

BILL FOR FEDERAL OPERATION OF RAILWAYS PASSES HOUSE.

WASHINGTON, March 4.—The bill to govern Federal operation of railroads passed the House by a vote of 337 to 6.

Two Democrats and four Republicans voted against the measure when the final test came. They were Thomas, Kentucky, and Gordon, Ohio, Democrats; Chandler, Oklahoma; Demison, Illinois; Haugen, Iowa, and Ramseyer, Iowa, Republicans.

The Senate previously had passed the bill which now goes to conference for settlement of differences between the two houses. The House bill provides for the return of the roads to their owners two years after the war ends, instead of in eighteen months, as the Senate draft proposes, and the House measure vests final rate fixing authority in the President, while the Senate would leave this power in the Interstate Commerce Commission.

These two sections of the bill caused spirited fights in the House Thursday. Opponents of these features won momentary victories when the bill was discussed in committee of the whole, but on final vote proponents marshaled their forces, mostly on the Democratic side, and succeeded in putting through the bill with these features intact as framed by the committee.

An amendment by Representative Sweet, of Iowa, giving the rate making power to the Interstate Commerce Commission was adopted in committee of the whole 164 to 157. This showed almost the full strength for the amendment as when the vote was taken on final passage it was defeated 165 to 211.

In the committee of the whole an amendment by Representative Esch, of Wisconsin, to limit tenure after the war to one year was adopted 133 to 40, but like the Sweet amendment it was thrown out on final passage, 206 to 166.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars Reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for testimonials.

Nothing in the present progress of legislation indicates that the predicted adjournment of Congress June 1 will materialize.

THE TOBACCO MARKET

The Independent Tobacco Warehouse Company had an extra good sale at their house on South Main Street, Friday, disposing of 55,125 pounds of low grade tobacco for \$16,237.51, an average of \$29.46 per hundred pounds. The market was much stronger on low grades.

The sale yesterday was pronounced by experienced tobacco men as being the very best sale of the season, the floor of tobacco being composed of very common tobacco, no god grades being embraced in the offerings.

PARIS EVIDENCE FOR PARIS PEOPLE

The Statements of Paris Residents Are Surely More Reliable Than Those of Utter Strangers

Home testimony is real proof. Public testimony of Paris people carry real weight.

What a friend or neighbor says compels respect.

The word of one whose home is far away invites your doubts.

Here's a Paris man's statement.

And it's for Paris people's benefit. Such evidence is convincing.

That's the kind of proof that backs Doan's Kidney Pills.

J. W. Larkin, farmer, 431 High street, says: "I am only too glad to recommend Doan's Kidney Pills, because I have at times had quite a bit of trouble with my back. Often, I had a dreadful ache across my kidneys and the kidney secretions were too frequent in passage. A box or so of Doan's Kidney Pills at these times has never failed to cure me of an attack."

Mr. Larkin is only one of many Paris people who have gratefully endorsed Doan's Kidney Pills. If your back aches, of your kidneys bother you, don't simply ask for a kidney remedy, ask distinctly for Doan's Kidney Pills, the same that Mr. Larkin had, the remedy backed by home testimony. 60 cents at all stores. GERMAN PRINTERS GET INCREASE IN WAGES.

After protracted negotiations, the wages of men employed in the printing trade in Germany have been revised, war bonuses of from 10 to 20 per cent being granted. Over-time work is to be paid at an advance of 75 per cent. over the old rates. To compensate the employers for these advances and other increased working costs, the ordinary charges for printing will be increased 100 per cent.

German interests are acquiring some of the most influential newspapers in Austria, according to an official despatch from France. Her Princhon, general director of the Vienna Fremdenblatt, the Mittag's Journal and the Allgemeine Zeitung the despatches say, has obtained control of the most prominent papers in Prague and other cities on behalf of a German syndicate.

This is a one hundred million dollar country and Mr. McAdoo may think he can run it—on and after March 4, 1921; he's getting some practice.

GERMAN KULTUR TRYING TO DECEIVE GERMAN PEOPLE.

NEW YORK, March 4.—"The German press is carefully and adroitly continuing to foster the idea among the German people that America is not really in earnest about the war," declared Dr. N. A. Davis, in discussing the situation in Berlin as he left it just a month ago. Dr. Davis, formerly of Piqua, Ohio, is the American dentist who lived in the German capital for fifteen years and numbered Emperor William among his patients.

"Every effort is being made to belittle America—even the highest officials are attempting to convey the impression that Germany has little to fear from the United States. Practically nothing is printed concerning America except the President's addresses on war aims and the possible basis of a permanent peace. Even these are treated by the papers as if the President were speaking as a sort of detached person whose interest was the welfare of the world, not with the idea that they represent the earnest determination of the American people to see the war through to a successful conclusion."

"Not until Germany begins to feel the military pressure of the United States will the people realize the new conditions that confront them. Then, predict, the fostered enmity toward England will be as nothing to the hatred that will be poured out by the inspired press against America."

AMERICA HUSTLING TO KEEP SOLDIERS IN SHOES.

Although the war department now has on hand and contracted for a total of 15,437,000 pairs of shoes, Secretary Baker announced that more than 1,000,000 pairs of shoes will have to be secured for the army this year. This is made necessary by the building up of adequate stocks of reserves, both in France and in this country.

General Pershing, having in mind the length of time shoes are expected to last the men in France, has requested shipment of 18,590 pairs of shoes for each 25,000 monthly, or approximately nine pairs of shoes per man annually. This quantity is in excess of actual consumption, and when a reserve supply is built up the quantity of shoes will be reduced.

BAD TASTE IN YOUR MOUTH.

When you have had a bad taste in your mouth you may know that your digestion is faulty. A dose of Chamberlain's Tablets will usually correct the disorder. They also cause a gentle movement of the bowels. You will find this to be one of the best medicines you have ever become acquainted with. (adv. March)

Abdul Hamid's last years were embittered. Perhaps at being outshone by his dear beloved colleague, the Kaiser.
