Music for the occasion was furnished by a Lexington orchestra. About seventy-five guests partook of the pleasures of the evening.

(Other Personals on Page 5)
KENTUCKIAN PLACED ON THE RETIRED LIST.
Anderson C. Quisenberry formerly of Mt. Sterling, an employe in the Inspector General's office of the War Department, in Washington, was placed on the Civil Service retired list on account of age. The Kentuckian, who now resides in Hyattsville, Md., has rendered thirty-five years of service. He has contributed several articles to the magazine of the Kentucky State Historical Association. Prior to entering the Government service, he engaged in newspaper work in Cincinnati.

DON'T BE MISLED

Paris Citizens Should Read and Heed This Advice.
Kidney trouble is dangerous and often fatal. Don't experiment with something new and untried. Use a tested kidney remedy. Begin with Doan's Kidney Pills. Used in kidney troubles 50 years. Recommended here and everywhere.
A Paris citizen's statement forms a convincing proof. It's local testimony—it can be investigated.
Mrs. Chas. McCord, South Pleasant street, says: "I have used Doan's Kidney Pills at different times, getting them from Oberdorfer's drug store and I have found them a splendid kidney medicine. Whenever my kidneys have acted irregularly or my back has been weak and lame, I have found a box or so of Doan's Kidney Pills sufficient to cure me of the attack."
Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the name that Mrs. McCord had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

The Movies of 1713.
On another page of this paper was printed recently an alleged newly discovered manuscript by Aristotle philosophizing on the movies. Mr. Walkly was joking, of course; but there is no joke about this extract from Swift's "Journal to Stella," dated March 27, 1713: "I went afterward to see a famous moving-picture, and I never saw anything so pretty. You see a sea ten miles wide, a town on t'other end and ships sailing in the sea and discharging their rannon," etc.—Boston Transcript.

John Smith Named New England.
The name of New England was coined by Capt. John Smith of Pocahontas fame, one of the founders of the Virginia colony. In 1614 he explored and mapped the northern coast, then called North Virginia, and renamed it New England. The charter granted the Mayflower Pilgrims adopted the name used in Smith's map several years before.

JUNIOR RED CROSS WORKING AT HOME

Production of Sound American Citizenship the First Aim, Says Dr. Farrand.

On the badge of every member of the Junior Red Cross are the words "I Serve." That tells the story of the school children's branch of the American Red Cross and its efforts to bring happiness to children throughout the world.
Realizing that the time never was so propitious as right now for teaching the highest ideals of citizenship, the entire present program of the Junior Red Cross has been framed under the very inclusive phrase, "Training for Citizenship Through Service" for others. Since the Junior Red Cross is the agency through which the American Red Cross reaches the schoolboys and the schoolgirls, all its activities are designed to come within the regular school program, and without creating new courses or increasing the number of studies to lend its aid in vitalizing the work of the schools.

"The thing that is needed," says Dr. Livingston Farrand, Chairman of the American Red Cross Central Committee, "is not a perpetuation of the Junior Red Cross, but the training and breeding of sound American citizenship inspired by the true, fundamental ideals of sound democracy. One of the great conceptions in making the Red Cross a contributor to better citizenship in our American democracy is the realization that after all the sole hope of any nation is with the children of the country."

The plan of organization of the Junior Red Cross makes the school—public, parochial and private—the unit, not the individual pupils. Mutual service, helpful community work such as clean-up campaigns, care of the sick, promotion of health regulations, participation in civic and patriotic movements—all these creative agencies designed to translate into life and action the regular school program are parts of the machinery which the Junior Red Cross places at the disposal of the school authorities.

Graded study courses giving practical methods of civic training, supplemented by pamphlets and helpful suggestions, are supplied to the local schools by the Junior Red Cross. An elaborate plan for promoting an interchange of correspondence between children in different sections of the United States as well as with children in foreign lands is being devised and will take a prominent place in the established classroom program.

In promoting the general cause of child welfare, Red Cross courses in home hygiene and care of the sick, first aid, and dieting may be established in all Junior Red Cross Auxiliaries.

The ideals and the objective of the Junior Red Cross are embodied in the pledge of service which the pupil takes when he signs the membership roll and pins on his coat the Junior's badge. The pledge which binds together service and citizenship reads:
"We will seek in all ways to live up to the ideals of the Junior Red Cross and devote ourselves to its service.
"We will strive never to bring discredit to this, our country, by any unworthy act.
"We will revere and obey our country's laws and do our best to inspire a like reverence and obedience in those about us.
"We will endeavor in all these ways, as good citizens, to transmit America greater, better and more beautiful than she was transmitted to us."
At the foundation of this school program of the Junior Red Cross is a great love for America's children.

RED CROSS ACTIVE IN DISASTER RELIEF

When disaster hits a community—fire, flood, earthquake, explosion, bad wreck or tornado—the American Red Cross can be depended upon to follow right at its heels with help for the stricken people. Red Cross relief is almost immediately forthcoming—food, clothing, shelter and funds; doctors, nurses and special workers with long experience in handling similar trouble elsewhere.

During the last year, ending June 30, there was an average of four disasters a month in the United States. One hundred and fifty communities in twenty-seven states suffered. The largest and most destructive of these were the tidal wave at Corpus Christi, Texas, and tornadoes in Mississippi, Louisiana, Alabama, Georgia, Ohio, Indiana and Illinois.

In these events of horror 850 persons were killed, 1,500 were injured, 13,000 were made homeless, about 30,000 families needed help, the property loss was nearly \$100,000,000 and at most \$1,000,000 in relief funds, not including emergency supplies was expended.

To the sufferers from all disasters during the year, the American Red Cross sent \$120,000 worth of supplies, 110 Red Cross nurses and seven special relief trains. To meet the needs of the stricken, the organization set up ten relief stations, operated thirty food canteens and as many emergency hospitals. One hundred and twenty-five Red Cross chapters gave disaster relief service.
If disaster ever strikes this town or county, the citizens can be absolutely sure the Red Cross will be right on hand to help them in every way.

WOLF, WILE & CO.

Announcing
