with nature study, commercial geography, agriculture and the like. One of the exhibits is a display made by the normal school pupils of the District of Columbia, in which a number of those who are studying for teachers' positions entered a prize contest on forest study. Each of the contestants prepared a separate exhibit showing the life history and the products of individual trees, such as white pine, hickory, or sugar maple.

HOW MANY IS A BILLION?

(Kansas City Star.)

I wonder if we realize when we talk of a billion dollars what an enormous amount of money it is and how long it would take an expert counter of coins to manipulate them. You can scarcely follow the motions of his fingers as he shifts the coins from one pile to another and counts them. The treasury experts will count 4,000 silver dollars an hour and keep it up all day long, but that is their limit. Working eight hours a day, then an expert counter of coins will count 32,000 silver dollars in a day, but how long will it take him at the rate to count a million dollars? Thirty-one days. But this is not the beginning of the measurements of great figures, for if this same man were to go on counting silver dollars at the same rate of speed for ten years he would find that he had counted only 100,000,000 of them, and that to count a billion of them would require 102 years of steady work at the rate of eight hours a day during every working day of every one of the 102 years.

VERY SEASONABLE ADVICE.

"The best way to thaw water pipes," said a Paris electrician, "is by electricity. In northern cities where extreme cold weather is of frequent occurrence, it has become a practice of electricians to thaw water pipes with a special transformer. A current of electricity is passed through the pipe from the street to the faucet and heats the pipe evenly from one end to the other and so gradually that there is no danger of bursting. The method has become very useful where pipes are frozen under ground, but, fortunately, freezes of this kind are rare." There have been some reports of frozen water pipes, but in heavy every case the pipe has frozen near the faucet and is easily thawed. The water company has had inspectors examining the fire hydrants and has found them all in good condition. In all of the hydrants where the water is turned off well below the surface of the ground there is little danger of freezing.

If it's the kidneys cure the cause. Doan's Kidney Pills are for kidney ills—

Here is proof of their merit from this vicinity.

D. M. Farley, merchant, 474 Chair avenue, Lexington, Ky., says: "I had a dull, dragging pain in my back. The action of my kidneys was irregular, especially at night. Finally I used Doan's Kidney Pills and before long they put a stop to all these troubles. My kidneys became normal and the pains and aches left. The endorsement I gave Doan's Kidney Pills in January, 1912, still holds good. I can only repeat that they are a fine kidney medicine."

LUKE McLUKE SAYS.

(Cincinnati Enquirer.)

The man who starts out with the idea that his friends are going to prepare an opening for him usually winds up in a hole.

If he helps her off with her coat when they enter a theatre and holds it for her during the show they are single. If she hauls her own coat off and hangs it on the back of the chair they are married.

Most people expect the Lord not only to provide, but also to clear off the table and wash the dishes.

This isn't a Prohibition lecture. It is a cold fact. The meanest man, aside from the man who robs poor boxes and sets fire to orphan asylums, is the lad who robs his family to buy a drink for another man.

A woman may do a whole lot of praying for her husband, but she never forgets to keep one eye on him just the same.
