FIGHTING SLEEPING SICKNESS

One of the little islands in the Gulf of Guinea near the African coast has been swept clear of sleeping sickness by modern methods. Sleeping sickness is carried by the tsetse fly, and the hundreds of men in the army of sanitation were turned into walking fly-paper during the campaign. They wore canvas suits coated with a sticky substance similar to that used in commercial fly-papers. Five years ago one man sometimes caught 500 flies a day. This squad of 300 caught 17,000 a month. For the last nine months not a fly has been caught, and the sickness has disappeared from the island.

FARMERS' INSTITUTE AT NORTH MIDDLETOWN, MARCH 8-9

The North Middletown Commercial Club will hold its third annual Farmers' Institute on March 8 and 9. The program announced indicates that it will be the most extensive and the most successful of any yet undertaken there.

The meeting of the Institute will be opened with an address by Matt Cohen, State Commissioner of Agriculture, on "Kentucky's Agricultural Opportunities;" Prof. W. D. Nichols, of the State Agricultural Experiment Station at Lexington, will speak on the subject, "Agriculture on The Farm." In the afternoon Geoffrey Morgan, in charge of the county agents of the Extension Department, will speak on "Community Organization;" Dean George Roberts, of the College of Agriculture, will speak on "Legumes;" Miss Mary E. Sweeney will discuss "Rural Home Economics."

On Thursday evening Lieut-Bov. Jas. D. Black will deliver an address on "The Future of the Kentucky Mountains;" Friday's program includes addresses by R. L. Blastock, of Walnut Hall Stock Farm, on "The Good Shepherd;" and H. F. Hillenmire, on "The Orchard;" in the afternoon addresses will be made by Hon. Reuben Hutchcraft, of Paris, on "The Tax Laws;" Prof. C. M. Truax, on "Pigs," and Prof. D. M. Slade on "The Baby Chick." Prof. H. H. Cherry, of the Western Kentucky State Normal School, at Richmond, will speak in the evening on "Kentucky Rural Education," and plans have been made for a high-class concert to wind up the proceedings on Saturday night.

North Middletown is ten miles from the closest railroad, and has only a few hundred residents, so that its interests are tied closely to the adjoining districts. The Commercial Club has been working hard to make the institute a success.

STOCK, CROP, ETC.

In Scott county last week, J. L. Carrick & Co. bought of Mr. Skinner, of Bourbon, one hundred and ten barrels of corn at \$5.10, delivered. Robt. Ward, of Newtown, bought of Mrs. C. L. Garth, of Lexington, 250 barrels of corn at \$5.50 barrel.

The prospect for a good wheat crop this year, according to a well-versed Bourbon county farmer, is not as promising now as it was a few weeks ago. It seems that after the heavy snow and sleet the cold weather which followed, froze and injured the young shoots, though the extent of the damage is not yet positively known.

KENTUCKY STOCKMEN EFFECT ORGANIZATION

For the purpose of advancing the interests of pure-bred live stock industry in Kentucky, preliminary steps toward formation of a strong organization were taken at a recent meeting in Louisville. Prominent stock men from all over the State were present.

C. E. Tarvin, of Payne's Depot, was elected Temporary Chairman and L. B. Shropshire, Louisville, Secretary. Permanent headquarters are to be established at Louisville at once.

The organization will encourage particularly the raising of pure-bred stock, and it is announced the body will promote a system of operation whereby thousands of dollars will be kept in the State which previously has gone elsewhere.

A committee of five was appointed to draft plans for permanent organization, which will be effected in a meeting on April 5. The committee is composed of J. L. Lettrelee, Harold's Creek; R. H. Lillard, Lawrenceburg; H. O. Moxley, Shelbyville; W. R. Moorman, Glendean, and John E. Newman, Bardstown.

PRICE OF HEMP SEED TAKES ANOTHER JUMP

The latest quotations on hemp seed, according to a local dealer, places the price of that article at \$13.50, with a prospect of its going to \$14 before very long. In less than two weeks' time there has been a sharp advance of \$1.50 per bushel. The supply is now said to be hardly equal to the demand.

The orders which have been received by the dealers of Paris for hemp seed may be taken as indicating they will put in a larger acreage of hemp this season than has been the custom for many years. The crop with some farmers will, in a large way, supplant tobacco. Seeding will begin in April, and the growers who are contemplating putting in a larger acreage have been putting in their orders for the seed early in order that they will not be up against the condition that existed last season, when practically the entire seed crop was exhausted before the growers had time to realize there was a shortage.

There is said to be a scarcity of seed that will be likely to force the price still higher during the next few weeks, although one dealer said Saturday that it was more than likely there would be a small decline in price.

MILLERS' ASSOCIATION TO MEET IN LEXINGTON

Mr. B. M. Renick, of the Paris Milling Co., President of the Kentucky Millers' Association, has called a meeting of that organization to be held in Lexington on next Thursday, March 8. More than forty millers in Central Kentucky are members of the Association, all of whom are expected to attend the meeting.

WHEN ALFALFA SHOULD BE CUT

In general, alfalfa should be cut for hay when the young shoots at the bases of the plants first appear. If these new shoots become long enough to be cut off by the mower, the new crop may be badly damaged. The blossoms often appear simultaneously with the new young shoots, but blossoms alone are not a safe guide to the time for cutting.

PRESIDENT AND VICE-PRESIDENT INAUGURATED FOR SECOND TERM

WASHINGTON, D. C., March 5.—President Woodrow Wilson took the oath of office for his second term at noon yesterday in his room at the Capitol, and was formally inaugurated Monday with public ceremonies reflecting a great National expression of patriotism. Before a desk piled high with executive business laid before him in the closing hours of Congress, and surrounded by members of his official family, the President reaffirmed with uplifted hand and grave features his promise to uphold the Constitution in whatever crisis may confront the Nation in the momentous four years before him. After he had solemnly repeated the oath taken by President Washington a century ago President Wilson kissed the Bible at the passage reading: "The Lord is our refuge, a very present help in time of trouble." Chief Justice White administered the oath, and was the first to extend his congratulations.

To-day the President took the oath again, this time the ceremony taking place on the inaugural stand before the Capitol. The President decided to comply literally with the constitutional stipulation that he take the oath of office at noon on the 4th day of March. Vice-President Marshall took the oath of office to-day at the same time as did President Wilson.

FORMER DEPOT EMPLOYE FILED SUIT FOR DAMAGES

Suit against the Louisville & Nashville Railroad Company for \$25,000 damages has been filed in the office of Circuit Clerk Wm. H. Webb, in Paris, by Mr. R. L. Briggs, of Paris.

On November 21, 1915, Mr. Briggs, who was employed at the Louisville & Nashville freight depot, on Third street, in this city, was thrown between two freight cars receiving injuries, he alleges in his petition, about the head and body and a shock to his nervous system, which, combined, have totally incapacitated him from earning a living. Briggs was employed as a freight handler.

Briggs claims that while employed as a freight handler at the depot he was engaged in transferring freight from one car to another, and that, while removing a skid plank connecting the two cars a freight engine hit the ground, the heavy plank falling on him, inflicting injuries which, he alleges, have prevented him from resuming active work.
