NOTHING in modern history, except Mark Twain weeping over the tomb of Adam, has presented more elements of pathos than the scene described by Gen. Brisban that good little boy, Ulysses S. Grant, thrashing his Canadian cousin for speaking disrespectfully of George Washington.

THE following is the inscription on a letter that passed through our post-office a day or two ago: "The dominion is CANADA, the province QUEBEC, and SHERRBOURNE is the name of the town. Without a complaint or a groan, TO HENRY BOGGS, a blacksmith by trade, and not given to feuds or tricks. His box is well known, so make no mistake. NO. FOUR HUNDRED NINETY AND SIX."

MR. WILLIAM HOWE, a brakeman on the gravel train of the Branch road, and a resident of Freeport, was thrown violently from the train and over an embankment, between Dilks station and Great Belt, last Monday morning. He was severely cut about the head and his life is despaired of. The accident was result of the breaking of the brake lever he was working.

THE Anglo-American Cable Company is not discouraged by the opening of the new line. At all events it proposes to lay another wire this summer, and is now negotiating for that purpose. But what the world is watching and waiting for at the present writing is the International Telephone Company. We must be on speaking terms with the effete despotisms.

THE receipts of Pennsylvania last year from ordinary sources were \$5,392,361, and expenses, otherwise than the redemption of loans, \$4,944,111. Taxation brought in nearly \$4,000,000 chiefly from corporations, the taxes on writs, wills, deeds and personal property, yielding less than \$500,000. Licenses, chiefly those issued to retail stores and tavern keepers, yielded \$970,000.

THE most significant of recent political "straws" is the fact that Mr. Edward Cowley, proprietor of the Cleveland Leader, has accepted the presidency of a Blaine club. Only a short time ago Mr. Cowley was an enthusiastic Grant man.

LAST Friday afternoon Gov. Hoyt issued the death warrants of Henry Wise, Israel Brandt and Josiah Hummel, three of four men who employed Charles Drews (executed last November) to murder Joseph Rader in Lebanon county to obtain \$10,000 insurance on his life. The date of the hanging is Thursday, May 13. Rader was murdered by drowning in a small creek on December 7, 1878.

A HOUSE belonging to Capt. J. G. Bippus, of Oakland township, this county, was burned on Friday night last. The house was nearly a new one and was occupied by two of the Captain's boys, in connection with the care of the farm on which it was located. The boys were absent at the time and all the circumstances point to the conclusion that the burning was the act of an incendiary. There was no insurance on the house.

THOUSANDS have been cured of dumb ague, bilious disorders, jaundice, dyspepsia and all diseases of the liver, blood and stomach, when all other remedies have failed, by using Prof. Green's French Liver Pad, which is a quick and permanent cure for those disorders. AGAIN the sweet singer of the Conquering steps to the fore. This time with the second verse of his renowned poem on the beautiful snow. Here it is:

Last night it snowed, And then it blowed, And then it rained, And then it snowed.

It will be seen that his poetry somewhat resembles the Sandy loam of what a mule's" poetry, but however, the third verse will be looked for with interest.

THE Court yesterday afternoon deferred action on the conviction of John Lefferts for murder, till the third Monday in April next. Mr. Lefferts' counsel stated that he had some matters of business to arrange, and that they had concluded not to make a motion for a new trial. It is supposed that the counsel for the defendant intend to appeal the case to the Supreme Court of the State on some of Judge Bredin's rulings, get the defendant out on bail, and finally get a new trial.

WHEN you have an inflamed eye, a swollen head, or decayed and aching tooth you do not take and fill your stomach with drugs to cure it, but apply a cooling lotion to some business of the retailing directly to the parts. So if you have a weak or lame back, sore kidneys, profuse or scanty urine, or the secretory system is clogged and inactive you should use Prof. Guilmette's French Kidney Pad, which is a directly local application, which always gives speedy relief, and always cures the disease. Ask your druggist for it.

THE Lower House of the Connecticut Legislature have passed a bill, under the same name, under the same restrictions as men, upon questions involving the liquor traffic. Whatever may be the objections urged against women having equal rights with men at the polls, there can be but little doubt that the gentler sex have the highest moral right to an effective expression of opinion on the business of the retailing liquor and the privileges and restrictions under which the trade shall be conducted.

FARMERS, don't forget that the Diamond Plow is still the front, and for sale at JACKSON & MITCHELL.

THE Board of Pardons has fixed the 27th for hearing the pleas of Messrs. Kemble, Salter, Rumberger, Crawford and Petroff for the interposition of Executive clemency to modify or relieve the punishment defined by the law for corrupt solicitation. While many of the pardons solicited attract but limited attention, the board must well appreciate the general interest felt in these cases that call for the exercise of the intended judicial attributes of that tribunal, and neither partisan or individual favor should dictate its judgment.

SUNSET COX and a number of other benevolent members of Congress propose to vote \$100,000 of the public money for the relief of the starving people of Ireland. Nothing is more beautiful than charity, but that sort which gives away other people's money is not the right kind. Let Mr. Cox and the other Congressmen give to the suffering masses in Ireland all the money that they are disposed to give and that they can spare from the other pockets; but there is no rule of the Constitution which allows them to vote money from the Treasury for any philanthropic or humanitarian purpose.

SOME curious persons calling themselves the "Salvation Army" have landed in New York from England with the laudible intention of attacking sin and making converts to Christianity. The "Salvation Army" is composed of both men and women, who wear a singular uniform which serves to make them conspicuous wherever they go. It is their purpose to sing psalms and preach in the streets and other places where men must do congregate, with the hope of gaining the attention of a busy worlding now and then turning his thoughts to higher things than earth affairs.

ALL the franchisees, real, personal and mixed property of the Pennsylvania transportation company was sold at Meadville lately at Master Commissioner's sale for \$79,995. Roger Sherman, attorney, was the purchaser for Kenable & Wright, of Philadelphia. The sale includes among its property ninety-one miles of pipe line with stations, telegraph lines, tanks, pumps and machinery for the transportation of oil, located in Crawford, Erie, Venango, Warren, Forest, Clarion, Butler and Armstrong counties, and among its valuable franchises a charter for a pipe line to the seaboard with right of way secured.

THE emigrants are arriving in great numbers. During the month of February just passed the number landed at Castle Garden was 150,000, whereas in the corresponding month of last year only 82,000 arrived. March, April, May and June will of course show a heavy increase, and during the summer an immense horde of wanderers from the Old World will seek homes in America. Minnesota and Nebraska are just the prime favorite States in the West, though other States and Territories will in due time have their boom. The supply of Uncle Sam's farms is still ample to meet all demands, so the more that comes the merrier.

SIX persons were lately killed during a fight in a bar-room in New York city. The man who was killed is always such an inestimable blessing that the means are not likely to be closely criticised, the personal safety of such better men as occasionally drink liquor demands that a different sort of place should be selected for fights in which bullets mangle aimlessly about from pistols held by drunken bandits. Every man who keeps a bar knows that quarrels are more than likely to take place in his establishment, and he should be prepared to maintain order in his own house. If through weakness or cowardice he permits fatal disturbances his license should be revoked and himself excluded by law from his business forever. A few careful regulations of such a rule would permanently end the custom of fighting in bar-rooms.

THIS recent poisoning of a whole family in Canada, from eating cabbages, upon which it is supposed Paris green had been sprinkled, should prove a warning to farmers against a careless use of this class of insect remedies. Paris green is largely composed of arsenic, is almost insoluble in water, retaining its active principle for years, and a very little of it may prove fatal. It is well enough to employ it upon potato tops, and the foliage of such other plants as are not used for food for man or animals, but its use upon, or even near any other kind of vegetable, especially in the kitchen garden, is fraught with danger. There are plenty of useful means by which the cabbage worm may be destroyed or its ravages lessened, without resort to violent poisons. In the case to which reference is made, there was fortunately but one death, though five persons were affected.

WE have received from the publishers of "Golden Days" the first two numbers of their publication. It is a paper for boys and girls. We have examined the first two numbers and as far as they are concerned can say that it is the best paper of the kind we have ever seen. In his circular to the publisher very truthfully remarks: "You will agree with us that one of the most potent fountains of crime is the obscene literature for the young, which is seen in every news stand, and floods the country. These papers directly instigate crime and their extinction would be a blessing to humanity, but as there exists no means of suppressing them, and as our children will read, it follows that the best antidote is to furnish the youth with good wholesome reading, presented in its most attractive form with a view of winning them away from the corrupting literature referred to, we trust it will be equally ready to say a good word in behalf of our enterprise. The object of "Golden Days" is so clearly defined and will be so conscientiously pursued, that we feel it entitled to the countenance and support of all who have the welfare of the young at heart."

THE will of Mr. Eugene K. Keefe, the Millersburg clothier who died lately in Florida, is to be contested by his father, his legal heir, a resident of Erie, this State. The will was written in this county on the 27th of January last, and Mr. Keefe died on the 20th of February. In his will Mr. K. directed that his debts be paid, etc., that \$10,000 be paid to a Mrs. Logan, who nursed him during his sickness, that \$50 be paid to the priest who attended him to pay for masses to be said for his soul, that \$200 a year be paid to his father during his life time, but for which his father is to give his notes; and that at the death of his father the said \$10,000 be collected from his estate, and the amount thus collected with the whole of Eugene's estate is to go to the church to pay for masses to be said for the souls of himself, his father, mother and sisters. The estate is said to consist of a large sum of money deposited in a Pittsburgh bank, Mr. K.'s store in Millersburg and other property. A lawyer of this State invalidates all bequests for charitable or religious purposes made within 30 days of the death of the testator. Rev. P. J. Quilter, who is named as Executor in the will, has taken out letters testamentary, and Mr. Keefe's father has commenced proceedings in equity.

MINNESOTA FLOUR! To arrive from the L. C. Porter Milling Co., Winona, Minnesota, one-half thousand sacks of flour, all to be sold rapidly for cash. Minnesota flour has a reputation of its own, the world over. There is not a State in the Union raising the quantity and quality of wheat and possessing the facilities for manufacturing flour as the State of Minnesota. It is indeed, the great wheat flour State of our land. Among our assortment of this flour will be found, from the finest article machinery can produce, down to a cheap and substantial family flour. Owing to a reduction in freight rates westward, we have secured this shipment at a favorable figure, and will be able to sell the cheapest at \$1.25 per sack of 49 pounds, or \$5 per barrel, in barrels. KLEINER FLOUR HOUSE.

SOME thousands of workmen ordinarily engaged in a single trade in New York city are now in that unsatisfactory financial condition which the people in their homely phraseology describe as "living upon the interest of what they owe." About seven hundred pianomakers left their labor because of a dispute with their employers, and a little more than three thousand, as it is estimated, have been dismissed by their employers in recognition of the fact that the difficulty over which the first step was taken is a common one and applies equally in all the different shops, and that if the laborers are triumphant over their first field they will demand that the principle involved in their victory shall be applied in all shops. Not far from four thousand are present in the city, and therefore and it is thought the number will be increased within a few days by another thousand to be excluded from shops that have not yet acted upon the demand of the employers' union.

I have the "small" and "medium" sized pumps, and also the "large" size, which they could call a similar cure in the papers. For 25 years I suffered with water in my house, and it was not until I used your "small" and "medium" pumps, that I was cured. I have since used your "large" pump, and it has cured me. I have since used your "large" pump, and it has cured me. I have since used your "large" pump, and it has cured me.

WEST TOWNSHIP, Pa. MR. EDITOR: Having read in your paper reports of the removal of water from an adjacent lot, I am induced to let "what I know about water."
