According to a census just completed, the city of London has a population of 3,814,711. In 1871 the population was 3,351,804, the increase for the decade being 562,907.

America received her share of European honors last Monday. Lorillard's broncos won the Derby, and Professor Whitney of Yale was knighted for scientific attainments.

A fire occurred on the farm of Mrs. Phoebe Layton, Allegheny township, this county, Tuesday, May 31st. A derrick, and oil to the amount of eighty or one hundred barrels were burned.

Rev. Ferguson, of this place, started on a trip to California last Monday. At Chicago he will join an excursion party, who will have through cars to San Francisco. He expects to be absent two months.

One of the most important of the big railway schemes announced within the past few days is that of the proposed extension of the New York, Pennsylvania and Ohio road from Marion, Ohio, westward to Chicago.

An man committed suicide at Buffalo because the weather was too warm. In a note he wrote before the fatal act he says that he was going to look for a cooler place. Opinion is divided as to whether or not he will find the spot.

The annual literary and musical entertainment of Witherpoon Institute will take place at the Music Conservatory, (Happist Church), Thursday evening June 9th, at 7 1/2 o'clock. The Germania Orchestra will assist. All are invited. Admission 25 cents.

The hangman will be in demand this summer in all parts of the country, the number of convicted murderers and unconvicted culprits charged with the same offense being very large. Murder has not been so common in the criminal calendar, as it is now, for years.

Lydia E. Pinkham's Vegetable Compound doubtless ranks first as a curative agent in all diseases of the reproductive system, degeneration of the kidneys, irritation of the bladder, urinary calculi, &c. &c. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlet.

Three hundred men, women and children reached New York on Wednesday last week, to go thence to Utah. How different is the destiny of such poor, deluded fanatics from that of the sturdy Germans now reaching our shores and locking in the Western plains, to establish virtuous homes and build up great Commonwealths.

An old man and woman who live in adjacent poverty near Gerry Crawford county, made application to the Poor Superintendent for aid, which was granted after the usual proceedings, but subsequently it was discovered that the old man had in his possession a deed for a farm of four hundred acres, and the woman had \$900 in cash.

It is explained that the followers of Conkling call their opponents in New York half-breeds, because the latter think they are entitled to at least half the offices in the gift of the Republican Administration; while the stairwars want both halves and anything over, and all to be dispensed at the sovereign will and pleasure of the Imperious and Irritable fellow who goes murder.

A fatal accident on the Pennsylvania Road, between New York and Philadelphia, occurring through the carelessness of a switchtender, will create all the more comment from the fact that the road has an excellent reputation for careful management. Last week an open switch near Trenton caused an express train to plunge from the track while running at full speed. Two passengers were killed and many were seriously injured.

—Strawberry and ice cream festival this evening, in Reiber's new block, opposite Lowry House, for the benefit of the E. L. Church.

—The curiosity excited as to how many immigrants would come to Castle Garden during the month of May has at length been satisfied—the prodigious total is 76,652. This makes an average of nearly 2,500 a day for the month, and, of course, it surpasses anything before known in the growth of the country, being greater than some entire years of immigration. The influx represents, among other things, a certain proportion of men saved from becoming food for powder.

—Nearly if not all the Southwestern and Western States have enacted what they call contagion laws, which are designed to insure the health of the people by compelling the enforcement of strict sanitary laws. A feature of these laws is to counteract malarial influences. It is a fact in the West, as it is in the East, that every farmer and every householder in the rural districts and the towns is content if he can get rid of the material which produces malaria, so as not to injure himself, no matter who else is injured.

—To say the least, it was a mean trick to start those slanders against the man by profession, and organizer-at-arms of the National House and custodian of certain Congressional stipends by occupation. John G. is not guilty. He never intended to be guilty. Mr. Thompson positively says so, and that settles it. In fact the pride of Ohio Democracy is in many respects very much like that other.

—James John Thompson, a hedger and ditcher. Although he was poor did not want to be rich.

The party of laborers who have just completed the connecting link of narrow gauge road between Parker and Foxburg, arrived here over the P. K. C. & B. road last Tuesday morning. They had their tools, bedding, furniture and other householding goods with them. They hired teams and wagons here to take them to Evansburg, where they will commence work on that end of the road to be built to this place, and will live in shanties to be constructed for them. One of the bosses stated that another party of men would be here in a few days to commence work on this end.

—A terrible accident occurred at Parker lately caused by an explosion of nitroglycerine. A party of boys had found in the woods two empty shells that had contained the fluid. These were taken to the house of Mr. Bair, where James Moore, a brother-in-law of Bair, aged sixteen, endeavored with a hammer, to take off the cap of one. The shell exploded tearing his left hand and arm to shreds, and his body, in the region of the abdomen, in a terrible manner. Dr. Goheen was attending him, and at last once entertained no hopes of recovery. Young Moore's parents reside at Natrona.

—The recent riot at Clonmel, Ireland, was a rather serious affair, and the authorities seem to have had as much as they could do to restore order. In the fight between the military and the riotous stones were used by the latter so effectively that a number of the constabulary were seriously injured, one or two fatally. Many civilians were also severely injured. The cause of the riot was a report that a local clergyman had been arrested while a sale of farms was going on, for the immense crowd at once rallying for his rescue. This was barely defeated, the fight which resulted being a determined and bloody one.

—Efforts are being made to encourage the planting of groves of walnut trees for the purpose of cultivating these trees alike for the fruit they yield and for the value of the wood. The latter interest has lately become of great value. Thirty-five and forty years ago all fine furniture was made of mahogany, and then there was no hard wood finish in houses other than oak. Now the curious valuable hard wood is walnut, curled maple coming next in order. Black walnut is the most popular of all woods. This is the inducement to plant groves of walnut trees and to cultivate them with a view to attaining perfection of growth.

—The Advertisement House of N. W. Ayer & Son, occupying for its main room one entire floor of the Times building is an illustration of what may be attained by intelligence, integrity and well-directed energy in business. It is only a dozen years since Mr. Ayer commenced his advertising agency in this city on the smallest scale, when there were six established houses in the business here, and now the Ayer agency has almost entirely absorbed the Philadelphia agency advertising, and it ranks with the foremost advertising houses of the country. It is conducted on the soundest business principles, justly earning the confidence of both advertisers and public journals, and its remarkable success is simply the legitimate result of honesty and energy in prosecuting the advertising trade. Phila. Times.

—Holders of hopeless bonds and stocks sometimes confine their annual meetings, as if in memorial services over their losses, long after they have ceased to derive any consolation for the past or expectation for the future. This agency or instinct seems to have influenced the British bondholders of the Confederate cotton loan of 1863 in their meeting of Tuesday, at the Cannon Street Hotel, in London. Their only possibility of getting payment of their claims rests, apparently, in the Government of the United States, on which most of them confess that they have no legal claim. And the chance of our Government paying out money to indemnify the sinews of war for overthrowing it, hardly seem to justify the invitation given to contribute a shilling the hundred pounds, for the committee's expenses.

—Yield not to misfortune! Give Ely's Cream Balm a thorough trial if you would be cured of Catarrh, Hay Fever, Catarrh Deafness, or quickly relieved of colds in the head. Cream Balm effectively cleanses the nasal passages of catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranous linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh, Hay Fever, &c. The Balm is by its use made agreeable. Sold by druggists at

WM. LANCASTER, Wm. Musselman and George Ziegler, employed in a factory near Paupack, Pike county, met with a series of disasters on Wednesday last week. Lancaster was instantly killed by a board which flew from a saw and crushed in his ribs. Musselman had a part of a hand sawed off and Ziegler fell into a tank of boiling water and was fatally scalded.

Louis Leif was cutting down a tree near the factory and leaning on a limb when the mill inadvertently stepped under the falling tree and was crushed to death.

—The millers of Great Britain are becoming seriously alarmed at the prospect of their trade being monopolized by the mills of the United States. By way of endeavoring to maintain their prestige and their profits, which can only be done through the introduction of improved processes and the best machinery, they are holding an international exhibition of such machinery and its products in the great Agricultural Hall, London, which is very largely attended and well stocked. That the alarm of the British millers is not wholly groundless the London Times shows by statistics of the amount of home-grown and imported wheat and flour used in the United Kingdom for six years past. These show that whereas the quantity of flour coming from the States was only 1,772,000 hundred weight in 1876, it was 3,635,000 hundred weight in 1878, rose to 3,863,000 hundred weight in 1879, and nearly reached 7,000,000 hundred weight last year.

—The speculation of the near future will be in timber, of which the Northern and Middle States have wasted such enormous quantities, wantonly destroying forests that might have remained untouched as a heritage for future generations. Already in many of the Western States where there is much forest, speculators are buying all the timber land they can secure, with a view of transferring it to corporations, by which it will be held for future speculative purposes. The coal and slate fields of Pennsylvania are now completely under the control of corporations, by which these great natural resources are held for speculative operations, and directed in such a manner as always to be an imposition on the consumer, because they never come within the range of competition. There is no doubt whatever that the best timber lands of the North and West will pass under the control of corporate combinations of wealth, by which they will be made marketable in such a way as to increase their prices to the consumer.

—It has been lately a cause of alarm with some religious denominations that the number of young men studying for the ministry was growing smaller every year. They reason that it is only another evidence of the spread of infidelity and the drifting of the Nation towards a general skepticism which will not only destroy Christianity, but morality as well.

So far as the diminution of theological students is concerned, to a certain degree they are probably right. Boys now growing up are disposed to think for themselves in religious matters as well as in other things. The unquestioning faith of long ago, which took everything as true because believed by the fathers and grandfathers, is gone. Now can it be brought back again. Old doctrines do not possess the force of yore, although, in many places, the doubts and questionings are upon points which really are of little importance in human action, and if ignored would make no difference in the results of individual good directed by a conscientious desire to do good.

It is not much wonder that boys with bright, active minds hesitate to make choice of the ministry for a life work when they see that the effect of any independent thought is to ostracize them from the Church in which they have desired to labor. They see, to be sure, that the number of so-called independent Churches is constantly increasing, that in all large cities ministers with a portion of their flocks are cutting the bonds that unite them to the rest and setting up for themselves. If they know the story of the affair, they cannot fail to see that there has been an infinite amount of bad feeling; of jars; of bitter words; days and weeks of bitter sorrow to the satisfaction of Mr. Craig, the chair and made a few remarks, hoping that the proceeding would be harmonious.

The names of the districts were then called and the returns handed in and laid on the Secretary's desk. It was moved and seconded that the Convention proceed to the election of a permanent Chairman of County Commissioners. Mr. Craig was nominated, voted for by a rising vote. Craig had 26 votes. Walker had 21 votes. Mr. Craig's election was made unanimous.

—Messrs. Henry Weckbecker and J. F. Peffer were elected Secretaries of the County Convention.

No other business being before the Convention it was moved and carried that the Convention proceed to count the votes.

The Convention then took a recess till four o'clock to give the Chairman and Secretaries of the Convention time to tabulate and count the returns. The convention was called to order again at 4 o'clock. A motion was made that the chairman be authorized to appoint two more secretaries to help foot up the returns which was carried, but a motion that the secretaries be authorized to decide the result and declare the nominees, and that the convention now adjourn, was voted down. One delegate stated that it was understood that one of the returns would show 22 votes in excess of the Garfield vote, and that the return would be disputed. The question of a tie vote was also brought up, in which case according to the rules adopted, the candidates would have to draw lots in the presence of the convention.

On motion the convention adjourned till 7 p. m. Dr. Cunningham had to leave for home, and appointed Nathan Brown to take his place. The doctor received a vote of thanks from the convention. Nothing was done at the evening session except finishing counting the returns. No return was counted and no resolutions adopted.

—The Return Judges met in Wise's Hall Sunday afternoon at 7 o'clock. Chairman Craig called the Convention to order and appointed Messrs. Lusk and Brugh Secretaries.

The names of the districts were called when the following persons answered as Return Judges or Delegates: Adams, Miles Covert. Allegheny, Jas. S. Craig. Bradford, Fred Snyder. Buffalo, Tom Douglas. Butler, Wm. Markhart. Centre, Samuel Irwin. Cherry, L. F. McCoy. Clay, S. P. Painter. Fayette, F. J. Fennell. Chilton, John B. Davis. Concord, L. Kirby. Connoquessing, North, Alex Stewart. Karns City, Joseph Thomas. Marion, Wm. Johnson. Pottsville, M. C. Benedict. Prospect, C. C. Sullivan. Saxopolis, G. W. O'Neil. Sunbury, M. J. McLaughlin. Zelienople, A. V. Cunningham.

After the roll was called the Chairman suggested that all those not members of the Convention should take the gallery, which was complied with.

Messrs. M. C. Benedict and A. V. Cunningham were nominated for Chairman of the Committee, and voted for by viva voce.

M. C. Benedict received 20 votes. A. V. Cunningham received 25 votes. Mr. Cunningham was declared elected and his election was made unanimous.

Mr. Craig took the chair and made a few remarks, hoping that the proceeding would be harmonious.

and thus become a law, while the case was on trial, in which case he would be legislated out of office for this county, and would have to leave the bench, the case would have to be discontinued, and a question would arise as to whether or not White could again be arraigned for trial.

—Since Tuesday of last week the Legislature of New York has been held for U. S. Senators to take the places of Conkling and Platt, resigned. The leading Republican candidates for the short term (Conkling) are Cornell, Wheeler, Rodgers and Conkling. The leading Republican candidates for the long term (Platts) are Defew, Cornell, Lapham and Platt. Jacobs and Kernan are the Democratic caucus nominees.

Provision has been made by Congress for the erection of head stones, over the graves of Union soldiers who are buried in private and village cemeteries. This applies to those who have died since their discharge, as well as those who lost their lives in the service.

The stone is a slab of white American marble, two inches thick—ten inches wide and fifteen inches high above ground, and twenty-seven inches in the ground—the part above ground dressed in the usual manner of finishing marble headstones.

The inscription will be name, rank, company, regiment and date of death. The stone is furnished and set by the government.

We intend forwarding to the Quarter Master General, U. S. A., a list of the soldiers graves in Butler county, not marked, so far as we can ascertain the name. Anyone having knowledge of the burial place of any soldiers of the late war, in any churchyard, cemetery or private burial ground, in Butler county, whose grave is not marked, will please communicate the fact to A. G. Williams, Quarter Master, Post 105, G. A. R. Butler, Pa., giving name, rank, Co., regiment, date of death and place of burial.

This information should be furnished by July 1st 1881.

In case of recent death where the friends or relatives intend marking the grave, the names need not be sent.

—EMPLOYMENT FOR LADIES.—The Queen City Suspenders Company, of Cincinnati, are now manufacturing and introducing their Stocking Suspenders for Ladies and Children, and their unequalled Skirt Suspenders for Ladies. None should be without them; our ladies' friends request them, and are loud in their praise. These goods are manufactured by ladies who have made the wants of the ladies their study, and they ask us to refer them to some reliable energetic lady to introduce them in this county, and we certainly make an earnest solicitation in every household would meet with a ready response, and that a determined woman could make a handsome salary, and have the excellent agency for this county. We advise some lady who is in need of employment to send to the Company her name and address, and mention this paper. Address Queen City Suspenders Company, No. 147 & 149 West Fourth street, Cincinnati, Ohio.

One Experience From Many. I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me. That I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and I soon began to improve and gained so fast that my husband and family thought it strange and unnatural but when I told them what had helped me, they said "Hurrah for Hop Bitters; long may they prosper, for they have made mother well and us happy."—The Mother.—Home Journal.

It has never happened in this country before, and members of the party have denounced a leader and his methods with the unanimity that Conkling and Conklingism are condemned by Republicans and the Republican press. They are properly regarded by all thinking men as the cancer which will rot the heart out of the party unless cauterized, and that speedily.

Dr. George's Stomach and Liver Pad. Through a long course of years, after most thorough investigation and experience, Dr. George has perfected a Stomach and Liver Pad which for the diseases it is intended to be used, is superior to, and unequaled by any other Pad ever introduced; and while its worth and effectiveness is beyond comparison, the price has been so reduced, that it is placed within the reach of all classes, rich and poor, alike.
