**Phon d'Amour**  
**SWEETEST OF SINGERS**  
Its very name suggests Songs of Love  
**WHY?**  
Bernhard Fritsch invented this  
**Soulful Musical Instrument**

**THE Phon d'Amour** has a patented wooden diaphragm, (not a metal one), sound amplifier and reproducer. This gives the true tone and pitch, exquisite as a master's sweep over the strings of a Strad, beautifully perfect as God's rainbow.

**The Phon d'Amour** is the achievement of a genius. It reproduces the human voice exactly, perfectly and sympathetically; the piano, violin, cello, viola, harp, flute, oboe, clarinet, faggot, horn, trumpet, piston, trombone, tuba, tympani, percussion.

Because the Phon d'Amour is the invention of a master mind of harmony who knew how.

The Phon d'Amour is not an assembled instrument; the improvements and features embodied in Phon d'Amour are patented and procurable in no other instrument.

This superb instrument plays all records of whatever make.
