Other improvements have been made in the interior of the house, while others are contemplated, which will make this one of the neatest playhouses in Central Kentucky.

THIS FOR SLACKERS

While many Paris and Bourbon county women will be grieving tomorrow over the departure of their boys for the army camps, there is one Paris girl who is mourning because her steady company proved to be a "slacker" and would not respond to his country's call. No persuasion would induce him to forsake his home place, while other men as good or better than he, were gladly going to the service. When he asked to call last night as usual, he was met at the door by the young woman who handed him a card upon which was written these lines:

"Oh, woman, who will watch your loved ones leave
With those in khaki clad, your pain will be bliss
To mine, for he I love, no sacrifice Has offered of himself. It is for this in deep humiliation I must grieve."

The slacker quietly slunk away, and it is said that there will be no open door at that home for him again.

SEND US ONE GRAIN!

A Brooklyn chemist claims to have invented an explosive which is ten thousand times as powerful as dynamite. He says that five grains of it would blow up the Woolworth building, and that it is not expensive to make.

We are going to petition the inventor to please send up one grain of this explosive. This quantity placed under a bunch of these noisy flivvers, which run with cut-outs wide open would tend to have a quieting effect!
