THE SUN, NEPTUNE AND BOREAS RAISE PRICES

One of the most amusing "take-offs" on the prevailing tendency to raise prices of every sort of commodity and to ascribe it to the European war, was published in a recent issue of the Courier-Journal. The writer in an amusing series of special dispatches, tells how the sun, old Neptune and old Boreas conspired to raise the prices of sunlight, water and air, as follows: Nebula, May 13.—Upon being shown statements by coal and food operators, explaining why they must charge triple and quadruple prices for their products, the Sun said: "I have been hopeful that it would not be necessary, but I am now forced to advise the inhabitants of Earth that my rays are going to be few and far between and are going to cost more, because of the war. The fumes from the battlefields have gotten into my respiratory system, and I am forced to prevent Earth from going round me as fast as formerly. Each of my rays, which formerly cost empty-umpty million dollars will now cost empty-umpty million dollars, and I can not promise them with any regularity. It is because of the war and the law of supply and demand."

Aeolian Caves, May 13.—Upon being shown statements by coal and food operators, explaining why they must charge triple and quadruple prices for their products, Boreas said: "It is with great regret that I must inform the inhabitants of Earth that air is getting short and will be much more expensive hereafter. I have been pretty easy on Earth, but now the inhabitant of that planet must equip himself with a meter and pay so much per gasp—the rate to be announced later, but about ten times what you expect. It is because of the war. You see, these armies fighting all around the world get excited and use up a great deal of air in short pants, and when they exhale it has to be dry clean at a great expense. I am sorry, but the raise is because of the war and the law of supply and demand."

Twenty Thousand Leagues Down, May 13.—Upon being shown statements by coal and food operators, explaining why they must charge triple and quadruple prices for their products, Neptune said:

"It grieves me more than I can say, but I must announce at once that water is going to cost a good deal more from now on—say ten times as much. You see, the inhabitants of our planet have been engaged in a great war and getting very thirsty fighting, thereby increasing their water consumption in a shocking way. Then the sun has been very hot lately and has been drawing on me a good deal. Also these sunken ships have to be filled with water to keep them down, and all of that affects the inexorable law of supply and demand. Yes, water is going to be very much more expensive, and it is because of the war."

\$100—REWARD—\$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the Mucous Surfaces of the System, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c. (may-adv)

THE TEST THAT TELLS

Is The Test of Time—Many Paris People Have Made This Test.

Years ago this Paris citizen told in a public statement, the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the testimony complete. Instances like this are numerous. They doubly prove the merit of Doan's Kidney Pills. Can any Paris reader demand more convincing proof? It's Paris testimony—it may be investigated.

Mrs. G. W. Newman, E. Tenth St., Paris, says: "I had backaches and headaches and at times I was nervous. My kidneys were weak and inactive. Doan's Kidney Pills made me well."

Mrs. Newman gave the above account of her experience with Doan's Pills on January 17, 1912, and on November 9, 1916, she said: "I still use Doan's Kidney Pills at times, when I find it necessary. I have always received the same good results, although I do not have so much trouble now as I used to."

Do not simply ask for a kidney remedy—Doan's Kidney Pills—the same that Mrs. Newman has to be publicly recommended. Foster-McLiberty Co., Buffalo, N. Y.

ARE YOU PROUD OF YOUR FRONT YARD?

The improvement of rural highways and the building of good roads lay a new responsibility upon every farmer. It means that there will be a greatly increased amount of traffic passing by his homestead; it will bring him more closely in touch with the outside world, including citizens from the immediate neighborhood, from the surrounding towns and indeed from the surrounding counties and indeed from many parts of other States.

The farmer and his home life are now brought more directly to the attention of the general public. "A man is known by the company he keeps," so the character of a man is judged by his home life and the atmosphere with which he surrounds himself.

The improvement of the home grounds does not necessarily imply spending great sums or building an extensive "Show Place" decorated with architectural furnishings and formal gardens. It means treating the yard as an out-of-door living room; as a part of the house. It means, keeping it clean and neat and comfortable and cheerful. It should be decorated with fine trees, beautiful flowering shrubs, and with annual and perennial flowers that fill the soul with gladness and make home a lovable spot surrounded by endearing associations, that tug at the heart-strings and give the full, meaning of "Home, Sweet Home."

WAR BREAD MAY COME NEXT.

America may soon be put on the "war bread" diet of her European allies, and it would be a good thing, too. The Department of Agriculture has begun a nation-wide move to induce flour mills to abandon the manufacture of highly refined white flour during the war, to make whole-wheat flour from which the warring countries are now making their "war bread."

Sixty million bushels of wheat, the department states, will be saved annually if the change is made. According to the Government specialists, whole-wheat flour is far more nutritious than white flour.

The first response to the appeal came from the American Flour and Cereal Mills Company of Minneapolis, which offered to turn out 600,000 bushels of "whole" flour a day from now on.

CARLISLE STOCKMAN SUFFERS PARALYTIC STROKE

Mr. James L. Donnell, of Carlisle, one of the best-known stockmen in Central Kentucky, and for many years interested in the tobacco industries of this section, sustained a stroke of paralysis Friday while walking from a drug store to his residence.

Mr. Donnell was walking along Main street near the Golden Rule Grocery, when he was stricken, falling to the pavement and cutting a deep gash in his head. He was removed to his residence and medical attention given.

Mr. Donnell is a brother of Mr. John Donnell, of near Paris, and the late Chas. Donnell, Sheriff of Nicholas county.
