

MEDICAL SOCIETIES OF STATE TO DISCUSS "CANCER"

Every county medical society in Kentucky will hold a symposium on cancer during the weeks October 30 to November 5 as a part of Kentucky's observance of "Cancer Week." Dr. Irvin Lindenberg, State Chairman of the Committee that is co-operating with the American Society for the Control of Cancer, announced to-day.

"While thousands of persons are dying every year of this dread disease," he said, "it is curable if detected in its earliest stages. Carrying knowledge of this fact to the people of Kentucky is one of the objects of the present campaign. The other object is to emphasize the fact that, where this early diagnosis has been had, the person suffering immediately should obtain the best medical treatment procurable. Any unnatural lump or hardness is to be regarded as potential cancer until proved by competent examination to be otherwise. That is especially true of the breast, abdomen, lips and mouth. Any enlargement or tumor in any portion of the body which can be detected by sight or touch, which persists and which increases in extent, should be subject to examination

by those competent to make it. "Cancer invariably begins as a local disease and if recognized at this stage can be surely and permanently cured if accessible. Any unnatural discharges from the internal organs, especially at and after the age of 35, should be regarded with especial suspicion."

IMPORTANT DECISION FOR CITY EDUCATION BOARDS

City boards of education in this State have authority under the act of 1920 to condemn property for school buildings. This ruling was made by the Appellate Court affirming the Mercer Circuit Court in the case of William Con Bell's committee against the Board of Education of Harrodsburg. The right of eminent domain granted by section XIII of the constitution to acquire land for public purposes is held by the court to include city boards of education. Bell was given \$18,000 damages for the land condemned, \$2,000 for damages to the land left, and \$400 incidental damages for the small tract of land condemned by the school board in Harrodsburg.

The main reason why the Congressional Record is so expensive is that it carries so much free advertising.

LIVED YEARS ON BREAD AND MILK

For More Than Decade Malady Of Alabama Woman Was Continually Sapping Her Strength

Mrs. H. P. Barrett, of Republic, suburb of Birmingham, Ala., gives the facts of her remarkable experience with Tanlac as follows:

"During the past fourteen years I have spent more than one thousand dollars trying to get rid of a complaint that was gradually sapping my strength, but until I got hold of Tanlac nothing helped me. For the past four years I have lived almost entirely on milk and bread, and finally even that went against me.

"Before I had finished the first bottle of Tanlac I got so I could eat anything, and I certainly vless the day I first got this medicine, for I believe it has added years to my life. The people in my neighborhood were so surprised at the change in me that fourteen of them by actual count are now taking Tanlac."

Tanlac is sold in Paris by the Peo-anthyn, and I certainly bless the ple's Pharmacy, and by all leading drug stores everywhere.

MARINE CORPS REPRESENTATIVE AT AMERICAN'S FUNERAL

Gunnery Sergeant Ernest A. Janson has been selected to represent the men of the Marine Corps at the burial of the unknown American hero in the Arlington National Cemetery, Armistice Day, Nov. 11. Janson, together with several non-commissioned officers of the army, all of whom have overseas records, will act as pall-bearer.

Janson's record was divulged recently at the Marine Corps recruiting office, Indianapolis, Indiana, where it was said that he received the Congressional Medal of Honor, the highest American award for bravery. He also holds the Navy Medal of Honor, the French Military Medal and Croix de Guerre with palm, the Italian War Cross and the Montenegrin silver medal for bravery.

The citation for which Janson received his American decorations follows:

"For conspicuous gallantry and intrepidity above and beyond the call of duty in action with the enemy near Chateau Thierry, France, June 6, 1918. Immediately after the company to which he belonged had reached its objective on Hill 142 several hostile counter attacks were launched against the line before the new position had been consolidated. Sergeant Janson was attempting to organize a position on the north slope of the hill when he saw twelve of the enemy, armed with five light machine guns, crawling toward the group. Giving the alarm he rushed the hostile detachment, bayoneted the two leaders and forced the others to flee, abandoning their guns. His quick action, initiative and courage drove the enemy from a position from which they could have swept the hillside with machine gun fire and forced the withdrawal of our troops."

Gunnery Sergeant Janson enlisted in the Marine Corps in 1910 and is now on duty at the recruiting station in New York.

COLDS

"Pape's Cold Compound" Breaks any Cold in Few Hours

Don't stay stuffed-up! Quit blowing and sniffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks any cold right up.

The very first dose opens clogged nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness.

"Pape's Cold Compound" costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine. Insist upon Pape's! (adv-T)

LAW ENFORCEMENT

The people of Kansas City have shown what an outraged public sentiment can do when genuinely aroused, in spite of the negligence of public officials.

During the early part of 1920, criminals of every sort overran the city, causing a veritable reign of terror. Finally the leading citizens' organizations decided that the only way to get relief was to take things into their own hands.

A law enforcement association was formed, its motto being, "Clean Up Kansas City."

There has been a steady improvement in the situation ever since. During the first five months of 1920 there were 19 murders and 1,183 burglaries. During the same period in 1921 there were but nine murders and 695 burglaries, about a 55 per cent cut in these two classes of crime. Highway robberies and auto thefts showed a like decrease.

The moral of all this is just this: There is no reason why the people of any other town cannot do what the people of Kansas City have done if they will act with the same energy and intelligence.
