#### INCREDIBLE ITALY.

(From New York Times)

If the Austrians should check the Italian advance to-day, it would still remain the most remarkable of the year—an assault that lasted for sixteen days with all its original fury. The French and British have been fighting for little hills, for "rising ground;" the Italians have been scaling mountains. The French and British have been going forward, but the Italians have been going upward; the French and British fighting horizontally, the Italians perpendicularly. Now they are on a plateau and can go forward, but what a plateau! It is of volcanic creation, and it consists of craters, rocks and caves; it is like the pictures of the dead moon. It is bare and blasted and waterless; never was a battlefield in such a petrified spasm of nature. Because there is no water the Italians build an aqueduct, bit by bit, as they go along. This land of caves and hiding places and desolate rocks has been fortified by the Austrians and complicated with barbed wire and chevaux de frise until nature and art have made it seemingly impassable by man.

But to the Italians these incredible obstacles came as a relief, a modification of their task to the comparatively easy. For two years they have had to fight their way up into the air. They have had to ascend the steep faces of high mountains which ordinary men do not ascend in time of peace, and these mountains have been infinitely fortified and garrisoned by a powerful enemy. The other armies opposed to Germany have had to attack soldiers, the Italians have had to attack peaks. Peak by peak they took them. They have taken heavy guns and supply trains up mountains hitherto ascended only the Alpine climbers who roped themselves together. They have swung bridges from one mountain peak to another. They have built trenches, fortifications, roads, tunnels, retaining walls, 10,000 feet above the sea level; all this in the face of an enemy fighting desperately on the defensive.

#### SOY BEANS FOR SEED SOUTH OF OHIO RIVER.

WASHINGTON, D. C., June 14.—The Southern planter still has ample time to plant soy beans for a seed crop, and it therefore offers him at the present time one of the best cash grain crops to supplement cotton.

South of the Potomac and Ohio Rivers excellent results may be obtained by planting after winter grain and early potatoes are removed, according to the United States Department of Agriculture. In such instances the land need only be thoroughly disked to secure a suitable seed bed. Late varieties as the Mammoth may be planted as late as June 15 to 20 and mature good yields of seed. Early varieties, such as Ito San, Medium Yellow, Mikado and Mongol, may be planted in the Cotton Belt as late as July 15 and still mature the crop of seed.

The yellow-seeded varieties are preferred, especially by food manufacturers. The Mammoth Yellow is especially adapted to the Southern States for seed production. Considerable quantities of seed of this variety are still available for planting. The soy bean already has reached a place of high economic importance in America and Europe as a foodstuff. The seed of the soy bean, unlike that of the cowpea, rarely is attacked by the weevil or other grain insects. Even where the oil is extracted the resultant meal is a very desirable food. During the present season the demand for seed by food manufacturers has resulted in greatly increased prices. In view of the large demand, production in excess of requirements is very improbable and this season's crop undoubtedly will command profitable prices. The soy bean also is a soil improver and the straw is valuable for feeding purposes.

#### NEVER NEGLECT A COLD

A chill after bathing, cooling off suddenly after exercise and drafts, give the cold germs a foot-hold that may lead to something worse. Safety requires early treatment. Keep Dr. King's New Discovery on hand. This pleasant balsam remedy allays inflammation, soothes the cough and repairs the tissues. Better be safe than sorry. Break up the cold with Dr. King's New Discovery before it is too late. At your druggist, 50c, \$1.00.

#### OPEN TO ALL

A Sunday school teacher in a North side church was laboring with a class of urchins to impress upon them that the church is the home of all classes who care to come. After talking some time on this subject, she said:

"Now, children, do you know the house that is open to all—to the poor, the rich, the sad, the happy, to men and women, to young and old—do you know the house I mean?"

One little boy, who had been interested in about everything but the lesson, caught the question and immediately answered: "Yes, miss, the station house."—Columbus (O.) Dispatch.

The Kaiser's address to the soldiers on the Aisne battlefield sounded more like a wall of despair than a pean of victory.

A gray military cap lined with yellow is immensely fetching.

#### KENTUCKIAN NAMED AS REAR ADMIRAL.

The Senate has confirmed the nomination of Capt. Hugh Rodman, U. S. N., to be a Rear Admiral of the navy. Capt. Rodman is a Kentuckian, where his family has been prominent for many years. He is a son of Dr. H. D. Rodman.

Capt. Rodman has been commander of the United States battleship New York.

He was born in Kentucky on June 6, 1859, and was appointed to Annapolis from Kentucky on September 18, 1875. He has seen twenty-eight years' sea service in the navy and has held his rank of Captain since March 4, 1911.

#### MASONS TO CELEBRATE BI-CENTENNIAL.

Extensive preparations are being made by the Masons of Kentucky for the celebration of the bi-centennial of organized Masonry in this State, to be held at Crab Orchard Springs on June 23, and not only every Masonic lodge in Kentucky will be represented, but five thousand additional visitors are expected to attend.

The Grand Lodge of Kentucky, by resolution passed at the last session, authorized the celebration of this event, and the committee appointed to carry out this resolution announces that it has completed all arrangements.

A feature of the program will be a barbecue, at which from 5,000 to 8,000 people will be fed. Prominent speakers from Kentucky and elsewhere will entertain the crowds. The music for the occasion will be furnished by a band of fifty pieces from Louisville and the Shriners' band of Cincinnati, consisting of thirty-five pieces. The affair will conclude with a ball in the Spring hotel, the grand march being led by the Grand Master of Kentucky, Hon. James N. Saunders.

The celebration and barbecue are free to all Masons, their families and their friends. Both the Masonic lodges of Lexington have been appointed special committees to arrange for the trip and they hope to attend in a body, more than one hundred strong. Quite a number of persons from here will also make the trip in automobiles.

#### State of Ohio, City of Toledo.

Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.

Sentenced to thirty days, a man tramped thirty-four days through Alaskan wilds to the nearest jail and gave himself up.

#### GOVERNMENT CROP REPORT.

WASHINGTON, D. C., June 14, 1917.—A summary of the June crop report for the State of Kentucky and for the United States, as compiled by the Bureau of Crop Estimates, and transmitted through the Weather Bureau, U. S. Department of Agriculture, is as follows:

**ALL WHEAT**  
State—June 1 forecast, 7,330,000 bushels; production last year, final estimate, 8,010,000 bushels.

United States—June 1 forecast, 656,000,000 bushels; production last year, final estimate, 639,886,000 bushels.

**OATS.**  
State—June 1 forecast, 5,570,000 bushels; production last year, final estimate, 6,300,000 bushels.

United States—June 1 forecast, 1,380,000,000 bushels; production last year, final estimate, 1,251,992,000 bushels.

**ALL HAY.**  
State—June 1 forecast, 1,010,000 tons; production last year, final estimate, 1,421,000 tons.

United States—June 1 forecast, 102,000,000 tons; production last year, final estimate, 109,786,000.

**PASTURE**  
State—June 1 condition 72, compared with the ten-year average of 89.5.

**APPLES, (Agricultural Crop)**  
State—June 1 forecast, .....? barrels of 3 bushels; production last year, final estimate, 67,415,000 barrels.

United States—June 1 forecast, .....? barrels of 3 bushels; production last year, final estimate, 67,415 barrels.

**PEACHES.**  
State—June 1 forecast, 1,101,000 bushels; production last year, final estimate, 880,000 bushels.

United States—June 1 forecast, 45,400,000 bushels; production last year, final estimate, 36,939,000 bushels.

#### PRICES

The first price given below is the average on June 1 this year, and the second the average on June 1 last year.

State—Wheat, 270 and 113 cents per bushel. Corn, 171 and 82. Oats, 85 and 59. Potatoes, 296 and 92. Hay, \$18.20 and \$14.20 per ton. Eggs, 29 and 17 cents per dozen.

United States—Wheat, 248.5 and 100.0 cents per bushel. Corn, 160.1 and 74.1 cents. Oats, 69.9 and 42.1 cents. Potatoes, 274.0 and 93.8 cents. Hay, \$15.25 and \$12.46 per ton. Cotton, 20.2 and 12.2 cents per pound. Eggs, 81.1 and 19.0 cents per dozen.

#### CHOLERA MOREUS.

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Euseyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief." (adv-june)

#### UNCONTROLABLE FORCES.

Newspaper readers are again shocked by stories of the tornado's destructive presence. Along the trail of the twister lives have been blotted out, men, women and children maimed and crippled, and millions of dollars' worth of property destroyed. It is a sorrowful record of a terrible manifestation of the majesty and power of nature's forces. Solar energy sets in motion elements beyond man's control and an awful demonstration of stupendous grandeur follows. Man understands the mechanism of the movement, but stands helpless before it. It is the working out of the transition from winter to summer through laws as immutable and certain in their operation as any known. There is a lesson in it for those who hope for the coming of better things for man. Nature clears her way through restraints by mighty convulsions or upheavals and so man must work out his destiny against odds by overcoming opposition. Peace only is to be obtained by a successful struggle against that which would check the forward movement to the ultimate goal and whatever is worth having is worth striving for.—Omaha Bee.

#### SLOAN'S LINIMENT FOR RHEUMATISM.

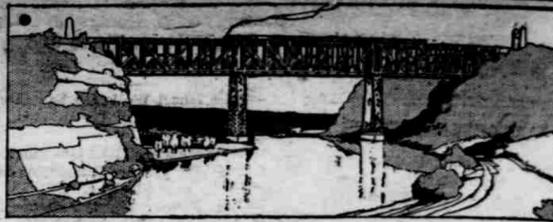

The pain goes so quickly after you apply Sloan's Liniment for rheumatic pains, neuralgia, toothache, lumbago, sprains, and it is so easy to use. It quickly penetrates and soothes without rubbing and is far cleaner and more effective than musky plasters or ointments.

Keep a bottle in the house and get prompt relief, not only from all nerve-pains, but from bruises, strains, sprains, over-exercise and all external aches. At your druggist, 25c, 50c, \$1.00. (adv-june)

He is a mean man who will let a woman marry him for his money and then show her that he hasn't a dollar to his name.

Typhoid fever costs the nation \$350,000,000 annually.

#### POPULAR EXCURSION

### HIGH BRIDGE, KY.

SUNDAY, JUNE 17, 1917  
Round Trip 50c from Lexington
