BRIGHTER EVENINGS

Just History

In '78 The Colonial Dame Span her cloth By Candle flame.

In 1880 In Crinoline bright, She greeted her guests By Coal Oil light.

And later on, How time does pass Her home was lit By flickering Gas.

But the girl of to-day Who wants her home bright, Just presses a button And has Electric Light.

KENTUCKY RANKS 21ST IN POTATO PRODUCTION

Kentucky produced more than three million bushels of potatoes and more than one and a quarter million bushels of apples in 1920, according to one of the reports of the Census Bureau on the 1920 enumeration.

The total production of potatoes in the United States for 1919 was 290,754,580 bushels, of which Kentucky produced 3,131,377 bushels, or rather an insignificant part of the entire crop.

CHAMPIONS

An Orpington hen laid 314 eggs in 326 days at the Delaware College experiment station. This is said to break the world's record.

But the hen doesn't deserve much credit, when you come to think of it. It was the brains of scientists, experts at crossbreeding, that created that record number of eggs.

Most of our most important activity in this generation is in experimentation—that is, making valuable discoveries for our descendants.

THE RAILROADS

The transportation business as has been pointed out repeatedly, is the only one in the world whose scale of expense is fixed by one body of men, and whose charges for meeting this expense is fixed by another.

The railroad labor board tells the roads how much wages they must pay and what expenses they must incur in numberless ways.

An entirely different body, the interstate commerce commission, tells the roads how much they may charge to meet their expenses.

The latter is necessary, for the roads are virtually monopolies in transportation and hence rates cannot be fixed by competition.

A man in Texas who wants a ton of coal from West Virginia cannot get it at all except by rail, but no man is obliged to accept the railroad's terms of employment or go without work.

Everybody is willing that railroad men should receive more liberal wages than the average worker, for they are above the average worker in the necessary personal qualities and the responsibilities of their duties.

But when they are given abnormally high pay, the result is hardship to the vastly greater number of laborers in other lines whose costs of living are increased by the amount by which a special class of workers is overpaid.

The Southern Christian Advocate, in discussing this matter not long ago, aptly said that "the sooner both capitalists and laborers recognize that the object of human exertion is the production of wealth rather than the acquisition of money, the sooner will many points of conflict be eliminated."

MOTHERS' PENSIONS

Pensions for mothers with more than eight children are urged by Judge Ewell of Chicago, in a letter to President Harding.

Forty States now grant pensions to mothers of dependent children when the father is dead or incapacitated. Illinois was the first to pass such a law.

All women want children. Many would have more if they were not afraid of poverty.

Would pensions for mothers of large families end race suicide and make Rooseveltian families the rule instead of the exception?

It is pleasant to have a fortune teller say that you have money coming to you. But most of us had rather hear that from the paying teller at the bank.

Incidentally, how about disarming some of the moving picture actors?

QUEER METHOD OF DEFENSE

Fishes That Have the Power of Inflating Their Bodies, Frightening Their Enemies.

The swell fishes of tropic coast waters have the power of suddenly inflating the body with water or air until they assume an approximately globular form several times the normal diameter, which must be disconcerting to any enemy about to seize one.

TAKING TO "LOUD" PATTERNS

Pittsburgh Interior Decorator Says Women Will Soon Resemble Animated Parlor Chairs.

Have you seen what appears to be a corner of a boudoir walking down the street? Well, you soon will. They are already appearing in tennis courts hereabouts.

BALKED AT WORD "COMMON"

Profiteer Felt It Was Due to His Dignity to Have Nothing But the Very Latest.

Bishop Homer Stunts said at a dinner in Omaha:

"If we were all as ambitious to progress ethically as our war profiteers are to progress socially, it would be a very good thing.

"A war profiteer decided recently to drop the Baptist faith and turn Episcopalian, as all the bang-up people in town went to the Episcopalian church.

"So he visited the bookstore and asked for the hymnals, Bibles and so forth that he would need in his new way to worship.

"He seemed well enough pleased with the volumes that the salesman laid before him till he came to the Book of Common Prayer. Over this he frowned and shook his head.

"This'll hardly do," he said, and he tapped the title with his forefinger. "Let's have something a little more select, bo."

The French Sportswoman. Georges Carpentier was talking to a girl reporter.

"The modern Frenchman," he said, "is well up in sport, but the Frenchwoman is still rather retrograde.

"I know a young Frenchwoman who called a friend up on the telephone the other day and said:

"I'm sorry to trouble you, dear madame, but can you give me a good recipe for cooking clay pigeons? Jacques has just sent me word that he is going out to shoot some, and he is sure to bring a lot home, and I can't find a single word about them in the cook-book."

Prudent Mantality.

"You appear rather proud of the fact that you are unable to understand the relativity theory."

"I'm not exactly proud," replied Senator Sorghum, "but I am resigned. I put great faith in the wisdom of the plain people. So long as the plain people didn't get the idea I don't believe it would be to my advantage to assert any superior intelligence or exclusive information."

Personal Exemption. Mrs. Henpeck—Hereafter, bring me your pay envelope as it is handed you, unbroken. There's a shortage here. Explain.

Mr. Henpeck (bravely)—I took out my car fare and lunch money, which under the income tax law I interpret as my personal exemption.—New York Sun.

Interrupted Profit.

"I understand there is oil in the neighborhood of Crimson Gulch."

"There is," replied Cactus Joe. "But it was mislabeled. They insisted on tryin' to get it out in paying quantities instead of goin' on forever sellin' stock."

WHAT IS RECEIVER? STUMPS JOURNALISTS

The members of the journalistic profession owe much to the invention of the telephone, for it is one of the most useful of the tools with which their day's work is done.

Ordinarily the error passes unnoticed, but New York telephone men have been reading with glee a sketch by a columnist in one of the leading evening papers of the metropolis, in which the writer did a little "from life" description of human nature as seen in a department store telephone booth.
