Luther Burbank Chose Sonoma For His Experimental Farm

Does this mean anything to YOU? It means that Sonoma County offers ideal conditions for the growth of a very wide range of crops. It means that it is a good farming section for YOU. Here is one of the great poultry centers of the world; one of the best early apple, prune, cherry, pear, berry, dry wine, hog, and general farming districts in California. There is plenty of rain to make crops sure.

YOU CAN SEE THIS COUNTRY WITHOUT LEAVING HOME.

We have issued a beautifully illustrated booklet telling of Sonoma County and of the opportunities there for YOU. Send ten cents for this booklet and a sample copy of Sunset Magazine—the one big National Magazine telling of the life and development of the West. Address:

CANDIDATES WARNED OF NEW "CORRUPT PRACTICE ACT."

It is highly important for candidates for office in Kentucky to familiarize themselves with the provisions of the "Corrupt Practice Act," passed by the Legislature of 1916.

It is compulsory that each candidate file with the County Clerk or proper official an itemized statement of expenses incurred during his campaign, such as printing, stationery, stamps, stenographers, rent for public halls for speaking, and all other expenses incurred pertaining to his election. Such papers must be filed fifteen days before the primary, and also fifteen days before the regular election.

The penalty for failing to comply with this law, is a fine in any sum not to exceed \$5,000, or to be confined in the county jail not to exceed six months, or both.

The BOURBON NEWS has been appointed as agent in Bourbon county to handle and sell the Thomas Kentucky Election Forms, which are used for this purpose. With these forms it is no trouble to keep an accurate account of expenditures, etc. These forms are reserved and protected by law by the Cadiz Record, of Cadiz, Ky.

All candidates are required to make these statements, and the easiest and best way is to purchase one of these forms now. The price is \$1.50. Come in and see one, and give us your order. We have samples to show, but will have to send in orders to Cadiz for stock. We are going to send in an order next week. Let yours come with the rest.

CROUP, WHOOPING-COUGH RELIEVED.

Children's diseases demand preparedness. When the child wakes you at night gasping and strangling for breath, how thankful you are to have Dr. Bell's Pine-Tar-Honey at hand. This effective remedy loosens the mucous and permits free and natural breathing. Its soothing balsams heal the irritated membrane and arrests further inflammation. Pleasant to take. Keep Dr. Bell's Pine-Tar-Honey in the house for all colds and bronchial troubles. At your druggist, 25c. (adv-June)

MAKE MILK FROM BEANS

Almost any natural product can be imitated. In the matter of food imitations the original article is first carefully analyzed and its constituent elements noted. These elements are usually obtained from vegetables and minerals for the substitution. In fact, the science of substitution is becoming a great factor in modern industry.

In England an artificial milk is being manufactured which is claimed to be both wholesome and inexpensive, so that now the market is not wholly dependent upon the product of the cow, says Popular Science Monthly. The artificial milk is made from peanuts, soy beans, sugar, water and mineral salts.

About 400 grains of potassium phosphate is dissolved in 200 pints of water at 176 degrees Fahrenheit. Enough sugar is added to give 4.5 per cent to the finished product. Forty pounds of meal prepared from the nuts and beans is stirred in. The solution is boiled in a steam-jacketed pan; then it is subjected to the operation of a vacuum pan, and lastly it is treated with the culture of lactic bacteria until the required acidity is obtained. After it is pasteurized and cooled a small percentage of citric acid is added.

The milk thus produced may be condensed and sold in cans or dried and powdered, or sold as a liquid in bottles. The addition of nut fats will give a certain proportion of cream. By using sufficient lactic bacteria the product may be cultured to give a table cream of a soured mass for making cheese. A milk made from soy beans has long been in use among the Chinese.

Some fellows get their religion from their mothers, their politics from their fathers, and then make their own mistakes.

There are moments when we feel quite sure that a lot of people now worrying about the burden of taxation will be the very last to feel it.

WHAT AMERICA CAN DO.

"It is in the power of America to become as invincible as impregnable," declares George Creel in the June number of Everybody's Magazine. "The producing capacity of the United States is more than that of any other two nations. We supply the world with three-fourths of its cotton and two-thirds of its copper; we are masters of the earth in iron, he proposes to use to run the engine, largest railroad mileage; we lead all peoples in invention, ingenuity, and initiative; our financial resources almost equal the combined wealth of Europe, and within our borders are over 21,000,000 men of military age. All that we have to do is to make such careful and complete inventory

of our manhood and materials as will permit a scientific plan of co-ordination and utilization.

"This is the preparedness that the United States has been striving to attain—an industrial preparedness that will guard against confusion, inefficiency and delay. And the manner in which America has already responded proves that beneath all the forth and spume there are depths of patriotism even as in the old days."

Some Paris fellows are delaying the purchase of a Liberty Bond as though they expected Uncle Sam would have some left over and give them away.
