The bill to divert one-half of the revenue derived from the tax on the capital stock of corporations from the Sinking Fund to the General Fund will greatly relieve the State Treasury. Another minister is in trouble about the holy kiss. Is it not about time for religious people to see what the unregenerate long have seen, that salutations with the lips are, to say the least, disturbing to the reputation that churches desire to maintain? If kissing is really a sanctimonious method of greeting why do not the pastors who practice it ever bestow their labial attentions upon men?—E.

The happiest person in the country on the 4th of March, 1881, undoubtedly was the venerable mother of James A. Garfield; and she had the highest right to be. Left a widow with her small children, who, with herself, were quite dependent upon her own exertions for support, she kept her little flock together, and demonstrated, as have many other women also, "what a woman can do."

The principle of the bill favorably reported lately in the Pennsylvania Senate, allowing persons sustaining damages on account of any mob or riot to recover compensation from the county wherein such mob or riot occurred, is clearly right, and the measure is put into the shape of the law the better. Every citizen in the Commonwealth should be made responsible for the preservation of the peace and the protection of property within its borders.

Last winter I used your Cream Balm, and found it to accomplish all you represented. F. M. McCormick (Judge Common Pleas), Elizabeth N. J. Aug. 25, 1880—See Advt.

Since the introduction of Ely's Cream Balm my sales of it have daily increased, and are unprecedented. I confidently recommend it to all suffering from Catarrh or kindred diseases who call upon me, with that pleasure and confidence that a personal knowledge of the curative powers afford. O. H. Kirwan, Druggist, Wilkesbarre, Pa.

The unusual prevalence of small-pox the past Winter, has led to the establishment in various localities of vaccine farms where cows are kept for the object of supplying physicians with "points" for vaccination purposes. Very many people justly object to being vaccinated from the virus of a fellow mortal, as the morbid is most rare even if it exist at all—who is entirely free from scrophulous taint in his blood. But from the blood of a fine, healthy young cow one has little to fear.

It is Possible. That a remedy made of such common, simple plants as Hops, Buchu, Mandragora, Dandelion, &c. make so many and such marvelous and wonderful cures as Hop Bitters do? It must be! for when old and young, rich and poor, Pastor and Doctor, Lawyer and Editor, all testify to having been cured by them we must believe and doubt no longer. See other column.—Post.

Boyton, the paddler, in his experience as Peruvian torpedo man, alleges that he had still more marvelous adventures than those which West him when he used to encounter marine monsters in European rivers. At one time, hiding from the Chilians in a cave under a cliff, he found himself among a throng of sea lions and seals, and had to knock some of the latter over the nose with his paddle. Getting out of that cave, he was "near being shot full of holes," at Callao, by the grand on the mole, but fortunately was not hit at all.

Wine for Invalids. The Port Grape Wine of New Jersey is the best medicinal wine in the market, and it is said that the vintage of A. Spear far exceeds any other produced. It is heavy in body, rich in flavor and well adapted for sick persons and for general family use. For sale by D. H. Wuller.

Governor Foster, of Ohio, has just pardoned a man named Ferdinand Seitz, who was convicted of murder twenty-five years ago and has been in prison ever since. Seitz entered the prison a mere strapping, but emerged from an old man. He has never been on a railroad, and catches a different world from the one he left to go to jail. He has no relatives alive except his mother, who is in Germany, ignorant of her son's whereabouts or fate. Seitz has maintained his innocence of the crime through all these many years. The pardon was secured by one of the jurors who convicted Seitz. This juryman has agreed to give him a home. Without this promise, executive clemency would be of no benefit to the man.

How It was Done. "How do you manage," said a lady to her friend, "to appear so happy and good natured all the time?" "I always have Parker's Compound," replied the lady, "and this keeps me healthy and family in good health. When I am well I always feel good natured." Read about it in another column.

DEATH OF THE EMPEROR OF RUSSIA.—A dispatch from St. Petersburg dated March 13, says: "As the Emperor was returning from a parade in Michel Manege, about two o'clock Sunday afternoon, a bomb was thrown out and exploded under the Czar's carriage, doing considerable damage to the Emperor. The Czar uttered a shriek, and a second bomb exploded at his feet, shattering both legs below the knee and inflicting other terrible injuries. The Czar was immediately conveyed in an unconscious state to the Winter Palace, where he died at 4:30 this afternoon. Two persons were concerned in the crime, one of whom was seized immediately. The explosion in the park, which was attended by many police-men and other persons were injured.

In bidding good-bye to his long time constituents and friends at Warren, Ohio, General Garfield said what ought to be read and heeded everywhere, and we are glad to quote such words as these: "I shall carry away from this place one very delicate picture in my mind. It is of a group of men, and I see some of their faces in this audience, who, during my long term of public service, have never given a sign to me that they had any personal wish to gratify, except to see right principles prevail and good government maintained."

Now, if that company of men whose leaders have been in several places of this district, notably in Warren, could be reinforced all over this country, that would be the body of men on whose shoulders and in whose heart I would find such reliance and such confidence as would make me feel it possible to get through the work assigned me.

Now that the costly stone lunatic hospital at Danville has been partially destroyed by fire, and the question of rebuilding comes up for consideration, the time is ripe for a revival of the present policy of the State. We have enough hospitals already for restraining and confining incurable lunatics. We have no hospitals that take on the air or have the quietude of homes adapted to the cure of the insane. A proper expenditure of the insurance money on the burned structure would provide simpler and better accommodations than those destroyed for a larger number of unfortunate afflicted with insanity in a milder and more harmless form. It is a vast pity that all our asylums should be made prison houses because bolts and bars are necessary in some cases.

The snow drifts are so heavy in Cambria county as to close the roads for miles in extent.

So far as we have been able to learn the Republicans of Erie county unanimously approve the course of their Representatives at Harrisburg in refusing to enter the regular caucus and in manfully adhering to the policy of resistance to the coal. The Legislature of this county believed that the situation amply justified the action of the independents, and that to compel a recognition of the rights of all elements of the party would, instead of causing a permanent division, solidify the party and make it stronger and more invulnerable than ever. The Republicans of Erie county are satisfied with the outcome of the independent movements.—Erie Dispatch.

Beaconsfield's new novel Eudymion has disappointed the extravagant expectations of his publishers, who find themselves \$15,000 out of pocket, although they hope to balance the account by issuing a cheaper edition. The imaginative Beaucourt had dropped a few lines in a very delicate picture in his mind. It is of a group of men, and I see some of their faces in this audience, who, during my long term of public service, have never given a sign to me that they had any personal wish to gratify, except to see right principles prevail and good government maintained."

patrons of the school could reasonably demand. It should be a matter of no small degree of pleasure to our citizens, that there is an institution of so great efficiency in our midst. May we not fondly hope that old Witherspoon Institute will regain former renown and take rank among the first institutions of educational facilities in the State.
